Welcome from the Dean

On behalf of all my colleagues, I have great pleasure in welcoming you as a student in the Faculty of Economics and Business at The University of Sydney.

Founded over 75 years ago, the Faculty of Economics and Business has a rich history of intellectual endeavour and an outstanding reputation for excellence in teaching, learning and research. With a strong foundation in the social sciences, the Faculty offers a wide scope of scholarship across the economic, political and business disciplines that will provide you with an exciting and extensive range of study options having contemporary professional relevance.

The Faculty of Economics and Business comprises two schools: the School of Business and the School of Economics and Political Science. Each School comprises five major disciplinary areas, as follows:

The School of Business
- Accounting and Business Law
- Finance
- Marketing
- Transport and Logistics
- Work and Organisational Studies

The School of Economics and Political Science
- Economics
- Economic History
- Econometrics and Business Statistics
- Government and International Relations
- Political Economy

As a student you will benefit greatly from the rich diversity of learning offered by the Faculty and from our use of modern information and communication technologies in teaching and learning. Our distinctiveness is that we locate the key business disciplines in their economic, political and social contexts. Having regard to the significant changes occurring within the world of work generally, and in business and professional practices internationally, the Faculty is committed to providing you with a modern education that is both intellectually rigorous and relevant to careers in the business-related professions, industry, commerce and the public sector.

The Faculty of Economics and Business has high educational ideals and is committed to providing you with a University education that is at the cutting edge of knowledge. We seek to ensure that our academic programs are informed by the most recent research findings and by an understanding of contemporary business, government and management practices. Our aim is to equip you educationally for a professionally rewarding and successful career in your chosen field of study. Many of our alumni hold senior positions of leadership in the business, professional and government communities within Australia and around the world.

I very much hope that you will enjoy studying with us and that you will make the most of the abundant opportunities that are yours to obtain a broadly based educational foundation in economics, politics and business at The University of Sydney.

Professor Peter Wolnizer, Dean

The Faculty is proud of its committed teachers. Each year it recognises outstanding teaching with a Faculty Teaching Excellence Award. In addition, members of the Faculty have received University of Sydney Teaching Excellence Awards.

Recipient of Faculty Teaching Excellence Awards
- Jeff Brazell, Marketing
- Deborah Brennan, Government & International Relations
- John Carson, Economics
- Graeme Dean, Accounting & Business Law
- Bradon Ellem, Work & Organisational Studies
- Linda English, Accounting & Business Law
- Denzil Feibig, Econometrics & Business Statistics
- John Hobson, Government & International Relations
- Erne Houghton, Econometrics & Business Statistics
- Dianne Hutchinson, Economic History
- Susan McGrath-Champ, Work & Organisational Studies
- Gabrielle Meagher, Political Economy
- Lily Rahim, Economic History

Recipient of University Teaching Excellence Awards
- Linda English, Accounting & Business Law
- Michael Jackson, Government & International Relations
- Patty Kamvounias, Accounting & Business Law
- Frank Srilwell, Political Economy

Recipient of University SUPRA Teaching Award
- Jay Muthuswamy, Finance

Cathie Paul

Road and Butlin Avenue directly opposite the main City Road gates of the University. The Student Administration Office can be found on Level 2. The teaching disciplines are located in the Merewether and Institute buildings with the exception of the Institute of Transport Studies which is located in the Australian Graduate School of Management in Burren Street, Newtown. The School of Business will relocate to a new building close to the Merewether Building, due for completion in late 2001.

Lecture and seminar rooms
As far as is practicable, lectures and tutorials provided by the Faculty of Economics and Business are held in the Merewether Building or the Institute Building; however, more lectures and tutorials are now being held elsewhere in the University. In any case, during the annual examinations students will find themselves allotted seats in any part of the University. It is useful, therefore, to discover the whereabouts of lecture theatres and lecture rooms. The following will assist in direction and students are reminded that there is a map of the Main Campus of the University at the end of this handbook.

Merewether Lecture Theatres 1 and 2
These are fitted with tiered seats; the larger theatre is that nearer the Butlin Avenue/City Road corner. Entry is from the downstairs corridor or from the assembly area at the Covered Way level. Students late for lectures will assist if they enter by doors at the Covered Way level, that is, if they go to the back of the theatres.

Merewether Lecture Rooms 3, 4 and 5
Courtyard level, entry from the Colonnade.

Merewether Lecture Room 6
Butlin Avenue level, entry from downstairs corridor.

Merewether Seminar Rooms 1, 2, 3, 4, 5 and 6
Butlin Avenue level, entry from downstairs corridor.

Merewether Seminar Rooms 7, 9 and 11
Butlin Avenue level, entry from downstairs corridor, past entrance to Lecture Theatre 2.

Institute Lecture Theatre 1
In Institute Building at the front on City Road next to Merewether Building.

Institute Lecture Rooms 2 & 3 and Institute Rooms 331 & 386
In Institute Building on City Road next to Merewether Building.

Bosch Theatres
On Western Avenue, part of the lecture facilities of the Faculty of Medicine adjoining the Royal Prince Alfred Hospital area.

Carslaw Theatres and Seminar Rooms
On Eastern Avenue in the main University area.

PNR Theatres
The name given the Peter Nicol Russell Theatres of the Engineering Faculty. The Engineering precinct is along Darlington Road; a point of identification is, for example, the bright blue hydraulics tower of Civil Engineering.

Stephen Roberts Lecture Theatre
On Eastern Avenue; a separate building with irregular copper roof near Carslaw Building, and close to the boundary of the public park.

CHAPTER 2
Undergraduate degrees

The Faculty of Economics and Business offers four undergraduate degrees:

- Bachelor of Economics
- Bachelor of Economics (Social Sciences)
- Bachelor of Commerce
- Bachelor of Commerce (Liberal Studies)

Economics/Commerce is also available in the following combined degrees:

- Bachelor of Economics/Bachelor of Laws
- Bachelor of Economics (Social Sciences)/Bachelor of Laws
- Bachelor of Commerce/Bachelor of Laws
- Bachelor of Arts/Bachelor of Commerce
- Bachelor of Science/Bachelor of Commerce
- Bachelor of Engineering/Bachelor of Commerce
- Bachelor of Education/Bachelor of Economics (Social Sciences)

The degrees cater for quite different demands by students. Part of the difference in demand reflects the ways students perceive their career opportunities as flowing from their studies. Another reason for different choices is the distinct individual talents and interests of students. For example, if you have been at ease with mathematics at school, you may find that subjects like econometrics, finance and marketing appeal to you. This might be a reason for preferring either the BEc or the BCom to the BEc(SocSc). On the other hand, if you are interested in developing a broad understanding of the social environment in which economic activity takes place, or if you would like to minimise mathematical approaches, then your choice might be the BEc(SocSc).

Career possibilities

The employment opportunities for economics and commerce graduates have always been particularly promising, even in hard times. The Faculty’s degrees have been accorded a high degree of credibility in both the public and private sectors, the demand for ‘good’ graduates has nearly always exceeded the supply, and the range of career options has always been extensive.

Because of the wide range of subjects and courses available in the four degrees, you can position yourself for many different career paths. Many students choose a degree which will enable them to gain accreditation by the professional accounting bodies. Apart from this, a combination of economics and econometrics, if this is where your talents lie, opens up opportunities in economic research and forecasting positions in both the private and public sectors; specialisations in economics and finance position you well for careers in the financial sector of the economy, such as banking; a combination of economics and the study of government is valuable for a range of careers in the public and private sectors; and the study of industrial relations and human resource management opens up careers in personnel management or employment relations.

How far should your career plans determine your choice of subjects? There is no simple answer to this question. You should beware, in the first place, of putting all your career eggs in the one basket: the labour market changes, and your own aspirations may also change. In the second place, you should not be attracted solely by the apparent ‘practical relevance’ of a particular subject, as others may be just as important in preparing you for entering various careers: for example, a knowledge of economic history, including the cycles of boom and bust in the Australian and world economies, and the rise and fall of the economic health of nations, is invaluable in the world of business and government decision-making; and an understanding of the political and governmental frameworks within which national and international business functions is also vital.

Moreover, employers don’t only look at the label on your degree and the subjects you have studied, but also at the results you have obtained. You maximise your chance of getting good results if you take subjects that genuinely interest you. Just as importantly, you will also enjoy your time at University much more.

There is also the concept of ‘lifelong learning’ to consider. Nowadays, professionals rarely cease their education when they enter the workforce. Rather, they continue to learn throughout their careers (either through postgraduate study or other professional development). In a good Bachelor degree, you will learn how to learn about your chosen areas of study and build on this throughout your working life by continually updating your skills and knowledge.

In general, you should not let your current views of a prospective career determine your choices, especially in first year. Most of you will be taking subjects that are new and unfamiliar, and you will want to test out your aptitude and interests before committing yourself to a specialisation. First year lays the foundation, but try to leave some options open.

Some students are aware from the beginning of some particular area in which they want to specialise. In this case, there may be a program of study that is available in one degree rather than another.

The Faculty of Economics and Business at Sydney is unusual in that it offers students a choice between study in regular economics and study in political economy. Students interested in the latter approach to the study of economic issues would normally do the BEc(SocSc).

One final point: in addition to numeracy skills, an increasingly high premium is placed by employers on communication and general literacy skills. If this is one reason why access to Table B subjects is provided in your degree (ie, units of study which are taught in the Faculties of Arts or Science). In all the degrees there is (varying) scope to choose study in the humanities offered in the Faculty of Arts, where such skills are an essential component of learning. Within many of the Faculty’s own units of study, attention is paid to developing skills in logical argument through written and oral communication. Such skills are particularly important for the successful completion of study in Commercial Law and Government. Special courses in such skills as they relate to university work are also available through the University’s Learning Assistance Centre, or students may enrol in the unit of study entitled Communication and Critical Analysis which is offered within the Faculty of Economics and Business and may be counted towards your degree.

For detailed information on these and other subject areas, read the unit of study descriptions contained in the separate sections for each department in this handbook. There will be faculty advisers available to help you with your choices at enrolment time - although it will certainly help if you have read the relevant parts of this handbook carefully beforehand.

The Accounting quota

As you will be aware from reading the Universities Admissions Centre Guide, there is a quota limiting the number of students permitted to study ACCT1001 Accounting 1A and ACCT1002 Accounting 1B in each of the four degrees.

Because these units of study are compulsory at first year level in the BCom and are available in the BCom(Liberal Studies), all students enrolling in these degrees (or in combined commerce degrees) will come from the accounting quota.

Students may study Accounting in the BEd, provided that they are admitted through UAC code 511500 or 521500. Students admitted to the BEc or the BEc(SocSc) through UAC code 511501 or 521501 are restricted to enrolment in the terminating units of study ACCT1003 Financial Accounting Concepts and ACCT1004 Management Accounting Concepts (ie, such students are not able to
complete a major in Accounting or study for professional accreditation as an accountant).

**How to become an Accountant**

The Bachelor of Economics, the Bachelor of Commerce and the Bachelor of Commerce (Liberal Studies) degrees are accredited by the Australian Society of Certified Practising Accountants and The Institute of Chartered Accountants in Australia subject to the following requirements:

(i) completion of the following units of study as an accounting major: Accounting 1A and Accounting 1B, Management Accounting A, Management Accounting B, Financial Accounting A and Financial Accounting B;

(ii) completion of three semester units of commercial law: Commercial Transactions A, Corporations Law and Australian Taxation System (students in the combined law program will complete comparable subjects at the Law School);

(iii) completion of a fourth semester of Commercial Law to be a registered public auditor and

(iv) completion of Corporate Finance I, Accounting and Business Information Systems and Auditing (a third year elective).

Such a program would satisfy the requirements for registration by the Australian Society of Certified Practising Accountants for admission as an associate and for advancement to CPA status, and by The Institute of Chartered Accountants in Australia for admission to its Professional Year Program.

Of course, other combinations of subjects are possible and students are encouraged to consider the inclusion of subjects offered elsewhere within the Faculty (eg. Government, Industrial Relations, Economic History or Econometrics) or the University (eg. Computer Science and Arts subjects such as a language course or Philosophy) within their program. While such subjects may not satisfy specific professional accreditation requirements, they nonetheless provide the opportunity to design degree programs which are attractive to employers from commerce, industry and government.
CHAPTER 3

Regulations

Bachelor of Commerce

Duration: 3 years (144 credit points to complete)

The compulsory units of study are

ECON 1001 Introductory Microeconomics
ECON 1002 Introductory Macroeconomics
ACCT 1001 Accounting 1A
ACCT 1002 Accounting 1B
ECMT 101- Econometrics 1A
ECMT 102- Econometrics 1B

(Political Economy may be studied rather than Economics, but note that Political Economy does not satisfy the prerequisites for marketing or finance majors).

Majors

A major is usually a three-year sequence of study (in some cases, a two-year sequence) in a particular subject area. There are no compulsory majors in the BCom. Students choose any two majors from the following areas:

A new major in e-commerce also commences in 2001.

Table A

The BCom directs students towards study in those disciplines that are of particular relevance to the management and conduct of business and government, such as finance, marketing, IR&HRM and government policy.

Table B

Students are able to complete up to 44 credit points in the Faculties of Arts and Science. (These are referred to as Table B units of study.) You will notice that the BCom allows for more study outside Table A than the other three-year degrees offered in the Faculty of Economics and Business. This means that, for instance, a student could complete a three-year sequence in Arts as well as the Commerce content of the degree.

First year units of study

In the BCom students are restricted to a maximum of 60 credit points at first year level (referred to as level 1000 units of study). A standard semester-length unit of study at level 1000 is worth 6 credit points. This means that, after completing the usual 8 units of study in first year (totalling 48 credit points), students would only be able to complete a further two units of study at level 1000. All other study must be at second or third year level (ie, level 2000 or 3000).

Assumed knowledge

Students are not expected to have previously studied economics or commerce or business studies, however, a good grounding in Mathematics (at least 2 unit Maths at HSC level) is recommended for the study of Economics, Econometrics, Marketing and Finance. ‘General Mathematics’ at HSC level does not provide a sufficient grounding in Mathematics for the study of Economics and Econometrics. For students who have not completed 2 unit HSC Mathematics, a bridging course in Mathematics is strongly recommended.

Honours

To complete a BCom degree with Honours, a fourth year of study is required. After completing the requirements of the Pass degree (and attaining results which satisfy the entry requirements for Honours), students may specialise in an Honours year in one of the following areas:

Joint Honours in any two of these subject areas is also available.

Career opportunities and subject choice

Whether or not you have in mind to qualify as an accountant, the BCom offers you opportunities to enter the labour market with specialised knowledge and skills in varied fields that are of relevance to management and business affairs. In this degree, your choice of first year subjects is limited because of the three compulsory subject areas of Economics, Accounting and Econometrics, but in later years your choice is wider than in the BEc because it is not compulsory to major in economics.

Professional Accounting Accreditation

Students planning to satisfy the entry requirements of the Australian Society of Certified Practising Accountants or the Institute of Chartered Accountants in Australia should include in their degree a prescribed set of units of study, including a major in Accounting and a sequence of three semester units of study in Commercial Law. To be eligible to be a registered public auditor students must complete 4 semesters of Commercial Law. It is recommended that the sequence be completed as set out below.

Sample program

Professional accounting accreditation in the BCom

First year

Semester 1
ECON 1001 Introductory Microeconomics
ACCT 1001 Accounting 1A
ECMT 101- Econometrics 1A
Semester 2
ECON 1002 Introductory Macroeconomics
ACCT 1002 Accounting 1B
ECMT 102- Econometrics 1B

Second year

Semester 1
ACCT 2001 Financial Accounting A
CLAW 2001 Corporations Law
FINC 2001 Corporate Finance 1
Semester 2
ACCT 2002 Management Accounting A
ACCT 3002 Management Accounting B
ACCT 2003 Accounting & Business Information Systems

Third year

Semester 1
ACCT 3001 Financial Accounting B
CLAW 3001 Australian Taxation System
Semester 2
ACCT 3004 Auditing

Important note: Among the electives, a second Table A major must be completed. If that major is to be a subject commencing in first year, other than Commercial Law, Economics or Econometrics, you should start Commercial Law in second year.

For students who do not wish to study Accounting, the BCom offers a range of majors, plus the opportunity to study outside the Faculty. For example:
Sample program

- Management and finance

**First year**

**Semester 1**
- ECON 1001: Introductory Microeconomics
- ACCT 1001: Accounting 1A
- ECMT101-: Econometrics 1A
- ********

**Semester 2**
- ECON 1002: Introductory Macroeconomics
- ACCT 1002: Accounting 1B
- ECMT 102-: Econometrics 1B
- IREL 1002: Micro Industrial Relations

**Second year**

**Semester 1**
- IREL 2001: Foundations of Management
- ECON 2001: Intermediate Microeconomics
- FINC 2001: Corporate Finance I

**Semester 2**
- ECHS 2306: The Managerial Firm
- ECON 2002: Intermediate Macroeconomics
- FINC 2002: Corporate Finance II

**Third year**

**Semester 1**
- ********
- FINC 3002: Derivative Securities
- ECHS 2305: Strategy & Growth of Big Business

**Semester 2**
- ECON 3003: Hierarchies, Incentives & Firm Structure
- ECON 3012: Strategic Behaviour
- FINC 3004: Trading & Dealing in Securities Markets

**Time limits and maximum study**

Unless you enrol in a final year Honours program, you should complete your degree within ten years of commencement. This applies to part-time and full-time students and includes any periods when illness, family responsibilities, work commitments or travel may interrupt your studies.

A student in any one year may, except with the permission of the Faculty, enrol in the equivalent of no more than eight and no less than four full semester units of study.

Students are not normally permitted to enrol in more than 16 credit points (ie, two senior level units of study) above the number of credit points required for the degree. If you have completed your degree and are interested in further study, you are encouraged to enrol in a postgraduate course.

Use the course planner following to structure a degree which meets your interests and abilities.

---

**Bachelor of Commerce (Liberal Studies)**

Duration: 4 years (192 credit points to complete)

**The compulsory units of study:**

There is a compulsory unit of study: ECOF 1001 or ECOF 1002 Communication and Critical Analysis. First year Economics, Econometrics and Accounting are not compulsory.

However, you will find that many of the major sequences require these units as prerequisites or corequisites.

It is compulsory to complete four units of study in the Faculty of Arts (and/or in Economic History and/or in Government).

It is compulsory to complete two units of study in the Faculty of Science.

**Majors**

A major is usually a three-year sequence of study (in some cases, a two-year sequence) in a particular subject area.

Like other degrees in the Faculty of Economics and Business, students are required to complete two majors.

In the BCom(Liberal Studies) one of these majors must be drawn from a list of specifically commerce-related areas as follows:

The second major can be drawn from the broader list which includes all the above areas plus

A new major in ecommerce also commences in 2001.

**Table A**

The BCom (Liberal Studies) offers the same selection of study as the BCom, that is, study in those disciplines that are of particular relevance to the management and conduct of business, such as finance, marketing, management science and IR&HRM. Because of the length of the degree, however, there is more scope to study a broader range of commercially related subjects or to pursue interests in science or the humanities.

**Table B**

Up to 60 credit points of Table B units (ie, units of study from the Faculties of Arts and Science) may be completed. This includes the required units in Arts and Science. (You will notice that this degree permits considerably more choice of study outside the Faculty than the three-year degrees.)

**First year units of study**

In the BCom(Liberal Studies) students are restricted to a maximum of 96 credit points at first year level (referred to as 1000 level units of study). A standard semester-length unit of study at 1000 level is worth 6 credit points. This means that, after completing the usual 8 units of study in first year (totalling 48 credit points), students are able to enrol in up to eight further units of study at 1000 level throughout the course. This would appeal to a student who wishes to study only one year of a particular subject area. The philosophy behind a Liberal Studies degree is to encourage a broad curriculum. You may prefer, however, to use the flexibility of the degree to study more areas of commerce.

**Assumed knowledge**

Students are not expected to have previously studied economics or commerce or business studies, however, a good grounding in Mathematics (at least 2 unit Maths at HSC level) is recommended for the study of Economics, Econometrics, Marketing and Finance. 'General Mathematics' at HSC level does not provide a sufficient grounding in Mathematics for the study of Economics and Econometrics. For students who have
not completed 2 unit HSC Mathematics, a bridging course in Mathematics is strongly recommended.  
If you are not strong in mathematics, you should consider studying Political Economy rather than Economics (but note that Political Economy does not satisfy the prerequisites for Marketing or Finance majors).

Honours
To complete a BCom(Liberal Studies) degree with Honours, a fifth year of study is required. After completing the requirements of the Pass degree (and attaining results which satisfy the entry requirements for Honours), students may specialise in an Honours year in one of the following areas: Accounting, Computer Science, Economics, Econometrics, Economic History, Finance, Government, Industrial Relations, Marketing, Management Science.

Joint Honours in any two of these subject areas is also available.

Career opportunities and subject choice
Students planning to satisfy the entry requirements of the Australian Society of Certified Practising Accountants or the Institute of Chartered Accountants in Australia should include in their degree a prescribed set of units of study, including a major in Accounting and a sequence of three semester units of study in Commercial Law. The details of the requirements are listed in the entry for the Bachelor of Commerce. In this degree, the accounting study may be spread over four years and there is more opportunity to complete units in other commercially related areas or in Arts or Science.

It is important to note, however, that accounting is not compulsory in this degree and that students who do not wish to become professional accountants will also find it attractive. The Faculty of Economics and Business offers many relevant units of study beyond the two majors which students are required to complete. In a three year degree there is less scope to study these other areas. In the four-year degree, a student not majoring in accounting would have a wide range of commercially relevant areas to study as well as ample opportunity to pursue interests in science and the humanities.

Why has this degree been developed?
The University of Sydney Faculty of Economics and Business was the first in NSW to respond to the demands of the accounting profession for tertiary institutions to produce accounting graduates who have a broad range of skills. A good accountant needs to have high level professional skills, which the units of study in accounting will provide, but also needs to communicate with clients, to write clear and concise reports and to understand the workings of large corporations, small business, government and society.

The requirements for professional accounting accreditation are extensive and, consequently, in a standard three-year degree, students have limited opportunity to expand their studies into other areas. By offering the Bachelor of Commerce (Liberal Studies) the Faculty of Economics and Business provides more scope for study in other commercial areas (such as Marketing, Finance, IR&HRM, Economic History, Government* and Management) as well as languages, science and the humanities.

If you don’t want to be an accountant, the degree is also attractive since there is ample opportunity to study a commercially-relevant degree, while still pursuing interests in the humanities or the sciences.

A sample program of study is listed below, but this is only an indication of the many combinations available within this degree.

Sample program
Without accounting (majors in marketing and IR&HRM)

Year 1  
Semester 1  
ECON 1001 Introductory Microeconomics  
ECMT101- Econometrics 1A  
ACCT 1001 Accounting 1A  
Psychology (from Science)  
Semester 2  
ECON 1002 Introductory Macroeconomics  
ECMT 102- Econometrics 1B  
ECOF 1001 Communication & Critical Analysis  
Psychology (from Science)  

Year 2  
Semester 1  
ECON 2001 Intermediate Microeconomics  
MKTG 2001 Marketing Principles  
Japanese (from Arts)  
Semester 2  
IREL 1002 Micro Industrial Relations  
MKTG 2002 Consumer Behaviour  
MKTG 2003 Marketing Research I  
Japanese (from Arts)  

Year 3  
Semester 1  
FINC 2001 Corporate Finance I  
MKTG 3001 Marketing Research U  
IREL 1001 Macro Industrial Relations  
Semester 2  
IREL 2005 Human Resource Management*  
IREL 2003 Industrial Relations Policy*  
MKTG 3002 Marketing Communications  
Japanese (from Arts)  

Year 4  
Semester 1  
IREL 2007 Labor Law*  
IREL 2101 Strategic Management*  
MKTG 3003 Retail & Services Marketing  
Japanese (from Arts)  
Semester 2  
IREL 2011 Strategic Human Resource Management*  
IREL 2009 Organisational Analysis & Behaviour*  
IREL 2008 Work Safety*  
IREL 2104 Comparative Industrial Relations*  
MKTG 3004 New Products Marketing  
*These are half-semester units of study worth 4 credit points.

Time limits and maximum study
Unless you enrol in a final year Honours program, you should complete your degree within ten years of commencement. This applies to part-time and full-time students and includes any periods when illness, family responsibilities, work commitments or travel may interrupt your studies.

A student in any one year may, except with the permission of the Faculty, enrol in the equivalent of no more than eight and no less than four full semester units of study.

Students are not normally permitted to enrol in more than 16 credit points (ie. two senior level units of study) above the number of credit points required for the degree. If you have completed your degree and are interested in further study, you are encouraged to enrol in a postgraduate course.

Use the attached course planner to structure your degree. Table A for this degree follows the course planner.
Directions
1. Read the Faculty of Economics and Business Handbook carefully. Check prerequisites and corequisites.
2. Fill in the unit of study and the year you passed it.
3. Do not enter units of study which you have failed.
4. Include units of study passed at another institution or in another faculty, for which you have received credit.

Check list
Enrolment: You must enrol in at least 3 full semester units of study per semester and no more than 8 full semester units of study per year except with the Faculty permission.
The Degree: You must complete at least 144 credit points which must include two majors from subjects taught in the Faculty (Table A).

You must complete first year ACCT1001, ACCT1002, ECON 1001, ECON 1002 (or ECOP 1001 and ECOP 1002), ECMT 101- and ECMT 102-.
No more than 60 credit points at first year level may count towards the degree.
No more than 44 credit points from Table B units of study may count towards the degree.

### Commercial Law

A major in Commercial Law under Section 9(iii) consists of CLAW 1001, CLAW 2001 and four additional units of study in Commercial Law.

| CLAW 1001 Commercial Transactions A | 6   | February, July |
| CLAW 1002 Commercial Transactions B | 6   | P) CLAW1001.  |
| CLAW 2001 Corporations Law          | 8   | P) Any 4 full semester first year units of study including CLAW1001. |
| CLAW 2004 Banking and Finance Law   | 8   | P) CLAW1001. |
| CLAW 2006 Legal Issues for eCommerce | 8 | P) 48 credit points at level 1000. |

### Computer Science

A major in Computer Science under Section 9(iii) consists of 12 credit points at level 1000, 16 credit points at level 2000 and 16 credit points at level 3000, excluding INFO 1000.

| INFO 1000 Information Technology Tools | 6   | February, July (short) |
| COMP 1001 Introductory Programming | 6   | A) HSC 3-unit Mathematics.  
C) Students intending to major in Computer Science are advised to enrol in MATH 1003 and 1004 or 1004 and 1005 or 1003 and 1004 or 1904 and 1905 in their first year.  
N) May not be counted with COMP 1901. |
| COMP 1002 Introductory Computer Science | 6   | P) COMP 1001 or 1901.  
N) May not be counted with COMP 1902. |
| COMP 1901 Introductory Programming (Advanced) | 6 | A) HSC 3-unit Mathematics (Requires permission by the Head of Department).  
N) May not be counted with COMP 1001. |
| COMP 1902 Introductory Computer Science (Advanced) | 6 | P) Distinction in COMP 1901 or 1001.  
N) May not be counted with COMP 1002. |

■ Econometrics

For a major in Econometrics, the minimum requirement is ECMT101-, ECMT102-, ECMT 2010, and ECMT 3010; with two options chosen from ECMT 2021, ECMT 2030, ECMT 2720, ECMT 3020, ECMT 3030, ECMT 3260, ECMT 3210, ECMT 3220, ECMT 3230, or ECMT 3240. For entry to an honours year in Econometrics four of these options are required rather than two; these must include ECMT 2720 and ECMT 3020; and, a credit average or better is required in any four 3000 level courses taken from the discipline.

### Management Science

For a major in Management Science, the minimum requirement is ECMT101-, ECMT102-, ECMT 2010, ECMT 2720, and ECMT 3710; with one option chosen from ECMT 2021, ECMT 2030, ECMT 2710, ECMT 3250, ECMT 3260, ECMT 3210, ECMT 3220, ECMT 3230, ECMT 3240, or ECMT 3720. For entry to an honours year in Management Science three of these options are required rather than one; these must include ECMT 3720; and a credit average or better is required in ECMT 2720, ECMT 3710, and ECMT 3720.

| ECMT 1011 Econometrics 1A Stream 1 | 6             | A) 4 unit Maths. | N) MATH 1005, MATH 1905. | February  |
| ECMT 1012 Econometrics 1A Stream 2 | 6             | A) 3 unit Maths. | N) MATH 1005, MATH 1905. | February  |
| ECMT 1013 Econometrics 1A Stream 3 | 6             | A) 2 unit Maths. | N) MATH 1005, MATH 1905. | February, July (short) |
| ECMT 1021 Econometrics 1B Stream 1 | 6             | A) 4 unit Maths. | C) ECMT 1011. | N) MATH 1005, MATH 1905. | July      |
| ECMT 1022 Econometrics 1B Stream 2 | 6             | A) 3 unit Maths. | C) ECMT 1012. | N) MATH 1005, MATH 1905. | July      |
| ECMT 1023 Econometrics 1B Stream 3 | 6             | A) 2 unit Maths. | C) ECMT 1013. | N) MATH 1005, MATH 1905. | January (short) |
Marketing

A major in Marketing under Section 9(iii) consists of MKTG 2001, MKTG 2002, MKTG 2003 and MKTG 3001; and one other level 3000 full semester unit of study in Marketing.

MKTG 2001 Marketing Principles

MKTG 2002 Consumer Behaviour

MKTG 2003 Marketing Research I

MKTG 3001 Marketing Research II

■ Mathematics

A major in Mathematics under Section 9(iii) consists of 12 credit points at level 1000, 15 credit points at level 2000 and 16 credit points at level 3000.

| MATH 1001 Differential Calculus | 3 | A) HSC 3-unit Mathematics. | | N) May not be counted with MATH 1901 or 1011. | February, January (short) |
| MATH 1002 Linear Algebra | 3 | A) HSC 3-unit Mathematics. | | N) May not be counted with MATH 1902 or 1012. | February, January (short) |
| MATH 1003 Integral Calculus and Modelling | 3 | A) HSC 4-unit Mathematics or MATH 1001. | | N) May not be counted with MATH 1903 or 1013. | July, January (short) |
| MATH 1001 Differential Calculus (Advanced) | 3 | A) HSC 4-unit Mathematics or top decile 3-unit Mathematics. | | N) May not be counted with MATH 1001 or 1011. | February |
| MATH 1002 Linear Algebra (Advanced) | 3 | A) HSC 4-unit Mathematics or top decile 3-unit Mathematics. | | N) May not be counted with MATH 1002 or 1012. | February |
| MATH 1003 Integral Calculus and Modelling Advanced | 3 | A) HSC 4-unit Mathematics or Credit in (MATH 1901 or MATH 1001). | | N) May not be counted with MATH 1003 or 1013. | July |
| MATH 1004 Discrete Mathematics (Advanced) | 3 | A) HSC 4-unit Mathematics or top decile 3-unit Mathematics. | | N) May not be counted with MATH 1004. | July |
| MATH 2001 Vector Calculus and Complex Variables | 4 | P) MATH (1001 or 1901i or 1901) and (1002 or 1902) and (1003 or 1903 or 1907). | | N) May not be counted with MATH 2901. | February, January (short) |
| MATH 2002 Matrix Applications | 4 | P) MATH 1002 or 1001 or Distinction in MATH 1012. | | N) May not be counted with MATH 2902. | February, January (short) |
| MATH 2003 Introduction to Mathematical Computing | 4 | P) MATH (1001 or 1901 or 1906) and (1002 or 1902) and (1003 or 1903 or 1907). | | N) May not be counted with MATH 2903. | February |
| MATH 2004 Lagrangian Dynamics | 4 | P) MATH 2001 or 2901. | | N) May not be counted with MATH 2904. | July |
| MATH 2005 Fourier Series & Differential Equations | 4 | P) MATH (1001 or 1901 or 1906) and MATH (1002 or 1902) and MATH (1003 or 1903 or 1907). | | N) May not be counted with MATH 2905. | July, January (short) |

Table B

Table B consists of any units of study available in the Faculty of Arts or the Faculty of Science which are not included in Table A. Units from Table B are not available in Combined Law degrees.
Resolutions of the Senate: Bachelor of Commerce

1. (1) The units of study which are available for the degree are set out in Table A attached to these resolutions and in other tables approved by the Faculty.

(2) In respect of each unit of study the Faculty may designate prerequisite units of study, corequisite units of study and specific entry requirements and such information shall be added to Table A for the degree.

2. A candidate may be permitted by the Faculty to count towards the degree a unit of study or units of study other than those listed in Table A referred to in section 1.

3. (1) Each unit of study available for the degree is either a full year, half semester or semester unit of study and is designated as having a credit point value as described in Table A.

(2) A first year unit of study, where it comprises a half semester of study in the subject, shall have a value of 3 credit points; where it comprises a full semester of study, a value of 6 credit points.

(3) A later year unit of study, where it comprises a half semester of study in the subject, shall have a value of 4 credit points; where it comprises a full semester of study, a value of 8 credit points.

4. A candidate in any one year shall, except with the permission of the Faculty, enrol in the equivalent of no more than eight and no less than four full semester units of study.

5. A candidate may not, except with the permission of the Faculty, enrol in a unit of study unless the entry requirement for that unit of study is satisfied; an entry requirement may include the completion of a unit of study at a specified level.

6. A candidate may not count the same unit of study more than once towards the degree or count two units of study which overlap substantially in content.

7. Where in Table A referred to in section 1 a unit of study is designated a corequisite to another unit of study a candidate may, except with the permission of the Faculty, enrol in the latter unit of study only if he/she is concurrently enrolled in the corequisite unit of study or has already completed that unit of study.

8. Subject to the Senate resolutions concerning satisfactory progress and except with the permission of the Faculty, a candidate for the Pass degree must complete the requirements for the degree within ten calendar years of first enrolment for the degree, and, in the case of the Honours degree, within two calendar years of first enrolment in the Honours degree.

Pass degree

9. In order to qualify for the award of the degree a candidate shall complete units of study to the value of 144 credit points, which shall include:

(i) not less than 100 credit points from Table A;

(ii) a major in each of two subjects listed in Table A;

(iii) no more than 60 credit points at first year level;

(iv) 12 credit points at first year level in each of Accounting, Econometrics and Economics or Political Economy; and

(v) except with Faculty permission, no more than 44 credit points in total from subjects listed in Table B.

Except in the case of 10 (2), a major usually comprises a sequence of units of study of not less than 44 credit points, which shall include not less than 32 credit points of later year units of study, as specified for each subject in Table A.

Concurrent candidature for the degrees of Bachelor of Commerce and Bachelor of Laws

10. (1) A student may proceed concurrently as a candidate for the degrees of Bachelor of Commerce and Bachelor of Laws, and may receive credit for the units of study Legal Institutions, Law, Lawyers and Justice in Australian Society, Torts, Federal Constitutional Law, Contracts and Criminal Law for the Bachelor of Commerce degree, provided that the student may not count any further units of study from Table B; and provided that, with respect to section 4, permission of both the Faculties of Economics and Business and Law is required.

(2) A student enrolled in a third year Honours unit of study from Table A may fulfil the requirement for a second major in the Bachelor of Commerce by taking a minimum 32 credit points of third year level units of study from Table A (inclusive of Honours units of study).

Honours degree

11. The degree may be awarded with honours in:

Accounting
Computer Science
Economics
Political Economy
Econometrics
Economic History
Finance
Government
Industrial Relations and Human Resource Management
Marketing
Management Science.

12. The degree may also be awarded with joint honours in any two of the subjects in which honours are available.

13. There shall be three classes of honours, namely Class I, Class II and Class III and within Class II there shall be two divisions, namely Division 1 and Division 2.

14. If a student graduates with First Class Honours in any honours subject or in any of the forms of joint honours and the Faculty decides that the student’s work is of sufficiently high merit, the student shall receive a bronze medal.

15. A candidate may, except with Faculty permission, enrol in a fourth year honours course only on completion of requirements for the Pass degree and on satisfying any other entry requirements for the fourth year honours course.

16. A student who has been awarded the Pass degree at a recognised institution may subsequently be admitted to an honours unit of study and may qualify for the award of Honours upon completion of such additional requirements in such time as the Faculty may decide, provided that such a student may only be admitted to candidature for an Honours program up to six consecutive semesters after the award of the Pass degree. The honours degree must be completed within two calendar years of first enrolment.

17. A candidate who is qualified to enrol in two fourth year honours units of study may complete the final honours year in the two subjects in one year each or complete a joint honours year in the two subjects in one year.

18. A fourth year joint honours course shall comprise such parts of each of the related fourth year honours courses as may be decided by the Faculty.

19. A candidate may not, except with the permission of the Faculty, repeat an honours course which he/she has discontinued or failed once.

20. A candidate who does not complete an Honours degree may be permitted by the Faculty to count towards the Pass degree any honours units of study completed.

21. The Faculty may grant a candidate credit for units of study completed either at other institutions, or in other faculties within the University of Sydney provided that all the following conditions are met:

(i) the Faculty assesses the unit of study or units of study to be equivalent to units of study offered by the Faculty;

(ii) the units of study are not counted towards another qualification;

(iii) in the case of units of study completed at another institution, credit shall not be given for more than the equivalent of 10 full semester units of study, while credit may be granted for any number of credit points for units of study completed at the University of Sydney;

(iv) credit shall not be given for units of study completed ten or more years prior to the proposed year of enrolment.
22. The testamur for the degree shall specify the major subject areas as defined in Resolution 9.

Resolutions of the Senate:
Bachelor of Commerce (Liberal Studies)

1. (1) The units of study which are available for the degree are set out in Table A attached to these resolutions and in other tables approved by the Faculty.
(2) In respect of each unit of study the Faculty may designate prerequisite units of study, corequisite units of study and specific entry requirements and such information shall be added to Table A for the degree.

2. A candidate may be permitted by the Faculty to count towards the degree a unit of study or units of study other than those listed in Table A referred to in section 1.

3. (1) Each unit of study available for the degree is either a full semester or half semester unit of study and is designated as having a credit point value as described in Table A.
(2) A first year unit of study, where it comprises a half semester of study in the subject, shall have a value of 3 credit points and where it comprises a full semester of study, a value of 6 credit points.
(3) A later year unit of study, where it comprises a half semester of study in the subject, shall have a value of 4 credit points; where it comprises a full semester of study, a value of 8 credit points.

4. A candidate in any one year shall, except with the permission of the Faculty, enrol in the equivalent of no more than eight and no less than four full semester units of study.

5. A candidate may not, except with the permission of the Faculty, enrol in a unit of study unless the entry requirement for that unit of study is satisfied; an entry requirement may include the completion of a unit of study at a specified level.

6. A candidate may not count the same unit of study more than once towards the degree or count two units of study which overlap substantially in content.

7. Where in Table A referred to in section 1 a unit of study is designated a corequisite to another unit of study a candidate may, except with the permission of the Faculty, enrol in the latter unit of study only if he/she is concurrently enrolled in the corequisite unit of study or has already completed that unit of study.

8. Subject to the Senate resolutions concerning satisfactory progress and except with the permission of the Faculty, a candidate for the Pass degree must complete the requirements for the degree within ten calendar years of first enrolment for the degree, and, in the case of the Honours degree, within two calendar years of first enrolment in the Honours degree.

Pass degree

9. In order to qualify for the award of the degree a candidate shall complete units of study to the value of 192 credit points, which shall include:
(i) not less than 100 credit points from Table A;
(ii) a major in each of two subjects listed in Table A, with at least one of these majors being drawn from the following subject areas:
Accounting
Commercial Law
Economics
Econometrics
Finance
Industrial Relations and Human Resource Management
Marketing
Management
(iii) no more than 96 credit points at first year level;
(iv) the compulsory first year level unit of study Communication and Critical Analysis 1A or Communication and Critical Analysis 1B; and
(v) except with Faculty permission, no more than 60 credit points in total from subjects listed in Table B. Of these, 4 semester units of study must be drawn from the Faculty of Arts or from the Discipline of Economic History or the Discipline of Government International Relations. Also, 2 semester units of study must be drawn from the Faculty of Science.

A major usually comprises a sequence of units of study of not less than 44 credit points, which shall include not less than 32 credit points of later year units of study, as specified for each subject in Table A.

Honours degree

10. The degree may be awarded with honours in:
Accounting
Computer Science
Economics
Political Economy
Econometrics
Economic History
Finance
Government
Industrial Relations and Human Resource Management
Marketing
Management Science.

11. The degree may also be awarded with joint honours in any two of the subjects in which honours are available.

12. There shall be three classes of honours, namely Class I, Class II and Class III and within Class II there shall be two divisions, namely Division 1 and Division 2.

13. If a student graduates with First Class Honours in any honours subject or in any of the forms of joint honours and the Faculty decides that the student's work is of sufficiently high merit, the student shall receive a bronze medal.

14. A candidate may, except with Faculty permission, enrol in a fifth year honours course only on completion of requirements for the Pass degree and on satisfying any other entry requirements for the fifth year honours course.

15. A student who has been awarded the Pass degree at a recognised institution may subsequently be admitted to an honours unit of study and may qualify for the award of Honours upon completion of such additional requirements in such time as the Faculty may decide, provided that such a student may only be admitted to candidature for an Honours program up to six consecutive semesters after the award of the Pass degree. The honours degree must be completed within two calendar years of first enrolment.

16. A candidate who is qualified to enrol in two fifth year honours courses may complete the final honours year in the two courses in one year each or complete a joint honours year in the two courses in one year.

17. If a student is awarded the Pass degree, the Faculty decides that the student's work is of sufficiently high merit, the student shall receive a bronze medal.

18. A candidate may not, except with the permission of the Faculty, repeat an honours course which he/she has discontinued or failed once.

19. A candidate who does not complete an Honours degree may be permitted by the Faculty to count towards the Pass degree any honours units of study completed.

20. The Faculty may grant a candidate credit for units of study completed either at other institutions, or in other faculties within the University of Sydney provided that all the following conditions are met:
(i) the Faculty assesses the unit of study or units of study to be equivalent to units of study offered by the Faculty;
(ii) the units of study are not counted towards another qualification;
(iii) in the case of units of study completed at another institution, credit shall not be given for more than the equivalent of 10 full semester units of study, while credit may be granted for any number of credit points for units of study completed at the University of Sydney;
(iv) credit shall not be given for units of study completed ten or more years prior to the proposed year of enrolment.

21. The testamur for the degree shall specify the major subject areas as defined in Resolution 9.
Bachelor of Economics
Duration: 3 years (144 credit points to complete)

The compulsory units of study are
ECON 1001 Introductory Microeconomics
ECON 1002 Introductory Macroeconomics
ECON 2001 Intermediate Microeconomics
ECON 2002 Intermediate Macroeconomics

and two elective semester units at the 3000 level, each worth 8 credit points (ie, a three-year sequence in Economics), plus
ECMT 101- Econometrics 1A
ECMT 102- Econometrics 1B

Majors
A major is usually a three-year sequence of study (in some cases, a two-year sequence) in a particular subject area. BEc students are required to complete a major in Economics plus one other major from the following areas:

A new major in commerce also commences in 2001.

Table A
The BEc encourages students to concentrate their studies in a range of subjects which are of central importance to the academic discipline of economics and to some of the specialised career patterns for graduates in economics. Students combine the major in Economics with another major chosen from the above list. Other units of study to complete the degree may be chosen from those listed in Table A for the Bachelor of Economics and some units of study from Table B (see below).

Table B
A maximum of 28 credit points may be studied in the Faculties of Arts and Science. These are referred to as Table B units of study. For example, a student may wish to study some Philosophy (from Arts) or Psychology (from Science). It is possible to do more than a two-year sequence in these subject areas if permission is granted by the Faculty.

First year units of study
In the BEc, students are restricted to a maximum of 60 credit points at first year level (referred to as ‘1000 level’ units of study). A standard semester-length unit of study at 1000 level is worth 6 credit points. This means that, after completing the usual 8 units of study in first year (totalling 48 credit points), students would only be able to complete a further two units of study at 1000 level. All other study must be at second or third year level (ie, 2000 or 3000 level).

Assumed knowledge
Students are not expected to have previously studied economics, however, a good grounding in Mathematics (at least 2 unit Maths at HSC level) is recommended for the study of Economics, Econometrics, Marketing and Finance. ‘General Mathematics’ at HSC level does not provide a sufficient grounding in Mathematics for the study of Economics and Econometrics. For students who have not completed 2 unit HSC Mathematics, a bridging course in Mathematics is strongly recommended.

Honours
To complete a BEc degree with Honours, a fourth year of study is required. After completing the requirements of the Pass degree (and attaining results which satisfy the entry requirements for Honours), students may specialise in an Honours year in one of the following areas:
Joint Honours in any two of these subject areas is also available.
A detailed outline of the Faculty’s Honours policy is contained in the Honours 2000 booklet.

Career opportunities and subject choice
In the BEc you can position yourself for many different career paths. Students entering the degree through the UAC code 511500 or 521500 have been admitted to the accounting quota and may train for a career in the accounting profession.
Apart from this, a combination of economics and econometrics, if this is where your talents lie, opens up opportunities in economic research and forecasting positions in both private and public sectors. Specialisations in economics and finance position you well for careers in the financial sector of the economy, such as banking. A combination of economics and the study of government is valuable for a range of careers in the public and private sectors; and the study of industrial relations and human resource management opens up careers in personnel management or employment relationships.

BEc without Accounting
UAC codes 511501 and 521501
Below are some sample programs showing how the BEc degree is structured. To complement the compulsory Economics major, students can choose from a range of other majors.

Sample program
One pattern of study would be to combine study in Marketing with Economics:

First year
Semester 1
ECON 1001 Introductory Microeconomics
ACCT 1003 Financial Accounting Concepts
ECMT 101- Econometrics 1A
******** Elective
Semester 2
ECON 1002 Introductory Macroeconomics
ACCT 1004 Management Accounting Concepts
ECMT 102- Econometrics 1B
********

Second year
Semester 1
ECON 2001 Intermediate Microeconomics
MKTG 2001 Marketing Principles
******** Elective
Semester 2
ECON 2002 Intermediate Macroeconomics
MKTG 2002 Consumer Behaviour
MKTG 2003 Marketing Research I
Third year
Semester 1
ECON 3009 Markets, Regulation & Govt Policy
MKTG 3001 Marketing Research II
******** Elective
Semester 2
ECON 3010 Monetary Economics
MKTG 3004 New Products Marketing

Other popular combinations are Economics with Finance, with Economic History or with Government.
BEng with Accounting
UAC codes 511500 and 521500

If you are admitted to the BEng via these UAC codes you may follow a program of study which will enable you to be admitted to the Australian Society of Certified Practising Accountants or the Institute of Chartered Accountants in Australia. You can do this by taking the following program.

Sample Program
Professional accounting accreditation and the compulsory major in economics

**First year**

**Semester 1**
- ECON 1001 Introductory Microeconomics
- ACCT 1001 Accounting 1A
- CLAW 1001 Commercial Transactions A
- ECMT 101- Econometrics 1A

**Semester 2**
- ECON 1002 Introductory Macroeconomics
- ACCT 1002 Accounting 1B
- ******** Elective (e.g., Commercial Law)
- ECMT 102- Econometrics 1B

**Second year**

**Semester 1**
- CLAW 2001 Corporations Law
- FTNC 2001 Corporate Finance I

**Semester 2**
- ECON 2002 Intermediate Macroeconomics
- ACCT 2001 Financial Accounting A
- ACCT 3002 Management Accounting B
- ACCT 2003 Accounting & Business Information Systems

**Third year**

**Semester 1**
- ECON 2001 Intermediate Microeconomics
- ACCT 3001 Financial Accounting B
- CLAW 3001 Australian Taxation System

**Semester 2**
- ECON 3011 Public Finance
- ACCT 3004 Auditing
- ECON 3012 Strategic Behaviour

**Time limits and maximum study**

Unless you enrol in a final year Honours program, you should complete your degree within ten years of commencement. This applies to part-time and full-time students and includes any periods when illness, family responsibilities, work commitments or travel may interrupt your studies.

A student in any one year may, except with the permission of the Faculty, enrol in the equivalent of no more than eight and no less than four full semester units of study.

Students are not normally permitted to enrol in more than 16 credit points (i.e., two senior level units of study) above the number of credit points required for the degree. If you have completed your degree and are interested in further study, you are encouraged to enrol in a postgraduate course.

The following page contains a course planner to assist you in structuring a combination of units of study which suit your interests and abilities.

Table A for this degree follows the course planner.
Bachelor of Economics Course Planner

**Directions**
1. Read the *Faculty of Economics and Business Handbook* carefully. Check prerequisites and corequisites.
2. Fill in the unit of study and the year you passed it.
3. Do not enter units of study which you have failed.
4. Include units of study passed at another institution or in another faculty, for which you have received credit.

**Check List**
- You must enrol in at least 3 full semester units of study per semester and no more than 8 full semester units of study per year except with the Faculty permission.
- You must complete at least 144 credit points which must include two majors.
- Courses must include Economics (ECON) 1001,1002, 2001,2002 & two 3000 level units of study in Economics (ie a major) and one other major from subjects taught in the Faculty (Table A). Also ECMT 101-, 102-.

## Econometrics

For a major in Econometrics, the minimum requirement is ECMT101-, ECMT102-, ECMT 2010, and ECMT 3010; with two options chosen from ECMT 2021, ECMT 2030, ECMT 2720, ECMT 3020, ECMT 3030, ECMT 3260, ECMT 3210, ECMT 3220, ECMT 3230, or ECMT 3240. For entry to an honours year in Econometrics four of these options are required rather than two; these must include ECMT 2720 and ECMT 3020; and, a credit average or better is required in any four 3000 level courses taken from the discipline.

**Management Science**

For a major in Management Science, the minimum requirement is ECMT101-, ECMT102-, ECMT 2010, ECMT 2720, and ECMT 3710; with one option chosen from ECMT 2021, ECMT 2030, ECMT 2710, ECMT 3250, ECMT 3260, ECMT 3210, ECMT 3220, ECMT 3230, ECMT 3240, or ECMT 3720. For entry to an honours year in Management Science three of these options are required rather than one; these must include ECMT 3720; and a credit average or better is required in ECMT 2720, ECMT 3710, and ECMT 3720.

#### Marketing

A major in Marketing under Section 9(iii) consists of MKTG 2001, MKTG 2002, MKTG 2003 and MKTG 3001; and one other level 3000 full semester unit of study in Marketing.

| MKTG 2001 Marketing Principles | 8            | P) ECON1001, ECON1002, ECMT1010 and ECMT1020. | February, January (short) |
| MKTG 3001 Marketing Research II| 8            | P) MKTG2001 and MKTG2002 and MKTG2003 and ECON2001. | February                   |
| MKTG 3002 Marketing Communications | 8        | P) MKTG2001 and MKTG2002 and MKTG2003 and MKTG3001 and ECON2001. | July                      |
| MKTG 3003 Retail and Services Marketing | 8 | P) MKTG2001 and MKTG2002 and MKTG2003 and ECON2001. | February                   |
| **MKTG 4101** Marketing Honours A | 12           | P) Major in Marketing with a minimum of a high credit average in the core marketing syllabus (including at least one distinction or better grade), plus high achievement in Econometrics 2010 and 2020. Requirements for the pass degree must be completed before entry to level 4000 honours units of study. | February, July |
| **MKTG 4102** Marketing Honours B | 12           |                                    | February, July             |
| **MKTG 4103** Marketing Honours C | 12           |                                    | February, July             |
| **MKTG 4104** Marketing Honours D | 12           |                                    | February, July             |
### Mathematics

A major in Mathematics under Section 9(iii) consists of 12 credit points at level 1000, 15 credit points at level 2000 and 16 credit points at level 3000.

#### Political Economy

A major in Political Economy under Section 9(h) consists of ECOP 1001 and ECOP 1002, ECOP 2001 and ECOP 2002 and two units from ECOP 3000 level (or one unit from ECOP 3000 level and one unit from ECON 3000 level).

**Table B**

Table B consists of any units of study available in the Faculty of Arts or the Faculty of Science which are not included in Table A. Units from Table B are not available in Combined Law degrees.
Resolutions of the Senate: Bachelor of Economics

1. (1) The units of study which are available for the degree are set out in the table of units of study attached to these resolutions and in other tables approved by the Faculty.

(2) In respect of each unit of study the Faculty may designate prerequisite units of study, corequisite units of study and specific entry requirements and such information shall be added to the Table A for the degree.

2. A candidate may be permitted by the Faculty to count towards the degree a unit or units of study other than those listed in Table A referred to in section 1.

3. (1) Each unit of study available for the degree is either a full semester or half semester unit of study and is designated as having a credit point value as described in Table A.

(2) A first year unit of study, where it comprises a half semester of study in the subject, shall have a value of 3 credit points; where it comprises a full semester of study, a value of 6 credit points.

(3) A later year unit of study, where it comprises a half semester of study in the subject, shall have a value of 4 credit points; where it comprises a full semester of study, a value of 8 credit points.

4. A candidate in any one year shall, except with the permission of the Faculty, enrol in a unit of study unless the entry requirement for that unit of study is satisfied; an entry requirement may include the completion of a unit of study at a specified level.

5. A candidate may not, except with the permission of the Faculty, enrol in a unit of study unless the entry requirement for that unit of study is satisfied; an entry requirement may include the completion of a unit of study at a specified level.

6. A candidate may not count the same unit of study more than once towards the degree or count two units of study which overlap substantially in content.

7. Where in Table A referred to in section 1 a unit of study is designated a corequisite to another unit of study a candidate may, except with the permission of the Faculty, enrol in the latter unit of study only if he/she is in the corequisite unit of study or has already completed that unit of study.

8. Subject to the Senate resolutions concerning satisfactory progress and except with the permission of the Faculty, a candidate for the Pass degree must complete the requirements for the degree within ten calendar years of first enrolment for the degree, and, in the case of the Honours degree, within two calendar years of first enrolment in the Honours degree.

9. In order to qualify for the award of the degree a candidate shall complete units of study to the value of 144 credit points, which shall include:
   (i) 12 credit points in Econometrics;
   (ii) a major in Economics;
   (iii) a major in a subject other than Economics listed in Table A;
   (iv) no more than 60 credit points at first year level; and
   (v) except with Faculty permission, no more than 28 credit points in total from subjects listed in Table B.

Except in the case of 10(2), a major usually comprises a sequence of units of study of not less than 44 credit points, which shall include not less than 32 credit points of later year units of study, as specified for each subject in Table A.

Concurrent candidature for the degrees of Bachelor of Economics and Bachelor of Laws

10. (1) A student may proceed concurrently as a candidate for the degrees of Bachelor of Economics and Bachelor of Laws, and may receive credit for the units of study Legal Institutions, Law, Lawyers and Justice in Australian Society, Torts, Federal Constitutional Law, Contracts Law and Criminal Law for the Bachelor of Economics degree, provided that the student may not count any further units of study from Table B; and provided that, with respect to section 5, permission of both the Faculties of Economics and Business and Law is required.

(2) A student enrolled in a third year Honours course from Table A may fulfil the requirement for a second major in the Bachelor of Economics by taking a minimum 32 credit points of third year level units of study from Table A (inclusive of Honours units of study).

Honours degree

11. The degree may be awarded with honours in:
   - Accounting
   - Computer Science
   - Economics
   - Econometrics
   - Economic History
   - Finance
   - Geography
   - Government
   - Industrial Relations and Human Resource Management
   - Marketing
   - Management Science.

12. The degree may also be awarded with joint honours in any two of the subjects in which honours are available.

13. There shall be three classes of honours, namely Class I, Class II and Class III. Within Class I there shall be two divisions, namely Division 1 and Division 2.

14. If a student graduates with First Class Honours in any honours subject or in any of the forms of joint honours and the Faculty decides that the student's work is of sufficiently high merit, the student shall receive a bronze medal.

15. A candidate may, except with Faculty permission, enrol in a fourth year honours course only on completion of requirements for the Pass degree and on satisfying any other entry requirements for the fourth year honours course.

16. A student who has been awarded the Pass degree at a recognised institution may subsequently be admitted to an honours unit of study and may qualify for the award of Honours upon completion of such additional requirements in such time as the Faculty may decide, provided that such a student may only be admitted to candidature for an Honours program up to six consecutive semesters after the award of the Pass degree. The honours degree must be completed within two calendar years of first enrolment.

17. A candidate who is qualified to enrol in two fourth year honours courses may complete the final honours year in the two subjects in one year each or complete a joint honours year in the two subjects in one year.

18. A fourth year joint honours course shall comprise such parts of each of the related fourth year honours courses as may be decided by the Faculty.

19. A candidate may not, except with the permission of the Faculty, repeat an honours course which he/she has discontinued or failed once.

20. A candidate who does not complete an Honours degree may be permitted by the Faculty to count towards the Pass degree any honours units of study completed.

21. The Faculty may grant a candidate credit for units of study completed either at other institutions, or in other faculties within the University of Sydney provided that all the following conditions are met:
   (i) the Faculty assesses the unit or units of study to be equivalent to units of study offered by the Faculty;
   (ii) the units of study are not counted towards another qualification;
   (iii) in the case of units of study completed at another institution, credit shall not be given for more than the equivalent of 10 full semester units of study, except in the case of graduands admitted by Heads of Department to an Honours program, while credit may be granted for any number of credit points for units of study completed at the University of Sydney;
   (iv) credit shall not be given for units of study completed ten or more years prior to the proposed year of enrolment.
22. A student who was enrolled as a candidate for the degree prior to 1 January 1993 and who has not completed the requirements for the degree by 1 January 1997 shall be transferred to the degree structure which took effect for commencing students from 1 January 1993.

23. The testamur for the degree shall specify the major subject areas as defined in Resolution 9.

Bachelor of Economics (Social Sciences)

Duration: 3 years (144 credit points to complete)

The compulsory units of study are

either
ECOP 1001 Economics as a Social Science
ECOP 1002 Structure & Change in Modern Economies
ECOP 2001 The Surplus Approach in Political Economy
ECOP 2002 Social Foundations of Modern Capitalism (ie, a two-year sequence in political economy)
or
ECON 1001 Introductory Microeconomics
ECON 1002 Introductory Macroeconomics
ECON 2001 Intermediate Microeconomics
ECON 2002 Intermediate Macroeconomics (ie, a two-year sequence in orthodox economics)

Majors
A major is usually a three-year sequence of study (in some cases, a two-year sequence) in a particular subject area. In addition to two years of study in Political Economy or Economics, students are required to complete two majors from the following areas:

(You may choose to complete a three-year sequence in Political Economy or Economics, in which case you would choose only one additional major from the above list).

Instead of choosing two majors in this degree, students may complete a double major in either Political Economy, Government or Economic History.

Table A
A wider range of humanities-based subjects are available in this degree. The BEc(SocSc) suits students who are interested in developing a broad understanding of the social environment in which economic activity takes place, or who would like to minimise mathematical approaches. In Table A you will notice that some subject areas taught in the Faculties of Arts or Science are available as majors. Students who are interested in majoring in Government and Psychology (a popular combination) could enrol in this degree. Please note: Finance and Marketing are not available in the BEc(SocSc).

Table B
A maximum of 28 credit points may be studied in the Faculties of Arts and Science. These are referred to as Table B units of study (ie, in addition to the Arts/Science subject areas which are listed in Table A). It is possible to study more than 28 credit points from Table B with Faculty permission.

First year units of study
In the BEc(SocSc), students are restricted to a maximum of 60 credit points at first year level (referred to as level 1000 units of study). A standard semester-length level 1000 unit of study is worth 6 credit points. This means that, after completing the usual 8 units of study in first year (totalling 48 credit points), students would only be able to complete a further two units of study at level 1000. All other study must be at second or third year level (ie, level 2000 or 3000).

Assumed knowledge
Students are not expected to have previously studied economics. This degree offers the widest choice of units of study which do not require a sound mathematical background. If you intend studying Economics and/or Econometrics you will require 2 unit Mathematics at HSC level.
Honours
To complete a BEc(SocSc) degree with Honours, a fourth year of study is required. After completing the requirements of the Pass degree (and attaining results which satisfy the entry requirements for Honours), students may specialise in an Honours year in one of the following areas:
- Economics
- Political Economy
- Economic History
- Geography
- Government
- Industrial Relations
- Philosophy
- Psychology
- Religious Studies
- Social Anthropology
- Sociology
- Gender Studies
Joint Honours in any two of these subject areas is also available.
A detailed outline of the Faculty’s Honours policy is contained in the Honours 2000 booklet.

Career opportunities and subject choice
The BEc(SocSc) is designed as a general economics degree. Nevertheless, there are some combinations which have a significant professional relevance. The combination of Psychology and Human Resource Management could lead to a career in Personnel Management/HRM. Studying Political Economy and Government would be relevant to many public and private sector careers.

In the examples of course structures provided below you should remember that you may choose a sequence of units of study from either orthodox economics or political economy. You should remember, however, that if you choose to study in orthodox Economics (ECON 1001/1002/2001/2002/3000) you should also include Econometrics 1A and 1B (ECMT101/-/102-) which are corequisites for Economics at 2000 level.

Sample program

Majors in Political Economy and Government

First year
Semester 1
ECOP 1001 Economics as a Social Science
GOVT 1101 Australian Politics
    Elective
    Elective
Semester 2
ECOP 1002 Structure & Change in Modern Economies
GOVT 1202 World Politics
    Elective
    Elective

Second year
Semester 1
ECOP 2001 The Surplus Approach in Political Economy
GOVT 2104 Political Party System in Australia
    Elective
Semester 2
ECOP 2002 Social Foundations of Modern Capitalism
GOVT 2303 Media Politics
    Elective

Third year
Semester 1
ECOP 3001 Economic Conflict and the State
GOVT 2414 Federalism
    Elective
Semester 2
ECOP 3002 Global Political Economy
GOVT 2502 Policy Analysis
    Elective

Time limits and maximum study
Unless you enrol in a final year Honours program, you should complete your degree within ten years of commencement. This applies to part-time and full-time students and includes any periods when illness, family responsibilities, work commitments or travel may interrupt your studies.
A student in any one year may, except with the permission of the Faculty, enrol in the equivalent of no more than eight and no less than four full semester units of study.

Students are not normally permitted to enrol in more than 16 credit points (i.e., two senior level units of study) above the number of credit points required for the degree. If you have completed your degree and are interested in further study, you are encouraged to enrol in a postgraduate course.
A course planner is provided on the next page to assist you in planning your units of study. Table A for this degree follows the course planner.
Directions
1. Read the Faculty of Economics and Business Handbook carefully. Check prerequisites and corequisites.
2. Fill in the unit of study and the year you passed it.
3. Do not enter units of study which you have failed.
4. Include units of study passed at another institution or in another faculty, for which you have received credit.

Check List
Enrolment: You must enrol in at least 3 full semester units of study per semester and no more than 8 full semester units of study per year except with the Faculty permission.

First year
The Degree: You must complete at least 144 credit points which must include two majors.
You must complete ECON 1001 & ECON 1002 or ECOP1001 & ECOP1002 and ECON 2001 & ECON 2002 or ECOP 2001 & ECO P2002.

### Table B

Table B consists of any units of study available in the Faculty of Arts or the Faculty of Science which are not included in Table A. Units from Table B are not available in Combined Law degrees.
Concurrent candidature for the degree of Bachelor of Economics (Social Sciences) and Bachelor of Laws

10. (1) A student may proceed concurrently as a candidate for the degrees of Bachelor of Economics (Social Sciences) and Bachelor of Laws, and may receive credit for the units of study Legal Institutions, Law, Lawyers and Justice in Australian Society, Torts, Federal Constitutional Law, Contracts and Criminal Law for the Bachelor of Economics (Social Sciences) degree, provided that the student may not count any further units of study from Table B; and provided that, with respect to section 4, permission of both the Faculties of Economics and Business and the Faculty of Law is required.

(2) A student enrolled in a third year Honours unit of study from Table A may fulfil the requirement for a second major in the Bachelor of Economics (Social Sciences) by taking a minimum 32 credit points of third year level units of study from Table A (inclusive of Honours units of study).

Honours degree

11. The degree may be awarded with honours in:

- Economics
- Political Economy
- Economic History
- Education
- Geography
- Government
- Industrial Relations and Human Resource Management
- Philosophy
- Psychology
- Religious Studies
- Social Anthropology
- Sociology
- Gender Studies

12. The degree may also be awarded with joint honours in any two of the subjects in which honours are available.

13. There shall be three classes of honours, namely Class I, Class II and Class III and within Class II there shall be two divisions, namely Division 1 and Division 2.

14. If a student graduates with First Class Honours in any honours subject or in any of the forms of joint honours and the Faculty decides that the student’s work is of sufficiently high merit, the student shall receive a bronze medal.

15. A candidate may, except with faculty permission, enrol in a fourth year honours course only on completion of requirements for the Pass degree and on satisfying any other entry requirements for the fourth year honours course.

16. A student who has been awarded the Pass degree at a recognised institution may subsequently be admitted to an honours unit of study and may qualify for the award of Honours upon completion of such additional requirements in such time as the Faculty may decide, provided that such a student may only be admitted to candidature for an Honours program up to six consecutive semesters after the award of the Pass degree. The honours degree must be completed within two calendar years of first enrolment.

17. A candidate who is qualified to enrol in two fourth year honours courses may complete the final honours year in the two subjects in one year each or complete a joint honours year in the two subjects in one year.

18. A fourth year joint honours course shall comprise such parts of each of the related fourth year honours courses as may be decided by the Faculty.

19. A candidate may not, except with the permission of the Faculty, repeat an honours course which he/she has discontinued or failed once.

20. A candidate who does not complete an Honours degree may be permitted by the Faculty to count towards the Pass degree any Honours units of study completed.

21. The Faculty may grant a candidate credit for units of study completed either at other institutions, or in other faculties within the University of Sydney provided that all the following conditions are met:

- the Faculty assesses the unit or units of study to be equivalent to units of study offered by the Faculty;
- the units of study are not counted towards another qualification;
- in the case of units of study completed at another institution, credit shall not be given for more than the equivalent of 10 full semester units of study, except in the

Concurrent candidature for the degree of Bachelor of Economics (Social Sciences) and Bachelor of Laws

10. (1) A student may proceed concurrently as a candidate for the degrees of Bachelor of Economics (Social Sciences) and Bachelor of Laws, and may receive credit for the units of study Legal Institutions, Law, Lawyers and Justice in Australian Society, Torts, Federal Constitutional Law,
case of graduands admitted by Heads of Department to an Honours program, while credit may be granted for any number of credit points for units of study completed at the University of Sydney;

(iv) credit shall not be given for units of study completed ten or more years prior to the proposed year of enrolment.

22. A student who was enrolled as a candidate for the degree prior to 1 January 1993 and who has not completed the requirements for the degree by 1 January 1997 shall be transferred to the degree structure which took effect for commencing students from 1 January 1993.

23. The testamur for the degree shall specify the major subject areas as defined in Resolution 9.

Combined degrees

It is possible to combine the study of Commerce with Law, Engineering, Arts or Science in a five-year combined degree program.

Economics/Law
Economics(Social Sciences)/Law
Commerce/Law

Students who are admitted to a combined law degree (UAC codes 511801 or 521801) may choose to enrol in the BEd/LLB, BEd(SocSc)/LLB or the BCom/LLB. The regulations governing the combined law degrees are contained in Resolution 10 in the Resolutions of the Senate for each degree. In these degrees, students commence an Economics/Commerce degree on the main Sydney campus and substitute the following law units of study for the Table B units normally available in the Economics/Commerce degrees:

- Legal Institutions
- Law Lawyers and Justice in Australian Society
- Contracts
- Criminal Law
- Federal Constitutional Law
- Torts

After the end of the third year of study, students should have completed the requirements for their Economics/Commerce degree and from Year 4 begin to attend classes at the Law School in the city (St James campus) to complete the remaining units of study in the LLB.

Sample program BCom/LLB

BCom majors are Economics and Finance

Year 1
Semester 1
ECON 1001 Introductory Microeconomics
ACCT 1001 Accounting 1A
ECMT 101- Econometrics 1A
Semester 2
ECON 1002 Introductory Macroeconomics
ACCT 1002 Accounting 1B
ECMT 102- Econometrics 1B
Year 2
Semester 1
ECMT 101- Econometrics 1A
Semester 2
ECMT 102- Econometrics 1B
Year 3
Semester 1
ACCT 2002 Management Accounting A
Semester 2
ACCT 2003 Accounting & Business Information Systems
Year 4
Semester 1
ACCT 2004 Auditing

Arts/Commerce

The BA/BCom provides the opportunity for students to combine professional commerce-related studies with further studies in the humanities. Students in the combined degree are required to complete a major in Arts as well as the usual compulsory units of study and two majors required for the Commerce degree. For further information about the units of study available in the Bachelor of Arts, you should consult the Arts Handbook. The units of study available in the Commerce degree are listed in Table A of the Bachelor of Commerce. The BA/BCom offers advantages similar to the new BCom(Liberal Studies), but is a five-year program and the student graduates with two degrees. (See Regulations).

Sample program

Commerce majors are BR&HRM and Accounting

Year 1
Semester 1
ECON 1001 Introductory Microeconomics
ACCT 1001 Accounting 1A

Semester 2
Arts
IREL 2005  Human Resource Management*
IREL 2009  Organisational Analysis & Behaviour*
*These are half-semester units of study worth 4 credit points.

Bachelor of Arts/Bachelor of Commerce:
BA/BCom joint Resolutions of the Faculties of Arts and Economics and Business
1. Candidature for the combined program is full-time.
2. Candidates qualify for the combined degrees by completing 240 credit points including:
   (i) 12 junior credit points in each of Accounting, Econometrics and Economics;
   (ii) at least 72 senior credit points from Part A of the Table of units of study for the BA including a major;
   (iii) at least 64 senior credit points from the subject areas specified in the BCom regulations including two majors.
3. Candidates may not enrol in any unit of study which is substantially the same as one they have already passed.
4. Candidates will be under the general supervision of the Faculty of Arts. General supervision covers all areas of policy and procedure affecting candidates, such as degree rules, unit of study nomenclature, enrolment procedures and the Dean to whom reference is to be made at any given time.
5. Candidates who are qualified to do so may complete an Honours year.
6. Candidates may abandon the combined program and elect to complete either a BCom or a BA in accordance with the Regulations governing these degrees.
7. The Deans of Economics and Business and Arts shall jointly exercise authority in any matter concerning the combined degree program not otherwise dealt with in the Resolutions of the Senate or these Resolutions.

Science/Commerce
The five-year combined degree BSc/BCom gives scope for students to pursue studies in the sciences, while developing professional skills which will enhance their prospects in the labour market. Students are required to complete the usual compulsory units of study and two majors for the Bachelor of Commerce as well as 84 credit points in the Bachelor of Science (including at least 12 credit points in Mathematics and Statistics). You should consult the Science Handbook for more information about the choice of units in the BSc. The units of study available in the BCom are listed in Table A of the Bachelor of Commerce in this handbook.

Bachelor of Science/Bachelor of Commerce:
BSc/BCom joint Resolutions of the Faculties of Science and Economics and Business
These Resolutions should be read in conjunction with the Resolutions of the Senate governing candidature for the degrees of Bachelor of Science and Bachelor of Commerce.
1. Candidature for the combined program is full-time.
2. Candidates qualify for the combined degrees by completing 240 credit points including:
   (i) in the first three years of enrolment, 12 junior credit points in each of Accounting, Econometrics and Economics and 12 credit points from the Science Discipline Areas of Mathematics and Statistics;
   (ii) at least 72 senior and intermediate credit points from units of study in the BSc taken in accordance with the Regulations for the degree of Bachelor of Science;
   (iii) at least 64 senior credit points from the subject areas specified in the BCom Regulations including two majors.
3. Candidates may not enrol in any unit of study which is substantially the same as one they have already passed or in which they are concurrently enrolled.
4. Candidates will be under the general supervision of the Faculty of Science. General supervision covers all areas of policy and procedure affecting candidates such as degree rules, unit of study nomenclature, enrolment procedures and the Dean to whom reference is to be made at any given time.
5. Candidates will, in each of the first three years of enrolment, enrol in at least 36 credit points of units of study from the Table of units of study associated with section 3 of the Resolutions of the Senate for the Bachelor of Science degree.
6. Candidates who are qualified to do so may complete an Honours year.
7. Candidates may abandon the combined program and elect to complete either a BSc or a BCom in accordance with the Regulations governing these degrees.
8. The Deans of Economics and Business and Science shall jointly exercise authority in any matter concerning the combined degree program not otherwise dealt with in the Resolutions of the Senate or these Resolutions.
Chapter 3 - Regulations

Engineering/Commerce

Students may combine Commerce with any one of the eight Bachelor of Engineering degrees (Aeronautical Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering, Computer Engineering, Telecommunications Engineering, Mechanical Engineering or Mechatronic Engineering).

Both degrees are studied concurrently and will be awarded after five years of full-time study. To satisfy the requirements of the BCom, students may complete either two majors or a major and a minor (see the regulations). For details of the requirements of the Bachelor of Engineering, you should refer to the Engineering handbook.

Bachelor of Engineering/Bachelor of Commerce: BE/BCom joint Resolutions of the Faculties of Engineering and Economics and Business

1. Candidature for this combined degree program is a minimum of 5 years of full-time study.

2. Candidates qualify for the two degrees of the combined program (a separate testamur being awarded for both the BE and the BCom) by completing the following:
   (a) The units of study prescribed for the BE specialisation undertaken (totalling 160-162 credit points, depending on the specialisation). These units of study are set out in the tables appended to the Senate Resolutions relating to the BE degree.
   (b) Units of study in the Faculty of Economics and Business worth at least 100 credit points including:
      (i) 12 credit points in Accounting;
      (ii) 12 credit points in Economics or Political Economy;
      (iii) 12 credit points in Econometrics;
      (iv) no more that 48 credit points at first-year level; and
      (v) a major in each of two subject areas as given in Table A of the Bachelor of Commerce degree, or one major and one minor from subjects listed in Table A.
      Note that a major is a sequence of 44 credit points as described for each subject in Table A; a minor in a subject comprises a sequence of not less than 28 credit points, including 12 credit points in the subject at first-year level and 16 credit points from later year units of study required to complete a major in that subject.
      Candidates will be exempt from taking first-year level Econometrics for the purpose of taking a major or minor sequence in this subject by taking a combination of Junior and Intermediate Mathematics and Statistics units of study required to complete a major in that subject.
      Candidates will be exempt from taking first-year level Econometrics for the purpose of taking a major or minor sequence in this subject by taking a combination of Junior and Intermediate Mathematics and Statistics units of study required to complete a major in that subject.

3. Candidates may not enrol in any unit of study which is substantially the same as one they have already passed (or in which they are currently enrolled).

4. Candidates will be under the general supervision of the Faculty of Engineering. General supervision covers all areas of policy and procedures affecting candidates, such as combined degree program rules and enrolment procedures. Candidates will be under the supervision of the Faculty of Economics and Business regarding enrolment and
CHAPTER 4

Units of study

Accounting

The Discipline of Accounting and Business Law is on Level 4 of the Mercereeth Building. Enquiries, Room 476.

ACCT 1001  Accounting 1A
6 credit points
Ms Gordon
Offered: February, July. Assumed knowledge: 2 unit Maths.
Classes: (2 lectures, 1 tutorial & 1 practical)/week. Assessment: One 3hr exam, 2 tests/sem, weekly assignments.
NB: Restricted entry (code 511500 or 521500 or 511503 or 521503 or Combined Commerce).

Introduction to financial and accounting problems. Examines assumptions underlying the preparation of financial statements for external users. Development of skills necessary to understand, discuss, analyse and write about accounting-related topics. Designed as an introduction to accounting. No prior knowledge of accounting assumed.

ACCT 1002  Accounting 1B
6 credit points
Classes: (2 lectures, 1 tutorial & 1 workshop)/week. Assessment: One 1hr mid semester test, one 3hr final exam, 1 computing test, 1 financial statement analysis assignment and weekly assignments.
NB: Restricted entry (code 511500 or 521500 or 511503 or 521502 or Combined Commerce).

Accounting is about the use of information to make economic decisions. Accounting 1B (a) illustrates the problems in identifying and measuring economic information, (b) discusses solutions adopted by the accounting profession, and (c) develops students' ability to use the information to make decisions. It is obvious that accounting requires familiarity with technical rules and procedures. However, technical rules do not always provide clear guides; principles sometimes conflict. In these instances, it is necessary to use sound argument and judgement in devising a solution. The course material and assessment are designed to help students develop the necessary analytical, written and oral communication skills.

ACCT 1003  Financial Accounting Concepts
6 credit points
Ms. Pickering

Provides an introduction to the theory and practice of accounting. Designed primarily for students who are not majoring in accounting. The aim is to develop skills in preparing and analysing financial statements from a users' perspective. Topics include: the institutional arrangements in Australia and overseas, balance sheet equation, current assets (including inventory, accounts receivable), income measurement, financial statement presentation and analysis.

Note: Only available in the BEc, BEc(SocSc) and BAgEc degrees and cannot be counted with Accounting 1A and 1B. If students have successfully completed Financial Accounting Concepts and Management Accounting Concepts and have gained a place in the Accounting quota code 500/503 by applying through UAC they may be exempted from enrolling in Accounting 1A and 1B after having passed a cross-over examination.

This examination will be available only to students who have gained a place in the code 500/503 quota.

ACCT 1004  Management Accounting Concepts
6 credit points
Mr. Blayney
Offered: July. Prohibition: Terminating unit. Cannot be counted with ACCT 1001 and ACCT 1002. Classes: (3 lectures - one 2hr lecture, one 1 hour lecture)/week. Assessment: One 3hr exam, a midterm test and 2 assignments.

The aim is to explain how accounting information is used by managers. Topics include: estimating cost functions, relevant costing, cost allocation and discounted cash flow analysis. Topical matters drawing on the "different costs for different purposes" theme highlight the problematic nature of cost and its implication, for example, of identifying the "cost" of making a local phone call when there are various companies in the phone service chain, or how to "cost" a university degree. As well, students are taught to interpret a management performance report and to recognise the interrelationships between performance evaluation and asset valuation.

Note: Only available in the BEc, BEc(SocSc) and BAgEc degrees and cannot be counted with Accounting 1A and 1B. If students have successfully completed Financial Accounting Concepts and Management Accounting Concepts and have gained a place in the Accounting quota code 500/503 by applying through UAC they may be exempted from enrolling in Accounting 1A and 1B after having passed a cross-over examination. This examination will be available only to students who have gained a place in the code 500/503 quota.

ACCT 2001  Financial Accounting A
8 credit points
Dr. Arthur
Offered: July, January (short). Prerequisite: ACCT 1001 and ACCT 1002. Corequisite: ECMT 1010 and ECMT 1020. Classes: (2 lectures & 1 tutorial)/week. Assessment: One 1000w essay. One 1.5 hr exam, one 3hr exam, weekly assignments.

Accounting and reporting practices of companies, particularly listed public companies. Emphasis is placed on developing an understanding of, and the ability to evaluate critically, the various regulatory requirements (professional and statutory) governing financial reporting. The economic significance of management's ability to choose between alternative techniques for recording/reporting a given transaction or event is also considered from within a "costly contracting" framework. Issues covered include accounting for income taxes, leases, employee entitlements, intangibles, extractive industries. Consideration of off-balance sheet liabilities and owner's equity. Introduction to intercorporate investments.

ACCT 2002  Management Accounting A
8 credit points
Mr. Edwards
Offered: February, January (short). Prerequisite: ACCT 1001 and ACCT 1002. Corequisite: ECMT 1010 and ECMT 1020. Classes: (2 lectures, 1 tutorial & 1 practical)/week. Assessment: One 3hr exam, weekly assignments.

This course provides students with an introduction to the basics of management/cost accounting. Areas specifically covered include: cost terms and purposes, cost behaviour, cost-volume-profit analysis, cost estimation via regression analysis and other means, basic and alternative product costing methods (including activity-based costing), detailed study of the mechanics of the budgeting process (master budgets, flexible budgets, standard costing and variance analysis), decision making of relevant costs/revenues and cost allocation.

ACCT 2003  Accounting and Business Info Systems
8 credit points
Mr. Edwards
Offered: July. Prerequisite: ACCT 1002 or ACCT 1004. Classes: (2 lectures, 1 workshop/practical, 1 tutorial)/week. Assessment: Final examination, one test, assignments, groupwork.

This unit is designed to help you understand i) how accountants interact with the accounting systems of business and govern-
ment as users, evaluators and designers, ii) how business processes impact on the appropriateness of the design of accounting systems. The unit is designed to provide you with a body of knowledge that includes: a broad awareness of the concepts of accounting and business processes - especially those pertaining to systems development, information, managerial decision making, control, accounting models, and information technology; a familiarity with the basic business processes, such as inputs, Outputs, processing procedures, the role of databases, and controls; a basic introduction to systems analysis and design techniques; and an understanding of the steps involved in comprehensive systems development, again with specific reference to the contribution that accountants - internal and external - can provide in modem computerised organisations. This unit incorporates practical work using a modern set of integrated accounting transaction processing and enterprise resource planning software.

ACCT 3001 Financial Accounting B
8 credit points
Dr Arthur
Offered: February. Prerequisite: ACCT 2001. Classes: (2 lectures, 1 tutorial & 1 workshop)/week. Assessment: One 2hr exam, one 3hr exam, one case study, weekly assignments.

Advanced topics in financial accounting, including accounting for a company's investments in corporations, joint ventures and associates, and accounting methods used by public sector entities. Specific accounting issues in relation to group accounting include foreign currency translation, equity accounting, segment reporting and related party transactions. This course attempts to develop students' understanding of valuation issues in accounting and to critically evaluate the valuation methods used in the private and public sectors. Recent developments in measurement and valuation are examined.

ACCT 3002 Management Accounting B
8 credit points
Ms. Pickering
Offered: July. Prerequisite: ACCT 2002. Classes: (2 lectures, 1 tutorial & 1 practical)/week. Assessment: Final examination, one test, assignments and groupwork.

This unit provides students with an analysis of basic managerial problems focusing on the role of the management accountant in today's changing manufacturing and business environment. Concentrating on organisational and behavioural issues it contrasts with the rather technical approach of Management Accounting A. Topics include: decentralisation and transfer pricing and motivation; behavioural consequences (motivation, etc.) of budgeting and control systems; recent developments such as Just-In-Time inventory management, total quality management, activity based costing and capital budgeting.

ACCT 3003 Financial Statement Analysis
8 credit points
Mr. Lee
Offered: February. Prerequisite: ACCT2001 and FINC 2001. Classes: (2 lectures, 1 workshop, 1 tutorial)/wk. Assessment: One 3hr exam, group case studies.

Although the appropriate 'form' of financial analysis depends largely on the specific context (e.g. equity investment, credit extension, analysis of supplier/customer health, competitor analysis, regulatory overview or intervention, valuation for takeover/restructuring), many of the techniques of financial analysis are common to each. A primary purpose of this course is to develop an understanding of these techniques, as well as the inherent difficulties in their application. Specific issues addressed include the analysis of business performance and disclosure, the analysis of earnings quality, cash flow assessment, credit worthiness and accounting-based valuation methods.

ACCT 3004 Auditing
8 credit points
AProf Dean
Offered: July. Prerequisite: ACCT 3001. Classes: (3 lectures & 1 tutorial)/week. Assessment: One 3hr exam, weekly assignments.

The aim of this course is to develop an understanding of the nature of financial statement audits undertaken in compliance with the Corporations Law and the professional auditing standards. The course is both practical and theoretical. In tutorials, students are required to apply their knowledge in discussing case studies which have been developed based on actual experiences. Guest speakers from accounting firms and business provide practical examples of the topics discussed in lectures. The students are also exposed to current cases to assess the application of auditing procedures.

ACCT 3005 IT Assurance and Control
8 credit points
Mr. Edwards
Offered: February. Prerequisite: ACCT 3003. Assumed knowledge: INFO 1000. Assessment: One 3hr theory exam, one 3hr prac exam, 1 essay, quizzes, project.

Critically important to the success and survival of an organization is effective management and control of information and related Information Technology (IT). This criticality arises from i) increasing dependence on information and the systems that deliver this information, ii) increasing vulnerabilities and a wide spectrum of threats, such as cyber threats and information warfare, iii) scale and cost of the current and future investments in information and information systems, and iv) potential for technologies to dramatically change organisations and business practices, create new opportunities, and reduce costs. For many organisations, information and the technology that supports it represent the organisation's most valuable assets.

Moreover, in today's very competitive and rapidly changing business environment, management has heightened expectations regarding IT delivery functions. Management requires increased quality, functionality, and ease of use; decreased delivery time; and continuously improving service levels while demanding that this be accomplished at lower costs. Thus, management needs to have an appreciation for and a basic understanding of the risks and constraints of IT in order to provide effective direction and adequate controls. This course examines ways in which accountants and process users bridge the gaps between business risks, control needs and technical issues. It provides good exposure across a domain and process framework and presents activities in a manageable and logical structure.

ACCT 3006 ecommerce Business Models
8 credit points
Offered: July. Prerequisite: 48 credit points at level 1000. Assumed knowledge: INFO 1000. Assessment: One 3hr theory exam, one 3hr prac exam, 1 essay, quizzes, project.

This subject provides a detailed overview of the concepts and processes used in doing business electronically. This will include information exchange processes (EDI) and inter and intra-organisational communications; electronic exchange and business including electronic funds transfer (EFT), smart cards and electronic money; security issues and networks; internet and intranets; business models and internet commerce, www commerce; the internet customer and marketing; legal and ethical issues on the internet; taxation, business and exchange issues in internet and ecommerce; as well as a brief examination of legal and ethical issues in internet commerce. Students will receive experience in using and adapting existing world-wide-web and internet commerce software to develop e-commerce applications in real world contexts.

ACCT 4101 Accounting Honours A
12 credit points
Offered: February, July.

Students must enrol in Accounting Honours A B C and D to complete the honours year.

NB: Requirements for the Pass degree must be completed before entry to level 4000 Honours units of study.

Honours study within the discipline is directed at:

- increasing students' analytic/constructive skills beyond the level acquired in undergraduate pass level courses;
- providing a foundation for the conduct of applied research in accounting; and
- the conduct of research in the form of a research report.
These skills are developed through the completion of an additional (fourth) year of study which may be either a full- or a part-time basis, though the former is more common. The Discipline of Accounting and Business Law works closely with the Discipline of Finance to offer students a joint honours program, involving honours courses from both disciplines and a research report supervised jointly by staff from each discipline. For many years demand for accounting graduates has exceeded supply and most graduates find well-paid employment relatively quickly. Why then consider an additional year of study? Most often, the answer is simply that candidates undertake the degree at the honours level because they find intellectual challenges stimulating and have a high level of achievement. Such candidates are rare. Of the approximately 1000 accounting graduates produced in the Sydney metropolitan region each year only 10 to 15 are admitted to do an honours program. By so doing they mark themselves as different from the average accounting graduate and, as a result, are keenly sought by prospective employers.

While the honours program is the traditional route to higher level studies in the discipline (MExc, PhD) and to an academic career, the majority of honours graduates find employment in the more conventional areas of professional accounting, industry/commerce, finance, government or consulting. The additional investment in education brings returns in terms of a better understanding of accounting, superior skills and a wider choice of career paths.

Admission to, and continuation in, the honours program is based solely on performance. Thus students who have performed at some level of distinction in their undergraduate studies may be invited to undertake the final honours year. Enquiries from interested students are always welcome and should be directed to any member of staff.

Semester 1 comprises electives from the equivalent of four semester courses selected from a series of full and half courses whose offerings are dependent on student numbers and staff availability. Candidates must enrol in ACCT4102, ACCT4103 and ACCT4104 to complete the honours year.

ACCT 4102 Accounting Honours B
12 credit points
Offered: February, July.

ACCT 4103 Accounting Honours C
12 credit points
Offered: February, July.

ACCT 4104 Accounting Honours D
12 credit points
Offered: February, July.

Agricultural Economics

The aim in providing courses in agricultural economics for students in the Faculty of Economics and Business is to give an opportunity for study in an area of applied economics which is of considerable importance to the Australian economy. A three-year sequence in agricultural economics is available.

The courses in agricultural economics cover a wide range of fields, including the study of agricultural and resource policy, issues in international commodity trade, the marketing of agricultural products, natural resource economics, and production economics and commodity price analysis with particular emphasis on the agricultural and resource sectors.

Graduates with a training in agricultural economics may find jobs ranging from giving management advice in the rural sector or agribusiness to providing economic advice to governments. They may be engaged in research into rural problems in this country or, if they prefer, may find employment in the international sphere.

In recent years, significant growth in job opportunities has occurred in the private sector. Graduates with training in agricultural economics have gained excellent jobs in commodity trading firms, farm organisations, the economics departments of banks, and the agricultural service industries such as fertiliser and machinery firms. In addition, graduates trained in agricultural economics are readily finding positions in the finance sector and general business community.

The Australian Bureau of Agricultural and Resource Economics and the various state Departments of Agriculture are major employers of agricultural economists. The type of work undertaken includes field surveys of costs, incomes and practices in particular industries, analysis of resource use issues, cost-benefit analyses of public works programs, the analysis of the market outlook for specific commodities, supply and demand studies, advice on policy proposals, and the provision of farm management advice.

Federal departments such as the Department of Foreign Affairs and Trade and agencies such as the Productivity Commission also employ graduates with training in agricultural economics. There is considerable mobility of personnel between the Australian Bureau of Agricultural and Resource Economics and other departments as well as into the international agencies such as the World Bank.

Refer to the Tables in this Handbook for units of study listings.

For units of study descriptions in Agricultural Economics, refer to the Agriculture Handbook or the University web site database at www.usyd.edu.au.

Social Anthropology

The Department of Anthropology offers courses in the discipline of Social Anthropology. Social anthropology may be described as the study of human societies and cultures. Although it shares much of its theory and method with a wide range of social and humanistic disciplines, it remains distinct in its emphasis on comparison, in its interest in the full range of human social and cultural diversity, and in its use of extended fieldwork in small communities as its primary research method. While often associated with the study of small-scale stateless societies, contemporary social anthropology is increasingly concerned with the investigation and analysis of modern nation states. Anthropology is also concerned with general issues of human cognition and communication, with religion, performance, semiotics and representation. Courses currently offered by the department focus on various aspects of both Aboriginal and immigrant Australians, as well as a wide range of Asian, Pacific and other cultures and societies.

A degree with a substantial social anthropology content is especially recommended for those seeking recruitment into the diplomatic service, overseas aid projects or a variety of business or other organisations whose activities are dependent on recruiting personnel with some understanding of the cultures and social institutions of Australia's Asian and Pacific neighbours and trading partners. A major in social anthropology should also prove useful for prospective high-school teachers interested in teaching the HSC subject 'Society and Culture'. There are also increasing opportunities for good honours graduates in social anthropology for contract-type employment in connection with Aboriginal land claims. Finally, for those who proceed to successful postgraduate research and training there is a chance to compete for academic positions both in Australian and overseas universities and other tertiary institutions. Incomes and Advantageous combinations in the academic sphere include Anthropology and Asian Studies or Aboriginal Studies, and Anthropology with Philosophy, Sociology or History.

Refer to Tables in this Handbook for units of study listings.

For units of study descriptions in Social Anthropology, refer to the Arts Handbook or the University web site database at www.usyd.edu.au.
Asian Studies

Courses in Asian Studies are concerned with the study of Asia or parts of Asia employing a range of methodological approaches. The aim is to develop interdisciplinary and comparative examination of the historical, cultural, economic, political and religious aspects of Asian societies. Consequently, while based in the School of Asian Studies, Asian Studies courses draw on the expertise of Asian specialists from other departments and faculties in the University.

Although study of an Asian language is encouraged in conjunction with Asian Studies courses, it is not required as all courses are conducted in English and utilise English language texts. No prior study of Asia is required for entry into the first year course, which introduces students to the study of Asia through an emphasis on comparative themes and concepts. A wide pool of options for senior level courses is available in Asian Studies, made up of Asia-related courses in the departments of Economic History, Government and Public Administration, and History, as well as the School of Asian Studies.

For units of study descriptions in Asian Studies, refer to the Arts Handbook, or the University web site database at www.usyd.edu.au.

Commercial Law

These units are designed specifically to complement other studies that may be undertaken by students in the Faculty of Economics and Business. They are not available to students taking the combined BEc/LLB, BEc(SocSc)/LLB or BCom/LLB degrees, although provision is made for students who commence by taking the Faculty of Law series of courses to transfer to the commercial law sequence given in the Faculty of Economics and Business. Students in the BEc(SocSc) degree may do no more than three full semester courses of commercial law.

A major in commercial law consists of CLAW 1001 and CLAW 2001 and four additional units of study in Commercial Law. Please note that a Final Honours Year is not available in Commercial Law.

The following unit of study is not on offer in 2001: for details see Chapter 8.

CLAW 2005 Trade Practice and Consumer Law

CLAW 1001 Commercial Transactions A

6 credit points
Ms Karnournias
Offered: February, July. Classes: (3 lectures & 1 tutorial)/week. Assessment: Exam, test, essays, classwork!

This unit is concerned with the fundamental elements of business law. It commences with an overview of the Australian legal system (sources of law, parliament, courts, statutory interpretation, doctrine of precedent), including an examination of those provisions in the Commonwealth Constitution relevant to business and commercial activities. Basic elements of criminal law and the law of torts (in particular, negligence and negligent mis-statement) are then examined. The unit continues with a detailed study of those aspects of the law of contract that underlie all commercial transactions and are the essence of commercial law (elements of a contract, terms of a contract, matters affecting the validity and enforcement of contracts, termination, remedies for a breach of contract). The unit concludes with an overview of the law of agency, property partnership and business organisations.

CLAW 1002 Commercial Transactions B

6 credit points
Offered: July. Prerequisite: CLAW 1001. Classes: (3 lectures & 1 tutorial)/week. Assessment: One 3hr exam, assignment, quiz, classwork.

Provides a background in property law including: sale of goods, implied terms, passing of property, passing of title by a non-owner, retention of title clauses, ROMPLA clauses, debt, dam-

ages, termination for breach and remedies real and personal. It also introduces laws relating to land/real property and to personal property and to intellectual property, including Copyright, Patents, Trade Marks, Passing Off, and covers current legal issues relating to the computer and internet.

CLAW 2001 Corporations Law

8 credit points
Mrs Mescher
Offered: February, July, January (short). Prerequisite: Any 4 full semester first year units of study including CLAW 1001. Classes: (3 lectures & 1 tutorial)/week. Assessment: One 3hr exam, one test, one essay classwork.

This unit is concerned with the law relating to the bankruptcy of individuals and corporate insolvency. In relation to bankruptcy, the unit explores the mechanisms by which formal bankruptcy may occur (creditor and debtor petitions), the role of the trustee, creditors and the bankrupt in the administration of the bankrupt estate and the property available for distribution to creditors. It goes on to examine arrangements with creditors outside formal bankruptcy (Part LX debt agreements, Part X arrangements). In the case of corporate insolvency the areas examined include receivers and other controllers, voluntary administration and deeds of company arrangement, schemes of arrangement, winding up, the liability of company officers and professional advisers, and group insolvency. Also explored is the structure of the insolven-
cy and proposals for reform.

CLAW 2002 Bankruptcy and Insolvency

8 credit points
Ms Wyburn
Offered: July. Prerequisite: CLAW 1001 and CLAW 2001. Classes: 3 lectures and 1 tutorial/week. Assessment: assignment, quiz, classwork and exam.

This unit is concerned with the law relating to the bankruptcy of individuals and corporate insolvency. In relation to bankruptcy, the unit explores the mechanisms by which formal bankruptcy may occur (creditor and debtor petitions), the role of the trustee, creditors and the bankrupt in the administration of the bankrupt estate and the property available for distribution to creditors. It goes on to examine arrangements with creditors outside formal bankruptcy (Part LX debt agreements, Part X arrangements). In the case of corporate insolvency the areas examined include receivers and other controllers, voluntary administration and deeds of company arrangement, schemes of arrangement, winding up, the liability of company officers and professional advisers, and group insolvency. Also explored is the structure of the insolven-
cy and proposals for reform.

CLAW 2003 Stock Markets and Derivatives Law

8 credit points
Mrs Mescher
Offered: July. Prerequisite: CLAW 1001 and CLAW 2001. Classes: 3 lectures/wk. Assessment: One 3hr exam, essay and tutorials.

This unit is concerned with the law relating to the bankruptcy of individuals and corporate insolvency. In relation to bankruptcy, the unit explores the mechanisms by which formal bankruptcy may occur (creditor and debtor petitions), the role of the trustee, creditors and the bankrupt in the administration of the bankrupt estate and the property available for distribution to creditors. It goes on to examine arrangements with creditors outside formal bankruptcy (Part LX debt agreements, Part X arrangements). In the case of corporate insolvency the areas examined include receivers and other controllers, voluntary administration and deeds of company arrangement, schemes of arrangement, winding up, the liability of company officers and professional advisers, and group insolvency. Also explored is the structure of the insolven-
cy and proposals for reform.

CLAW 2004 Banking and Finance Law

8 credit points
Mrs. P. Rozenberg
Offered: February. Prerequisite: CLAW 1001. Classes: (3 lectures/week).

Students are introduced to the regulatory structure and its impact on banking practice. The relationship between banker and customer and the duties of the parties are also analysed. Issues relating to foreign currency litigation, electronic banking, risk management and loan security will be discussed. Students will also become familiar with the legal implications of
trading negotiable instruments and raising funds by means of 
international loans, project financing and syndication.

CLAW 2006 Legal Issues for Ecommerce
8 credit points
Mrs. Rozenberg, Mr. Hart
Offered: February, July. Prerequisite: 48 credit points at level 1000.
Assessment: One 3hr theory exam, one 3hr prac exam, 1 essay, quizzes, project.

Commerce and business in an electronic environment has arrived and is in constant use. This unit focuses on the transactional and financial aspects of electronic commerce. The unit includes detailed coverage of legal aspects of electronic finance - Internet banking and digital cash and cards, electronic trade - contracts and digital signatures, taxation of electronic commerce and electronic property issues - copyright, patents and trade marks for digital property.

The unit assumes no previous legal training or knowledge or knowledge of the electronic media. The unit will also cover basic introductory legal skills such as legal research and legal writing and citation as well as provide an introduction to electronic commerce, the history and operation of the Internet and major tools used in electronic commerce. Students with previous knowledge in these areas will not need to attend these sections of the unit.

CLAW 3001 Australian Taxation System
8 credit points
Mrs. Coleman, Mr. Hart
Classes: (3 lectures & 1 tutorial)/week. Assessment: One 3hr exam, multiple choice tests for revision, weekly assignments, classwork.

The introductory part of a subject which is primarily concerned with taxation law. It commences with an overview of the Australian tax system, discusses contemporary tax issues and then deals with specific topics, viz. basis of liability to Australian income tax, concepts of residence and source of income, meaning of income, tax accounting, statutory concepts of income, taxation of fringe benefits, basis of liability to capital gains tax and allowable deductions. It concludes with an introduction to the taxation of partnerships, trusts, companies, the administration of the tax act and tax avoidance. In addition to income tax, the Goods and Services Tax is studied.

CLAW 3002 Tax Strategies in a Business Environment
8 credit points
Mr. Hart, Mrs. Coleman
Offered: July. Prerequisite: CLAW 1001 and CLAW 2001.
Corequisite: CLAW 3001. Classes: (3 lectures & 1 tutorial)/week. Assessment: Essays, seminars. One 3hr exam, multiple choice tests for revision, weekly assignment, classwork.

Deals with taxation issues in a business environment. In addition to the specific topics in income tax, as set out, it also includes material on indirect taxes. The following topics are included: trading stock, depreciation, taxation of partnerships and trusts including the application of capital gains tax to interests in these entities, carry forward of losses, taxation of companies, dividend imputation tax, capital gains tax application to shares and other interests in companies, intellectual property, collection of income tax instalments, amendment of assessments, objections and appeals, taxation of non-residents, withholding tax, foreign tax credits, international tax treaties, profit shifting and tax avoidance. The course emphasises business tax planning issues.

Computer Science

Computer Science is the scientific discipline which has grown out of the use of digital computers to manage and transform information. Computer Science is concerned with the design of computers, their applications in science, government and business, and the formal and theoretical properties which can be shown to characterise these applications.

The diversity of the discipline is demonstrated by current research interests in the Department which include artificial intelligence, the design of computer hardware and networks, and the theory of parallel computation. The Department has a range of computers and specialised laboratories for its teaching and research.

Students who intend to major in Computer Science should pay particular attention to the prerequisites of each course. Students who complete 16 units of second year courses (course numbers starting with the digit ‘2’) and 24 units of senior courses (course numbers starting with the digit ‘3’), including among them a ‘project course’ (course numbers starting with the digits ‘32’), are eligible to become Associate Members of the Australian Computer Society.

Intending honours students are strongly urged to complete some Senior Mathematics prior to their entry into the honours year. Students should note that entry to honours requires an average of Credit or better in the senior Computer Science courses.

Refer to the Tables in this handbook for units of study available. Refer to the Science Handbook for unit descriptions, or see the University web site database at www.usyd.edu.au.

The Department also has its own handbook, which is available from the Department's office (Room G71) in the Madsen Building. Students should confirm details of courses, registration procedures, textbooks, etc., on the departmental noticeboards. Those in doubt should seek advice from members of the Department's academic staff.

A major in Computer Science under Section 9 (hi) consists of 12 credit points at level 1000, 16 credit points at level 2000 and 16 credit points at level 3000, excluding COMP 1000.

Econometrics and Business Statistics

The discipline offers courses of study in Econometrics and Management Science. In each of these areas students may undertake a major in a three-year pass degree, or a four-year honours degree. Master’s and doctoral programs of study are also offered.

In economics and business there has been increasing use of mathematical and statistical methods. In government departments, banks and insurance companies, manufacturing and marketing companies, public corporations and agencies, research institutes and universities, the services of those with training in quantitative analysis in understanding business and the economy and in providing a more scientific basis for decision making. The courses offered by the discipline provide training suitable to a wide range of career choices.

The courses in Econometrics develop the theory of statistics and show how it may be applied to problems that arise in economics and business. Some of the areas covered are probability, estimation and hypothesis testing, regression, time series analysis, sampling, applied econometrics and stochastic modelling. The courses in Management Science develop decision making theory and techniques and show how these may be applied to management problems that arise in economics and business. Some of the areas covered are linear programming models, project management, inventory control, facility design and waiting lines, network flow models, business games, dynamic programming, markov processes and simulation. Instruction in the use of computer software is provided in all courses.

The course offerings are designed around the majors in Econometrics or Management Science. Other students may nevertheless advantageously complement their other majors with some courses from this discipline including Financial Econometrics (supporting Finance) Analysis of Discrete Choice Data (supporting ‘3 Marketing, Economics, Government) and Management Science (supporting the Management major). An overview is given in Econometrics 1A and 1B.
Further courses for the non-specialist are available in 2000 level courses. Students wishing to take a major may take the corresponding 3000 level courses. Finally, for those proceeding to honours, this discipline offers a range of appropriate courses. Joint honours programs with other disciplines are also available.

For a major in Econometrics, the minimum requirement is ECMT 1013, ECMT 1023, ECMT 2010, and ECMT 3010; with two options chosen from ECMT 2721, ECMT 2722, ECMT 2723, ECMT 3710, ECMT 3711, ECMT 3720, ECMT 3721, ECMT 3722, ECMT 3723, or ECMT 3724. For entry to an honours year in Econometrics four of these options are required rather than two; these must include ECMT 2720 and ECMT 3020; and, a credit average or better is required in any four 3000 level courses taken from the discipline.

For a major in Management Science, the minimum requirement is ECMT 1013 ECMT 1023, ECMT 2010, ECMT 2720, and ECMT 3710; with one option chosen from ECMT 2721, ECMT 2722, ECMT 2723, ECMT 3720, ECMT 3721, ECMT 3722, ECMT 3723, or ECMT 3724. For entry to an honours year in Management Science three of these options are required rather than one; these must include ECMT 3720; and a credit average or better is required in ECMT 2720, ECMT 3710, and ECMT 3720.

The discipline is located on Level 4 of the Merewether Building. Enquiries, Room 459.

The following are units of study not on offer in 2001: For details see Chapter 8
ECMT 2710 Management of Information Systems
ECMT 3210 Statistical Modelling
ECMT 3220 Computational Statistics
ECMT 3230 Decision Making Under Uncertainty
ECMT 3240 Special Topics
ECMT 3260 Sample Decision and Analysis

ECMT 1011 Econometrics 1A Stream 1
6 credit points

The first of a sequence of two units that together provide an introduction to quantitative methods used in economics and related disciplines. Topics in basic statistics include: methods available for handling, analysing and interpreting data, discussion of probability distributions, an introduction to sampling theory and simple estimation problems. Mathematics of finance is also covered. A key component is the provision of instruction and experience in the use of computers and statistical software as an aid in the analysis of data.

ECMT 1012 Econometrics 1A Stream 2
6 credit points

The first of a sequence of two units that together provide an introduction to quantitative methods used in economics and related disciplines. Topics in basic statistics include: methods available for handling, analysing and interpreting data, discussion of probability distributions, an introduction to sampling theory and simple estimation problems. Mathematics of finance is also covered. A key component is the provision of instruction and experience in the use of computers and statistical software as an aid in the analysis of data.

ECMT 1013 Econometrics 1A Stream 3
6 credit points

The first of a sequence of two units that together provide an introduction to quantitative methods used in economics and related disciplines. Topics in basic statistics include: methods available for handling, analysing and interpreting data, discussion of probability distributions, an introduction to sampling theory and simple estimation problems. Mathematics of finance is also covered. A key component is the provision of instruction and experience in the use of computers and statistical software as an aid in the analysis of data.

ECMT 1021 Econometrics 1B Stream 1
6 credit points

NB: Other than in exceptional circumstances, it is strongly recommended that students do not undertake Econometrics 1B before attempting 1A.

Builds on the work in Econometrics 1A. Introduces hypothesis testing, simple and multiple regression analysis, time series analysis and decision theory. This statistical material is complemented by mathematical topics including matrices and partial differentiation. Again there is an important computing component that is integrated into this unit. Applications to economics, business and related disciplines in the social sciences are provided.

ECMT 1022 Econometrics 1B Stream 2
6 credit points

NB: Other than in exceptional circumstances, it is strongly recommended that students do not undertake Econometrics 1B before attempting 1A.

Builds on the work in Econometrics 1A. Introduces hypothesis testing, simple and multiple regression analysis, time series analysis and decision theory. This statistical material is complemented by mathematical topics including matrices and partial differentiation. Again there is an important computing component that is integrated into this unit. Applications to economics, business and related disciplines in the social sciences are provided.

ECMT 1023 Econometrics 1B Stream 3
6 credit points

NB: Other than in exceptional circumstances, it is strongly recommended that students do not undertake Econometrics 1B before attempting 1A.

Builds on the work in Econometrics 1A. Introduces hypothesis testing, simple and multiple regression analysis, time series analysis and decision theory. This statistical material is complemented by mathematical topics including matrices and partial differentiation. Again there is an important computing component that is integrated into this unit. Applications to economics, business and related disciplines in the social sciences are provided.

ECMT 2010 Regression Modelling
8 credit points
Offered: February. Prerequisite: ECMT 1010 and ECMT 1020.
Classes: (3 lectures & 1 tutorial)/week. Assessment: One 3hr exam, tests, assignments.

Students undertaking this unit have some background in basic statistics including an introduction to regression analysis. Using this knowledge as a base, an extensive discussion of basic regression theory and some of its extensions is provided. We demonstrate how linear regression models can be applied to data to estimate relationships, to forecast, and to test hypotheses that arise in economics and business. Guidelines for using econometric techniques effectively are discussed and students are introduced to the process of model building. It is essential that the discussion of regression modelling be complemented with practice in analyzing data. An important task will be the computing component using econometric software.

ECMT 2021 Analysis of Discrete Choice Data
8 credit points
Offered: July. Prerequisite: ECMT 2010. Classes: (3 lectures & 1 tutorial)/week. Assessment: One 3hr exam, tests, assignments.

Data that are qualitative or discrete present particular problems for data analysts. What influences an individual to work part-time rather than full-time, or use public transport rather than drive to work, or to choose one brand of detergent over another? Why do certain firms choose particular accounting procedure over another? In these examples of modelling choice data, stand-
ard linear regression models are inappropriate. This unit considers the specification, estimation and use of statistical models that are necessary to analyze such questions. These may include the logit, probit and multinomial logit models. Special emphasis will be placed on illustrating the appropriate application of such models using case studies and data drawn from marketing, accounting, finance and economics.

ECMT 2030 Financial Econometrics
8 credit points
Offered: July. Prerequisite: ECMT 2010. Classes: (3 lectures & 1 tutorial)/week. Assessment: One 3hr exam, tests, assignments. Over the last decade econometric modelling of financial data has become an important part of the operations of merchant banks and major trading houses and a vibrant area of employment for econometricians. This unit aims to provide an introduction to some of the widely used econometric models for financial data and the procedures used to estimate them. Special emphasis will be placed upon empirical work and applied analysis of real market data. Topics covered may include the statistical characteristics of financial data, the specification, estimation and testing of asset pricing models, the analysis of high frequency financial data, and the modelling of volatility in financial returns.

ECMT 2720 Management Science
8 credit points
Offered: July. Prerequisite: ECMT 1010 & ECMT 1020. Classes: (3 lectures & 1 tutorial)/week. Assessment: One 3hr exam, tests, assignments. NB: Students who wish to take only part of the sequence of units in Management Science should apply to the Head of the department of Econometrics for any exemption from the stated prerequisites and corequisites. Management science is an approach to decision making that is suitable in areas where the manager has little experience or where the problem for decision is complex. It provides an effective decision-making approach to problems important enough to justify the time and effort of qualitative analysis. This unit considers modelling in areas that practising managers might encounter in their roles as decision makers. The intended outcome of the unit is to increase the effectiveness of management decision making. The focus throughout is on practical solutions using readily available spreadsheet software. Topics may include resource allocation, capacity planning, logistics, and project planning.

ECMT 3010 Econometric Models and Methods
8 credit points
Offered: February. Prerequisite: ECMT 2010. Classes: (3 lectures & 1 tutorial)/week. Assessment: One 3hr exam, tests, assignments. Methods of estimation and testing developed in association with regression analysis are extended to cover econometric models involving special aspects of behaviour and of data. In particular, motivating examples will be drawn from dynamic models, panel data and simultaneous equation models. In order to provide the statistical tools to be able to compare alternative methods of estimation and testing, both small sample and asymptotic properties will be developed and discussed.

ECMT 3020 Applied Econometrics
8 credit points
Offered: July. Prerequisite: ECMT 3010. Classes: (3 lectures & 1 tutorial)/week. Assessment: One 3hr exam, tests, assignments. Econometric theory provides the techniques needed to qualify the strength and form of relationships between variables. Applied econometrics is concerned with the strategies that need to be employed to use these techniques effectively. This unit illustrates how econometric models and methods can be applied to data to solve problems that arise in economics and business. General principles for undertaking applied work will be discussed and necessary research skills developed. In particular we stress the links between econometric models and the underlying substantive knowledge or theory associated with the particular application. Topics may include error correction models, systems of consumer demand equations, and structural and vector auto-regressive (VAR) macroeconomic models. Research papers involving empirical research will be studied and an integral component of the unit will be a major project involving a substantial piece of econometric modelling.

ECMT 3030 Forecasting for Economics and Business
8 credit points
Offered: February. Prerequisite: ECMT 2010. Classes: (3 lectures & 1 tutorial)/week. Assessment: One 3hr exam, tests, assignments. The need to forecast or predict future values of economic time series arises frequently in many branches of applied economic and commercial work. It is, moreover, a topic which lends itself naturally to econometric and statistical treatment. The specific feature which distinguishes time series from other data is that the order in which the sample is recorded is of relevance. As a result of this, a substantial body of statistical methodology has developed. This unit is intended to provide a first course in methods of time series analysis and forecasting. The material covered will be primarily time domain methods designed for a single series and will include the building of linear time series models, the theory and practice of univariate forecasting and the use of regression methods for forecasting. Throughout the unit a balance will be maintained between theory and practical application.

ECMT 3710 Management Science Models and Methods
8 credit points
Offered: February. Prerequisite: ECMT 2010 & ECMT 2720. Classes: (3 lectures & 1 tutorial)/week. Assessment: One 3hr exam, tests, assignments. Management Science models and techniques for optimum decision making are presented. The structure of a management decision problem determines an associated model structure and optimisation procedure. Models and solution procedures for general linear models, network models, dynamic models, and competitive business decisions will be considered. A commercial module will focus on commercial research processes for inter-disciplinary problem solving and decision support.

ECMT 3720 Stochastic Modelling for Management
8 credit points
Offered: July. Prerequisite: ECMT 2010 & ECMT 2720. Classes: (3 lectures & 1 tutorial)/week. Assessment: One 3hr exam, tests, assignments. Modelling techniques appropriate for an uncertain business environment will be introduced. For example, a model of the state of a business may be described by a stochastic structure that evolves over time. Information about the model’s evolution possibilities may provide support for short-term decision making in areas like inventory, budgeting, and work-force scheduling, as well as for long-term decision making in areas like capacity planning and location. Alternatively, a model may be simulated to give alternative synthetic performance histories for systems in a wide range of decision-making areas. In both these examples decision support is provided by improving our understanding of the system and its behaviour. A research module focuses on research project formulation, and general principles for applied project management will be discussed. Techniques may include Markov processes, simulation, and probabilistic dynamic programming.

ECMT 4101 Econometrics Honours A
12 credit points
Offered: February, July. Prerequisite: Credit average in six semester courses taken in the Discipline of Econometrics and Business Statistics at the 2-3000 level, but including 2010, 2720, 3010 and 3020 or with permission of the Head of Discipline. NB: Requirements for the Pass degree must be completed before entry to level 4000 Honours units of study. The honours year provides basic professional expertise in the general area of econometrics through instruction in advanced theory, and experience in independent research.

83
Honours students are required to (a) complete four semester units of instruction, (b) submit a thesis not exceeding 70 A4 pages of typescript, and (c) attend and participate in departmental research seminars.

The thesis topic must be approved by the department and progress reports are to be presented every semester.

Candidates must enrol in ECMT 4102, ECMT 4103 and ECMT 4104 to complete the honours degree.

ECMT 4102 Econometrics Honours B 12 credit points Offered: February, July.

ECMT 4103 Econometrics Honours C 12 credit points Offered: February, July.

ECMT 4104 Econometrics Honours D 12 credit points Offered: February, July.

ECMT 4601 Management Science Honours A 12 credit points Offered: February, July. Prerequisite: Credit average in six semester courses taken in the Discipline of Econometrics and Business Statistics at the 2-3000 level, but including 2010, 2720, 3710 and 3720 or with permission of Head of Discipline.

NB: Requirements for the Pass degree must be completed before entry to level 4000 Honours units of study.

The Honours year provides basic professional expertise in the general area of operations research, through instruction in advanced theory and experience in independent research.

Honours students are required to (a) complete four semester units of instruction, (b) submit a thesis not exceeding 70 A4 pages of typescript, and (c) attend and participate in departmental research seminars.

The thesis topic must be approved by the department and progress reports are to be presented every semester.

Units are normally selected from the following (not all of which may be offered in any one year): 4510 Simulation 4520 Applied operations research 45309 Game theory 45409 Applied general equilibrium modelling 42109 Static optimisation 4220 Dynamic optimisation 42309 Special topic. Some courses may be taken in related departments.

ECMT 4602 Management Science Honours B 12 credit points Offered: February, July.

ECMT 4603 Management Science Honours C 12 credit points Offered: February, July.

ECMT 4604 Management Science Honours D 12 credit points Offered: February, July.

Economic History

The primary aim of the discipline is to provide students with a firm knowledge of the process of economic change in modern industrial economies during the past two centuries. Units offered at the pass degree level provide students with the opportunity to study the patterns of development within a number of countries and regions Japan, China, Southeast Asia, Australia, Germany, France and Europe in general. Thematic units are also offered in Urban History, Minority Studies, the Growth of Big Business and Colonial History.

A major in Economic History under Section 9(iii) consists of ECHS 1001 and ECHS 1002 and four full semester units of study other than those designated as Honours units of study (except with permission of the Head of Discipline).

Students who do not intend completing a major in economic history may take second and third year economic history courses without having completed ECHS 1002.

Students who have not previously studied history or economics will not be under any particular disadvantage. Further, students with interests in mathematics, the natural and physical sciences and engineering should also give serious consideration to attending one or several of these units, after consultation with the appropriate heads of department, as they provide a useful understanding of the economic and social processes which form part of the background of our scientific advance.

Honours units are held for those who, at the end of their first year, show the ability to study the subject in greater depth. Most of the tuition is by seminar or discussion classes and students are expected to complete some lengthy pieces of written work. Emphasis here is placed on comparative and thematic approaches. Students should make use of their training in economics and other disciplines wherever relevant.

Students who are interested in taking any units offered by the discipline for which they do not have the specified prerequisites are encouraged to discuss their proposal with the head of the discipline.

A fairly wide range of research work is carried out by the members of the discipline, which includes specialists in European, American, Australian, Asian, African, economic and social history. Postgraduate studies are provided for both MEC and PhD degrees.

Economic History and History

The Economic History Discipline cooperates with the Department of History in a program making units in either department available to students from the other. For students completing a major in Economic History, this program will enable those with special interests in particular fields of history to take units offered by History as part of their major.

Detailed information on the program should be obtained from the discipline. In all cases, students wishing to take advantage of this program must obtain the permission of the Head of Discipline of Economic History.

Economics History is on Level 3 of the Merewether Building. Enquiries, Room 392.

Registration

Registration for all units takes place in the first lecture of each unit.

Noticeboards

All information likely to be relevant to students is placed on the discipline's noticeboards in the Merewether Building, outside the secretary's office (Room 392).

ECHS 1001 Europe and Asia-Pacific: 19th Century 6 credit points Offered: February. Classes: 2 lectures & 1 tutorial/week.

In 1750 Europe was overwhelmingly agricultural and rural. Most Europeans lived in villages in the countryside, and most spent most of their time farming. "Industry" in general meant goods produced by hand, usually in family units or small shops. Within Europe, control over land and people determined the power of states; in Western Europe, France was pre-eminent, and in Eastern Europe Austria, Russia, and Turkey contended for dominance. Europeans traded with the rest of the world, and some European nations controlled extensive overseas empires. However, Europeans were excluded from many areas of Asia, and Europeans stood in awe of the accomplishments of some Asian societies. British "muslins" and "calicoes" were inferior copies of Indian textile designs. The French philosopher Voltaire and the British economist Adam Smith admired both the efficient centralised government and the very high standard of living of China, and "chinoiserie" was a fad among the upper classes in France.

In 1850 "industry" had come to mean goods produced in factories, using power-driven machinery. The power of states now depended on possession of these new industrial technologies.
Economic History Second and Third Year Units

Students in these years have a broad choice of semester units. These are listed below. (Not all units may be given in any one year.) To pass a unit, students must complete all assignments and examinations at a satisfactory level as well as achieve a pass overall. The classes usually consist of three hours per week comprising two lectures and one tutorial. The assessment usually consists of one three-hour examination and one or two assignments.

Students undertaking a major in economic history must complete ECHS 1001 and 1002 and any four second and third year units.

Students who do not intend completing a major in economic history may take second and third year economic history units without completing ECHS 1001 and 1002.

The following units of study are not on offer in 2001; for details see Chapter 8.

- ECHS 2301 Making the Modern Australian Economy
- ECHS 2307 France Since the Revolution
- ECHS 2308 East Europe: Nationalism to Transition
- ECHS 2309 Germany: Rise, Fall and Rise
- ECHS 2310 Island Pacific History Since the Mid-1800s
- ECHS 2311 Early Australian Economic History
- ECHS 2312 Topics in Modern European Social History
- ECHS 2313 History of Modern European Expansion
- ECHS 2314 Economic and Social History of Minority Groups
- ECHS 2317 Memphis to Megalopolis: The History of Urbanisation
- ECHS 2318 Historical Development of the Chinese Economy
- ECHS 2319 Economic History of the Mediterranean Region
- ECHS 2322 Comparative Industrialisation of the 'Four Tigers'
- ECHS 2323 Issues in Modern Japanese Economic History
- ECHS 2324 The Asian Firm
- ECHS 3001 Managing International Business in Asia

Economics History of the modern economic world

In the 19th century, the industrialized countries of Western Europe, Austria, Russia, and especially Turkey, were "backward" areas. India imported British textiles, and China had been forced to open its ports to trade. Europeans regarded Asian economies, societies, and cultures as inferior.

By 1900 several new industrial powers had emerged to challenge Britain. The rapidly industrializing countries of eastern Europe, Austria, Russia, and especially Turkey, were "backward" areas. India imported British textiles, and China had been forced to open its ports to trade. Europeans regarded Asian economies, societies, and cultures as inferior.

ECHS 1001 examines these changes. The origins and spread of the industrial revolution in Europe, the development of the international economy, and the impact of European expansion on the Asia-Pacific in the age of the "new imperialism" form the core of the unit, and we conclude with an examination of social, economic and political changes in Europe leading up to the First World War. The intent of the unit is to highlight some of the major principles and interpretations of European and world history and to illustrate how different societies have pursued their own paths of development.

ECHS 1002 Europe and Asia-Pacific: 20th Century

6 credit points

Offered: July. Classes: 2 lectures & 1 tutorial/week.

In 1914 the sun never set on the British Empire, and only rarely on the French; Europeans controlled the vast majority of the world's land mass and the world's population. Europe was the leading industrial region in the world, and Europeans of all classes enjoyed the highest standards of living in the world. It went without saying that "international relations" were relations between the six European "great powers." It also went without saying that "culture" was European culture. During the twentieth century, the British and French empires disappeared except for a few scattered islands, as did the imperial possessions of Germany, the Netherlands, Belgium, Italy and Denmark. Western Europe is only the third-ranking industrial centre in the global economy, if that; eastern Europe is painfully attempting to find its way forward towards industrial growth. Standards of living in Europe are not low, but they are no longer "high" in comparison with the rest of the world. Since the collapse of the Soviet Union, no European nation is any longer a "great power." Culture, like industry, is now global.

Conversely, in the Asia-Pacific in 1914, China was divided into "spheres of influence" surrounding port cities and railways constructed by foreigners. Except for Thailand, Southeast Asian nations were all colonies; though formally independent, Australia remained firmly within the British empire. Japan was the only country which had even begun to industrialise; the other nations of the region were sources of primary products for European consumption patterns. Now Japan is one of the world's leading industrial and financial powers, China is an emerging "superpower," and the "East Asian Miracle" has become a cliché.

How did it happen? And what happened in the meantime? ECHS 1002 begins with the worldwide impact of the First World War, looks at attempts to reconstruct the pre-1914 system and the Great Depression, and examines the Soviet Union, fascist regimes, the rise of Nazism, and the Second World War. Reconstruction and decolonisation, followed by the "great boom" and the recent rapid development of the Asia-Pacific, make up the second half of the unit.

This unit provides an introduction to major historical approaches relevant to the period, and you therefore will gain an understanding of the way today's world came into being, and how it really functions. In addition to introducing facts and theories, the unit also aims to improve your communication abilities, both written and spoken.
there is limited consensus about the causes for the region's economic performance during the 'boom years', current recession and its future prospects. This course aims to place the region's economic policies and its deepening integration into the capitalist world economy with the advent of colonialism will be investigated. In particular, the emergence of the export-based colonial economy, economic function and impact of large-scale immigration on the colonial and post-colonial societies will be studied. Economic policies such import-substitution industrialisation (ISI) and export-oriented industrialisation (EOI), the salience of socio-economic and ethnic tensions, the impact of rapid industrialisation on the environment, the contradictions between the promotion of economic liberalism and authoritarian governance and the efficacy of ASEAN will also be analysed.

ECON 2304 Economic Development of Modern Japan
8 credit points
Dr Rahim
Offered: July. Prerequisite: Any four first year units of study.
In this unit we will look at some of the more controversial arguments which attempt to explain Japan's development from a quasi-feudal state into major economic powerhouse. Some of the issues we will investigate are: the role of the keiretsu in the postwar era and the role of the zaibatsu in the prewar era in directing Japan's economy; the influence of politicians and bureaucrats on Japan's development as a nation; the role of small business in the so-called "economic miracle" of Japan's postwar recovery; whether Japan in the 1990s is really the economic mecca it is portrayed to be in certain types of literature.

ECON 2305 Strategy and Growth of Big Business
8 credit points
Dr Hutchinson
Offered: July. Prerequisite: Any four first year units of study.
This unit analyses the transition from small family firm to large managerial corporation over the last century in the US, Britain and Australia. The focus is on the way firms have grown. In particular it examines the growth strategies the firms employed and the accompanying innovations in organisational structure and information systems. The unit also examines changes in the nature of competition which have accompanied the growth of big business. Topics include the emergence of the first big businesses - the US railroad companies; the marketing revolution; multinational expansion; product diversification; the new conglomerates; accounting innovations; the multi-divisional structure; the rise of professional managers; R & D and the transition of institutionalised invention and innovation. It is strongly recommended that students complete Economics I before undertaking this unit.

ECON 2306 The Managerial Firm
8 credit points
Dr Hutchinson
Offered: February. Prerequisite: ECON 2001 or ECOP 2002 or (ECON 1001 & 2 and ECHS 2305) or (ECON 1001 & 2 and ECHS 2305).
The large managerial firm, operating in a number of product and geographic markets and controlled by managers rather than owners, plays a major role in modern economies. Although it is now being challenged by new institutions such as LBOs and strategic alliances, the large managerial firm is itself a recent phenomenon which only began to emerge in the 1880s.
This unit analyses the development of the large managerial firm since the 1880s. It focuses on the role of information in two major topic areas: the first is the expansion in firms' activities through strategies of vertical integration (including internal R&D), diversification and multinational investment. As firms increasingly turned to external sources of finance to fund this expansion, salaried managers began to make strategic as well as operational decisions. These issues are examined, leading into the second general topic - the need to ensure effective performance of managers. The unit analyses the development of new internal organisational structures and information systems to coordinate and monitor operational managers as well as the development of methods to assure the performance of top managers. The unit includes detailed analysis of case studies which are drawn primarily from the USA, Australia and Japan.

ECON 2401 Economic History II Honours (Part A)
4 credit points
Offered: February. Prerequisite: ECHS 1001 and ECHS 1002 at Credit level. Classes: Comprises an Honours seminar and preparation for a research essay.
Honours students are encouraged to take the two units in Australian economic history: Early Australian Economic History and Making the Modern Australian Economy. They are also required to take a year-long honours seminar which will focus on methodology. In addition to seminar papers, honours students are required to write two research essays.
This is the first semester of a full year Honours seminar program.

ECON 2402 Economic History II Honours (Part B)
4 credit points
Offered: July. Prerequisite: ECHS 1001 and ECHS 1002 at Credit level. Classes: Comprises an Honours seminar and submission of a research essay.
Honours students are encouraged to take the two units in Australian economic history: Early Australian Economic History and Making the Modern Australian Economy. They are also required to take a year-long honours seminar which will focus on methodology. In addition to seminar papers, honours students.
This is the second semester of a full year Honours seminar program.

ECON 3401 Economic History III Honours (Part A)
4 credit points
Offered: February. Prerequisite: ECHS 2401 and ECHS 2402 and two senior units at Credit level. Classes: Comprises an Honours seminar and preparation for a research essay.
This is the first semester of a full year Honours program.
Economic History HI Honours consists of a year-long seminar course on the history of economic and social ideas. This will entail the writing of seminar papers. Students will also have to present a research essay of 8000-10 000 words.

ECON 3402 Economic History III Honours (Part B)
4 credit points
Offered: July. Prerequisite: ECHS 2401 and ECHS 2402 and two senior units at Credit level. Classes: Comprises an Honours seminar and submission of a research essay.
This is the second semester of a full year Honours program.
Economic History HI Honours consists of a year-long seminar course on the history of economic and social ideas. This will entail the writing of seminar papers. Students will also have to present a research essay of 8000-10 000 words.

ECON 4501 Economic History Honours A
12 credit points
Offered: February, July. Prerequisite: Credit in ECHS 3402.
Requirements for the pass degree must be completed before entry to Level 4000 honours units of study. Classes: 2 seminars per week.
Assessment: Three 2000w seminar papers, one 10,000-12,000w thesis.
This unit consists of a year-long seminar stream on historiography, for which seminar papers will be presented, and work under individual supervision on a thesis.
Candidates must enrol in ECHS 4502, ECHS 4503 and ECHS 4504 to complete the honours year.

ECON 4502 Economic History Honours B
12 credit points
Offered: February, July.
ECON 1001 Introductory Microeconomics
6 credit points
Introductory Microeconomics addresses the economic decisions of individual firms and households and how these interact in markets. It is a compulsory core course for the Bachelor of Economics degree (BEc) and for the Bachelor of Commerce degree, and an alternative core course for the Bachelor of Economics (Social Science).

ECON 2001 Intermediate Microeconomics
5 credit points
Offered: February, January (short). Prerequisite: ECON 1001.
Corequisite: ECMT1010.
NB: Certain combinations of Maths/Stats may substitute for Econometrics — consult Faculty.
The aim of Intermediate Microeconomics is the development of theoretical and applied skills in economics. It covers applications and extensions of the theory of consumer choice, firm behaviour and market structure. Emphasis is given to the economic principles of information and choice under uncertainty; industry structures other than monopoly and perfect competition; factors of production; general equilibrium and economic efficiency; market failure and the role of government. This unit provides a basis for the more specialised options that comprise third year economics.

ECON 2002 Intermediate Macroeconomics
5 credit points
Offered: July, January (short). Prerequisite: ECON 1002.
Corequisite: ECMT 1020.
NB: Certain combinations of Maths/Stats may substitute for Econometrics - consult Faculty.
This unit of study develops models of the goods, money and labour markets, examines issues in macroeconomic policy. Macroeconomic relationships, covering consumption, investment, money and employment, are explored in detail. Macroeconomic ideas is essential for understanding society, business and government. Students are given a comprehensive introduction to these ideas and are prepared for the advanced study of microeconomics in subsequent years.

Chapter 4 - Units of study
course, topics include the determinants and theories of economic growth, productivity and technology, the dynamics of the business cycle, counter-cyclical policy and the relationship between micro and macro policy in the context of recent Australian experience.

ECON 2901 Intermediate Microeconomics Honours
8 credit points
Offered: February. Prerequisite: ECON 1001 and ECON 1002 with a credit average or better in the two subjects combined.
Corequisite: ECON 2903 and ECMT 1010.
NB: Certain combinations of Maths/Stats may substitute for Econometrics. Consult the Faculty.
Comprises lectures based upon the curriculum for ECON 2001: Intermediate Microeconomics, supported by a seminar for one hour a week. The content of lectures will reflect a more analytical and critical treatment of the topics than ECON 2001. The topics, which build on the theory of consumer and firm behaviour and market structure, include game theory, oligopoly, general equilibrium and welfare, externalities and public goods and the economics of information.

ECON 2902 Intermediate Macroeconomics Honours
8 credit points
Offered: July. Prerequisite: ECON 2901. Corequisite: ECON 2904 and ECMT 1020.
NB: Certain combinations of Maths/Stats may substitute for Econometrics. Consult the Faculty.
Comprises lectures based upon the curriculum for ECON 2002: Intermediate Macroeconomics, supported by a seminar for one hour a week. The content of lectures will reflect a more intensive treatment of the topics than ECON 2002. Topics to be covered include: models of the goods, money and labour markets; macro-economic relationships such as consumption, investment, demand for money and labour demand and supply; macro-dynamic relationships, especially those linking inflation and unemployment; exchange rates and open economy macroeconomics; theories of economic growth; productivity and technological change; the dynamics of the business cycle; and the relationship between micro- and macro-economic policy.

ECON 2903 Mathematical Economics A
4 credit points
Provides an introduction to mathematical techniques commonly employed by economists. The syllabus includes: limits, continuity, differentiation of single- and multi-variable functions, unconstrained and constrained optimisation.

ECON 2904 Mathematical Economics B
4 credit points
Offered: July. Prerequisite: ECON 2903. Corequisite: ECON 2902.
This unit follows on from ECON 2903. The syllabus includes: integration techniques, linear algebra (with applications to comparative statics and optimisation) and economic dynamics.

Economics 3000 level
The following units of study are designed to offer students scope for developing interests in particular spheres of economics. A total of 16 credit points from the 3000 level units of study is required to complete a major in Economics. The recommended procedure is to take one 8 credit point unit of study in each semester. Students completing a major may take more than 16 credit points and those not completing a major may take only 8 credit points. Students may substitute one from the list of third year Political Economy units of study for one of Economics unit of study. The descriptions of the Political Economy units are shown in the Political Economy program.

The details on individual units of study may change from year to year. Information on the instructor and the focus in any particular year may be obtained from the Economics Discipline office. (Room 370) or from the internet at www.usyd.edu.au/su/econ/welcome.htm.

ECON 3001 Capital and Growth
8 credit points
This unit is an introduction to economic growth, including its causes and consequences. The role of capital, technological progress, and other determining factors of the development of economies will be studied from the point of view of alternative economic theories. The potential effects of growth and structural change on welfare, income distribution, and employment will be studied in the same contexts with some consideration of the empirical evidence. The role of alternative economic policies and economic institutions in promoting growth will be discussed.

ECON 3002 Development Economics
8 credit points
Offered: July. Prerequisite: ECON 1001 and ECON 1002, plus one of ECON 2001, ECON 2002, ECON 2901, ECON 2902.
This unit of study examines the role of the state, rationale for planning and market mechanisms in developing economies, and also the sociocultural preconditions and economic requirements for a market economy. It focuses on a wide range of developmental problems and issues from both microeconomic and macroeconomic points of view. It is designed to highlight the problems of development and underdevelopment from an institutional and structural perspective, with appropriate modifications of general economic principles, theories and policies. It will closely study the integration process of the traditional segment of a developing society into its modern counterpart in countries selected from Asia, Africa, Latin America, the Caribbean, and the Pacific regions.

ECON 3003 Hierarchies, Incentives & Firm Structure
8 credit points
Offered: February. Prerequisite: one of ECON 2001, ECON 2901.
This unit deals with the coordination and motivation problems faced by firms. More specifically this unit examines: whether firms use price or command mechanisms to allocate resources within firms; the problems associated with designing incentive contracts; the principles of efficient contract design and; the real world applications of those principles. The final section deals with the manner in which the coordination and motivation problems faced by firms determines their financial, vertical and horizontal structure.

ECON 3004 History of Economic Thought
8 credit points
This unit deals with the evolution of economic ideas from the late seventeenth century to the present day, with emphasis on the intellectual and social background that influenced the more important contributions. After a discussion of mercantilism and physiocracy, the work of Adam Smith and Ricardo are studied in detail. Nineteenth century economics is studied with special reference to the early criticisms of Ricardo, the work of John Stuart Mill and Marx, and the marginal revolution. Developments of the twentieth century, subsequently covered, include production, capital and distribution theory, the imperfect competition and Keynesian revolutions, and post-war developments.

ECON 3005 Industrial Organisation
8 credit points
Offered: July, January (short). Prerequisite: One of ECON 2001, ECON 2901.
This unit of study examines the nature of inter-firm rivalry in industries with market power. It explores the various ways in which firms can increase their market power by: extracting more surplus from consumers, by colluding with rivals or by excluding entrants. The unit also analyses the international competitiveness of industries in the context of industry assistance and the prevalence of foreign multinationals. Competition policy is
discussed in conjunction with policies aimed at the local development of high technology industries.

ECON 3006  International Trade
8 credit points
Offered: February. Prerequisite: One of ECON 2001, ECON 2901.
This unit of study provides a systematic analysis of the theory of international trade and trade policy. It addresses some fundamental questions. Why do countries trade and what are the gains from trade? Is there a role for protection? What is the role of GATT and what are the effects of the world dividing into regional trading blocs? Initially differences between countries are emphasised as the source of trade and the gains from trade. Models that are examined include the Classical-Ricardian model, the Heckscher-Ohlin model and the Specific-Factors model. Next economics of scale and imperfect competition are introduced as sources of trade and gains from trade. The unit concludes with an examination of empirical studies aimed at testing trade theories. The analysis of trade policy begins with a discussion of the instruments of trade policy, in particular, tariffs and quotas and their effect on welfare. This discussion is then extended to the case of imperfect competition and strategic trade policy. The course concludes with an analysis of trading blocs.

ECON 3007  International Macroeconomics
8 credit points
Offered: July, January (short). Prerequisite: One of ECON 2002, ECON 2902.
This unit studies macroeconomic theory and policy in a global trading world. The microfoundations of the various sectors are examined in the context of an open economy. The evolution of international money and capital markets is described, the operation of an exchange market is examined, showing how its microstructure affects its macro performance. Theories and tests of the efficiency of international capital markets are surveyed, as well as core theories and tests of exchange rate and asset price determination. The unit develops the macroeconomic implications of monetary and fiscal policies for small and large open economies for different regimes.

ECON 3008  Labour Economics
8 credit points
This unit aims to provide an understanding of labour markets and related issues such as work conditions, pay and employment levels. Labour supply and demand, theories of wage determination, labour mobility and discrimination are examined. It also analyses the role of trade unions and labour market contracts. These topics are applied to current issues in Australian labour markets such as enterprise bargaining, the role of centralised wage fixing systems, training and other labour market programs. Policies designed to improve the functioning of the labour market are examined and particular attention is given to the problem of persistent unemployment.

ECON 3009  Markets, Regulation & Government Policy
8 credit points
This unit of study addresses contemporary economic issues drawn from a particular area. The focus of the unit will vary from year to year. Examples include housing economics, health economics, trade practices or economies in transition. It will show how economic analysis is used to provide an understanding of particular markets, emphasising the institutional setting and the economic rationales for government intervention.

ECON 3010  Monetary Economics
8 credit points
Offered: February. Prerequisite: One of ECON 2001, ECON 2901, plus one of ECON 2002, ECON 2902.
This unit studies the crucial role that money plays in an economy and examines theory, policy and empirical testing. It analyses why money is used, the forms that it has taken, why it differs from other goods and assets, why it has value and how to measure it. The microfoundations of money demand and supply are developed. Theories of interest rates and inflation are developed. The role and operation of banks in the financial intermediation process and the control and supervision of financial institutions by the Central Bank are also considered.

ECON 3011  Public Finance
8 credit points
Offered: July. Prerequisite: One of ECON 2001, ECON 2901.
Public Finance is about the taxing and spending decisions of governments. The unit will cover a wide range of public finance topics. After an introduction to welfare economics and the role of government in the economy, the course focuses on the revenue side of the budget: tax incidence, efficient and equitable taxation, the Australian system of revenue raising, issues of tax reform and the theory and practice of public utility pricing. It then focuses on the expenditure side of the government budget: public goods, externalities, and programs aimed at redistribution. It also introduces techniques of policy evaluation.

ECON 3012  Strategic Behaviour
8 credit points
Offered: July. Prerequisite: One of ECON 2001, ECON 2901, ECON 2902.
To think and act strategically one needs to evaluate the effect of one’s actions on the actions of others. As most economic decisions are strategic (such as the decision to lower a price or introduce a new tax) economics, if it is to avoid simplistic models, requires a theoretical framework capable of illuminating strategic behaviour. This unit of study offers a comprehensive, critical introduction to the theory which purports, not only to satisfy this theoretical need, but also potentially to unify the social sciences: game theory. After examining important concepts of game theory, the unit will investigate its repercussions for the theory of bargaining and for the evolution of social institutions.

ECON 3013  Advanced Microeconomics: Theory & Policy
8 credit points
Offered: February. Prerequisite: ECON 2001, ECON 2902, ECON 2903, and ECON 2904 with a credit average or better over the four units combined. Corequisite: either ECON 3901 (for those students who have not completed or who are not currently enrolled in ECMT 2010 and ECMT 2021) or one unit from ECON 3001 to ECON 3012 inclusive (for those students who have completed or who are currently enrolled in ECMT 2010 and ECMT 2020). Topics in Microeconomic Analysis (Assessment Weight 2/3): advanced developments in microeconomics.

Policy Seminars (Assessment Weight 1/3): approximately 6 two hour seminars on Australian and/or international economic policy issues.

ECON 3014  Advanced Microeconomics: Theory & Policy
8 credit points
Offered: July. Prerequisite: ECON 3901 and either ECON 3903 or (successful completion of, or current enrolment in) ECMT 2010 and ECMT 2021. Corequisite: one unit of study from ECON 3001 to ECON 3012 inclusive.
Topics in Macroeconomic Analysis (Assessment Weight 2/3): advanced developments in macroeconomics.

Policy Seminars (Assessment Weight 1/3): approximately 6 two hour seminars on Australian and/or international economic policy issues.

ECON 3015  Quantitative Economics
8 credit points
Offered: February. Corequisite: ECON 3901 (for those students who have not completed or who are not currently enrolled in ECMT 2010 and ECMT 2021).
This unit of study presents applied statistics/econometrics. Topics include: probability; random variables and probability distri-
butions; mathematical expectation; estimation and hypothesis testing; correlation and OLS regression, the general linear regression model and the problems of serial correlation; multicol-linearity, heteroscedasticity and simultaneity.

ECON 4101 Economics Honours A
12 credit points
Offered: February, July. Prerequisite: ECON 3901 and ECON 3902 plus ECON 3903 or EGMT 2010 and EGMT 2020; and a credit average or better in either ECON 3901, ECON 3902. NB: Requirements for the Pass degree must be completed before entry to 4000 level Honours units of study.

Students may complete the requirements for final honours in 3 ways:
(a) by taking full coursework;
(b) by taking three quarters coursework and a minor thesis;
(c) by taking half coursework and a major thesis.

The options available will be drawn from the following schedule (though some may not be available in given year): advanced macroeconomics, advanced microeconomics, economic classics, economic development, economic planning, public economics, international economics and labour economics.

Candidates must enrol in ECON 4102, ECON 4103 and ECON 4104 to complete the honours year.

ECON 4102 Economics Honours B
12 credit points
Offered: February, July.

ECON 4103 Economics Honours C
12 credit points
Offered: February, July.

ECON 4104 Economics Honours D
12 credit points
Offered: February, July.

Education
The School of Educational Psychology, Literacies and Learning and the School of Social, Policy and Curriculum Studies in Education offer a wide range of units of study. These are not designed to prepare students for teaching but rather seek to promote the understanding of education as a social phenomenon. As such they open up for analysis the complexities of education through study in a number of fields. For example, there are the study of the nature, context and processes of education through historical, psychological, philosophical and sociological perspectives; of human growth and development and their implications for education; and, across different societies and cultures, of the relationship between education and politics, social organisation and economic development. 12 credit points of Junior level units of study in Philosophy or Psychology or Social Anthropology or Sociology.

For units of study descriptions, refer to the Faculty of Education handbook or the University web site database at www.usyd.edu.au.

Finance
The Discipline of Finance is located in the West Wing of the Institute Building on City Road directly behind the Merewether Building. Inquiries, Room N421.

The courses offered by the Discipline are designed to integrate a variety of practical applications with essential theory and financial reasoning skills. As a result students should be well-equipped to embark on a variety of careers in the financial sector.

The Discipline offers a major in the Bachelor of Economics and Commerce degrees at both pass and honours levels. The major commences in the second year of the undergraduate program and is completed in the third year. Students must do both Economics and Econometrics as well as Financial Accounting in their first year. Undergraduates may also proceed to an honours degree by undertaking the honours components, commencing in the second semester of second year and continuing in both semester 1 and semester 2 of third year. Students who have performed well in these honours courses may then proceed to the fourth honours year to obtain an honours degree in Finance.

Possible career avenues include: broking and dealing; portfolio management; financial, investment and security analysis; and corporate advisory work. Prospective employers include the major financial houses, banks, financial intermediaries, institutions and corporations.

In addition to these avenues, students may wish to combine Finance with related studies in other commercial and economics areas. Adding a Finance major to the primary disciplines of marketing, economics and commercial law can broaden career prospects. A sound knowledge of finance is useful, sometimes expected, from graduates in many commercial/economics disciplines. In a broader context Finance can be taken as part of a combined degree with engineering, law, arts or science. The Finance Major can also be undertaken as part of the four-year BCom(Liberal Studies) degree.

To satisfy the professional accounting bodies the Discipline provides an introduction to finance for accounting students. Students interested in a career in financial accounting are encouraged to complete the Finance major as a means of enhancing their career prospects in the financial sector.

Postgraduate studies
Students wishing to obtain postgraduate qualifications via research by preparing a thesis may undertake either a MPhil or PhD in Finance, dependent on meeting required entry qualifications. As a general rule, the MPhil requires the equivalent of two years of full-time study and the PhD three years. Some coursework may also be required.

The Discipline also plays a major role in postgraduate education via coursework. Finance is a sought-after area in the highly successful Graduate Commerce Program, which was launched in 1995.

Research ventures
The research interests of the staff cover a wide range of fields. Especially prominent is an understanding of just how security markets operate (financial market microstructure) and how corporations are structured and controlled so as to ensure optimum performance (corporate governance and control). The research output of the Discipline, including articles published in major finance and economic journals, is prolific for the Discipline’s comparatively small size.

Members of the Discipline in association with collaborators have been extremely successful in attracting research funds from major sponsors such as the Commonwealth Government (Australian Research Council), the Australian Stock Exchange and the Sydney Futures Exchange. Projects include principal trading by stockbrokers, corporate governance issues and the Futures Research Centre set up in conjunction with the Sydney Futures Exchange.

ACML
The Asia-Pacific Capital Markets Limited (ACML), which incorporates the Securities Industry Research Centre of Asia-Pacific (SIRCA), is a co-operative venture between approximately 25 leading universities, both here and in New Zealand and Hong Kong, and the financial community. It has been established by the Department to undertake research into securities markets. The research and related activities undertaken by ACMF is overseen by a board which includes luminaries from the financial sector and a number of major universities. The Australian Stock Exchange, the Sydney Futures Exchange and a number of major banks have made cash contributions to SIRCA in excess of several million, together with contributions in kind which include the provision of trade by trade security market data covering virtually every transaction for nearly the last decade. Advanced “market-microstructure” research and surveillance software developed by SIRCA has been sold commercially in
several countries including Russia and Indonesia for many hundreds of thousands of dollars. The university version incorporating features such as an ability to "replace" stock market transactions is made available to SIRCA universities. MEMLab

In 1996 the ARC awarded the Department $700,000 to set up the National Micro Economic Modelling Laboratory (MEMLab) to carry out data-intensive modelling and simulation utilising supercomputers. The University has supplemented this with an additional $300,000. The Department's partners in this project are the sister Departments of Marketing and Econometrics in the Economics Faculty and Asia-Pacific Capital Markets Limited, ACOM, which is also headquartered in the Department. MEMLab is equipped with a $2 million Digital Equipment Corporation (DEC) 8400 series supercomputer with six alpha coprocessors operating at 620 MHz, 2 GB of RAM and 150 GB of fast disk storage which makes it the most powerful computer of its type in Australia. DEC (Compaq) is a partner in MEMLab and has made a major contribution to it. The strong research profile of the Department, combined with outstanding support from the financial community including the National Australia Bank, indicates both the strength and practical relevance of the Department.

Contact details
Institute Building (H03), West Wing (behind Merewether).

Studies in Finance

Students may undertake units on a wide range of subjects such as Corporate Finance, Corporate Control, Derivative Securities, Financial Statement Analysis, Cases in Managerial Finance and Trading and Dealing in Securities Markets.

The Finance major constitutes FINC 2001 and (FINC 2002 or FINC 2004), plus two of the available Level 3000 units of study (note that Financial Statement Analysis ACCT 3003, which is offered by the Department of Accounting, may be counted as one of these options). Entry to the Fourth Year Honours program depends upon performance in FINC 2092 Honours, FINC 3093 Honours and FINC 3094 Honours. FINC Honours will be taken in both the first semester (FINC 3093 Honours) and in the second semester (FINC 3094 Honours).

FINC 2001 Corporate Finance I
8 credit points
Offered: February, January (short). Prerequisite: ECON 1001 and ECON 1002 and ECON 1010 and ECON 1020 and ACCT 1001 (or ACCT 1003). Classes: 2hrs lectures, 1 hr workshop & 1 hr tutorial/week. Assessment: One 3hr exam, assignments, mid semester test.

NB: Study in Finance commences in second year.

Provides an introduction to corporate finance, including investment decision-making. The first part deals with the analytical techniques necessary to make investment decisions, both when cash flows are known and when they are uncertain. The second part deals with the corporation and the Australian capital market, the raising of capital, including equity versus debt, and allocating capital, including dividends, internal investments and takeovers. As far as possible, the unit will attempt to link theory to practical applications via examples, exercises and assignments.

FINC 2002 Corporate Finance II
8 credit points

Builds on FINC 2001: Corporate Finance I, but is more applied in that it is concerned with the actual workings of financial markets. It examines the operation of financial markets from both a theoretical and practical perspective, concentrating mainly but not exclusively on Australian financial markets. The unit deals with the economic role of capital markets and theories of capital market behaviour. The operations of equity and derivative markets in Australia, including options and futures, are examined along with foreign exchange and debt markets. A new and important area of study known as 'market microstructure' is introduced and a number of issues in corporate governance and takeovers are examined.

FINC 2004 Introductory Mathematical Finance
8 credit points
Offered: July. Prerequisite: ECON 1001 and ECON 1002 and ECMT 1010 and ECMT 1020 and ACCT 1001 (or ACCT 1003). Corequisite: FINC 2001. Assumed knowledge: It is recommended that students reach the level of HSC 3 Unit Mathematics prior to undertaking the unit. It is also recommended but not required that students either undertake the Maths/Stats major or avail themselves of units offered in Mathematics and Statistics. Other recommended units providing a useful background include ECON 2001, ECON 2901 and ECON 2902. Classes: (2 hrs lectures + 1 tutorial/week plus additional workshops as required. Assessment: One 3hr exam, assignments.

The principle objective of this unit is to introduce students to the basic elements of the rapidly burgeoning field of Mathematical Finance. Students are exposed to key areas in the modern theory of finance and corporate financial policy with specific emphasis on their development and treatment from rigorous mathematical and statistical foundations. The unit will provide some of the necessary maths background so that the subject is reasonably self-contained. Topics that are introduced from a more mathematical perspective include principles of modern financial valuation and analysis; asset pricing theory and market efficiency; theory of portfolio selection and management; and measurement and management of financial risk.

FINC 2002 Finance 2 Honours
4 credit points
Offered: July. Prerequisite: Credit or higher grade in FINC 2001. Corequisite: FINC 2002 or FINC 2004. It is recommended that students undertake FINC 2004 as a corequisite. Students are also encouraged to undertake more advanced units in Econometrics including Financial Econometrics (ECMT 2030). Classes: weekly seminar. Assessment: Assessment of advanced topics covered. A weekly workshop/seminar which deals with more advanced topics in corporate finance and the operation of financial markets.

Entry to FINC 2002 Second Year Finance Honours is competitive and depends on the applicant's grade point average as well as performance in prerequisite units of study.

FINC 3001 International Financial Management
8 credit points
Offered: July, January (short). Prerequisite: FINC 2001 and (FINC 2002 or FINC 2004) and ECON 2001 and ECON 2002 or ECON 2001 and ECON 2002. Classes: (2 hrs lectures + 1 tutorial/week. Assessment: Two, 2 hr exams; project; assignments.

Markets are increasingly globalised. There are very few businesses or industries that are not required to deal with issues such as foreign currency, foreign competition and direct investment. This unit of study is designed to allow students to extend their understanding of basic principles in finance to an international environment. Globalisation of markets introduces risks but also opens up profitable opportunities.

Topics covered include foreign currency valuation and markets, international parity conditions, measuring and managing foreign exposure, international portfolio management, capital budgeting and foreign direct investment, international tax management and international financing strategy.

FINC 3002 Derivative Securities
8 credit points
Offered: February, January (short). Prerequisite: FINC 2001 and (FINC 2002 or FINC 2004), and ECON 2001 and ECON 2002 or ECON 2901 and ECON 2902. Classes: (2 hrs lectures and 1 tutorial/week; one workshop session (not every week). Assessment: One report/sem, exams, assignment, tests.

Options, futures and swaps are derivatives of underlying securities such as equities and bonds. These relatively new and rapidly
growing types of securities are increasingly used to manage risk exposure and as a relatively low-cost-way of taking a position in a security or portfolio. They are also being used as part of senior management compensation as a way of attempting to align the interests of shareholders with that of management.

The unit is designed to provide an introduction to this important area of finance without requiring on the part of students a high level of mathematical sophistication. Students will gain exposure to the operations of the Sydney Futures Exchange (SFE) and the Options Exchange and some may even choose to enhance their learning experience by investing small sums on these exchanges.

FINC 3003 Corporate Control
8 credit points
Offered: February. Prerequisite: FINC 2001 and (FINC 2002 or FINC 2004) and ECON 2001 and ECON 2002 or ECON 2901 and ECON 2902. Classes: (2 hrs lectures and 1 tutorial/week plus additional workshops as required. Assessment: Major practical assignment, several small exercises, one 3 hr exam.

The finance sector requires many professionals to advise and assist in the process of new company formation and listings on the stock exchange; acquisitions, mergers, restructuring, issuance of new debt and equity, board structure and composition including outside directors, structuring of executive compensation packages and the like. These activities generally fall under the rubric of corporate control, or in more modern academic parlance, “corporate governance.”

This unit will focus on how corporations are formed, how ownership and control is allocated, and how it changes hands through takeovers, bankruptcies, and reorganisations. The following are provided as examples of the sorts of topics to be covered: how the internal labour market and “pay for performance” within firms impinges on the firm’s capital structure; the role and nature of takeover bids and corporate restructuring; the questionable condemnation of “management entrenchment”; the packaging of cashflow and control rights; the “dual class” share controversy and “super-voting” shares; leveraged buyouts; employee ownership and profit-sharing; the choice between debt, equity, and more complex securities; corporate governance including boards, active investors and regulators; and Anglo-American style firms versus the “main bank” systems of Japan and Germany.

Textbooks:

FINC 3004 Trading and Dealing in Security Markets
8 credit points
Offered: July. Prerequisite: FINC 2001 and (FINC 2002 or FINC 2004) and ECON 2001 and ECON 2002 or ECON 2901 and ECON 2902. Classes: (2 hrs lectures + 1 tutorial/week. Assessment: One 3hr exam, assignments.

The purpose of this unit is to provide students with a detailed working knowledge of Australia’s exchange-based securities markets. The emphasis is on understanding:
- patterns of trading behaviour within and between markets;
- the three main features of the markets, namely transaction costs, liquidity and volatility;
- the roles played by:
  (i) institutional versus private investors;
  (ii) brokers and market-makers;
  (iii) principal and agency trading;
  (iv) informational technology;
  (v) regulation.

The broad aim of the unit is to provide students with both a practical appreciation of the institutional structure of exchange-based securities markets and a thorough research grounding in the techniques which lead to this understanding. namely the relatively new discipline known as “security market microstructure”.

As an aid to learning the unit is currently being developed to include UniSMARTS, a market surveillance tool used by several exchanges.
FINC 3094  Finance 3 Honours (Securities Markets)  
4 credit points  
Offered: July. Prerequisite: Credit or higher grade in FINC 3093 or credit or higher in either FINC 3002 or FINC 3003. Corequisite: FINC 3004. Classes: A weekly workshop/seminar. Assessment: Assessment of advanced topics covered.  
A weekly workshop/seminar which deals with more advanced aspects of finance, particularly security market microstructure.  
Entry to FINC 3094 Third Year Finance Honours is selective with preference given to students with a high grade point average. Preference is also given to students who have completed or are enrolled in Financial Econometrics (ECMT 2030) and are undertaking two units of Finance in the second semester.  

FINC 4101  Finance Honours A  
12 credit points  
Offered: February, July. Prerequisite: FINC 2092, FINC 3093 and FINC 3094 with the grade of Credit or better in at least two, or with the permission of the Head of Discipline. Requirements for the Pass degree must be completed before entry to level 4000 Honours units of study.  
The Honours Year Program in Finance is directed at producing extremely high quality graduates who are capable of undertaking research in finance, either via an advanced research degree at the Master's or PhD level or in the financial community in technical/research-related positions requiring both a high level of analytical skills and an ability to work independently. Graduates are highly sought by investment banking, stockbroking, funds management and management consulting firms.  
Typically, semester units will be offered in research methodology and computer/data/statistical skills. Initially, other units to be offered will most likely be on:  
• securities market micro-structure;  
• corporate governance,  
• financial econometrics, and  
• capital markets and information.  
Actual offerings in any year will depend on staff availability and demand. With approval, the equivalent of a semester unit could be taken from other departments or faculties.  
The Research Report will be written up in the style of an academic article but with a more extensive literature review. Candidates are encouraged to undertake research of an original nature and of publishable quality from the outset. Typically the subject areas relate to the securities market micro-structure or corporate governance, or some combination of the two, since these are the areas in which the Discipline has expertise and supervisory staff.  
Students who have completed double majors in Finance and Accounting, Finance and Econometrics, Finance and Economics or Finance and Marketing, and who are eligible to undertake Fourth Year Honours programs in at least one discipline areas of their two majors, may be eligible to undertake Joint Honours programs, subject to approval of the Honours coordinators in both disciplines.  
Candidates must enrol in FINC 4102, FINC 4103 and FINC 4104 to complete the honours year.  

FINC 4102  Finance Honours B  
12 credit points  
Offered: February, July.  

FINC 4103  Finance Honours C  
12 credit points  
Offered: February, July.  

FINC 4104  Finance Honours D  
12 credit points  
Offered: February, July.  

Geography  
The study of geography entails the examination of spatial difference and change. An understanding of these processes has become relevant increasingly for a wide range of professions associated with the fields of economics and business. New theories of spatial behaviour within economics, along with the development of spatial computing technologies, have opened up new fields of cooperation and collaboration between these two disciplines - specifically the areas of human geography, physical geography, environmental geography, geology and geophysics. It is possible to take up to four years of courses in geography including the honours year and count them towards Faculty of Economics and Business degrees. Human and environmental geography units of study are Table A courses for the BCom degree. All geography units of study are Table B courses for the BCom degree.  
Units of study in human geography, in particular, complement many courses in the Faculty of Economics and Business. GEOG 1002 (Human Environments) introduces the field of human geography through the critical analysis of debates associated with globalisation, global development and urban and regional change. Intermediate units of study in human geography (GEOG 2201, GEOG 2202) build on this knowledge through the detailed examination of urban, economic, cultural and political geography. These two units of study elaborate upon the ways that economic, cultural and political processes operate spatially. From the year 2001, students having completed either ECOP 1001 or ECOP 1002 can enrol in GEOG 2201 or GEOG 2202 without having completed GEOG 1002. Fieldwork is an important component of these units of study (and in geography as a whole). In recent years, students enrolled in these units of study have been offered a week-long field trip to Brisbane to investigate processes of urban and regional economic change. Senior units of study in human geography provide specific foci for students, covering issues such as Asia-Pacific development (GEOG 3201), urban sustainability (GEOG 3202), economic and social impacts of mining (GEOG 3203). GEOG 3201 (Asia-Pacific Development) contains a field school option whereby students can fulfil course requirements through a five week intensive field school in Southeast Asia or the South Pacific.  
Environmental geography units of study include GEOG 2101 and GEOG 2102, which address environmental and resource management, GEOG 3101 (Catchment Management) and GEOG 3102 (Geographic Information Systems and Coastal Zone Management). In these units of study (and others within the School of Geosciences) importance is placed on the use of recent computing technologies. Spatial data sets such as the census are used to examine processes and debates.  
For details on units of study in geography, refer to the Faculty of Science handbook (www.scifac.usyd.edu.au/handbook/) or the Geography web page at www.usyd.edu.au/sa/geography/.  

Government & International Relations  
Ever say to yourself: "I only want what is fair?", or consider "What is the Green agenda for the Pacific after 2000?", or worry about "Where have all the nuclear weapons gone?", or get depressed asking "When will women achieve equality?"?  
Do you follow the news of Australian politics with interest?  
If these questions come to mind then studying Government is a good way to understand them better. Government is the systematic study of all aspects of government and politics. In other universities it may be called Political Science, Political Studies, or Politics. Government is a broad study that includes politicians and parliaments but also all aspects of power and decision-making, as well as the influences and forces that affect decisions in international, national and local affairs. The
The study of politics is about big ideas and big events and people - like yourselves - who are involved in and affected by them.

- political theory: arguments about big political ideas like democracy or justice.
- international politics: the origins of war and peace; foreign policy, global economic relations, and how nation states and international bodies cope with world-wide dimensions of poverty and the environment;
- political systems and comparative politics: the politics of other countries in Asia, Europe, the Middle East and America; different types of political systems such as those evolving in the post-communist nations; and world-wide political issues such as ethnicity, development and democratisation
- public policy and administration: the delivery of public services and the workings of government organisations
- politics and society: social forces such as gender, race and class; the role of the media; factors affecting political participation, electoral behaviour and social movements.

Faculty is available to students in the BA, BEd, BEd(Soc Sc) and BCom degrees, pass or honours. It can also be studied in a number of double or joint degrees such as BA/BCom, the Combined Law degrees and BCom (Liberal Studies). As well as a major in Government selected units are also available as part of the major in management in the BCom and BEd.

For Government graduates the door to opportunity is marked “push”. Our graduates have gone on to such careers as investment officer, program evaluator, planning officer, corporate adviser, survey analyst, ABC analyst, newspaper writer and editor, human resource manager, assistant to High Court judges, ASIO analyst, market researcher, policy adviser to political parties, Department of Foreign Affairs and Trade specialist, director of aid program, adviser to Senate committees, labour relations manager and Pulitzer Prize winning author.

Location
In the Merewether Building (corner City Road and Butlin Avenue). Discipline Office is Room 269. Phone (02) 9351 2054. Email govtdept@econ.usyd.edu.au. Web site www.econ.usyd.edu.au/govt/ (or from the University of Sydney home page).

Noticeboard
On level 2, Merewether Building, outside Room 260 are the notices for Junior level units, and outside room 280 are notices for Senior level units. Students should monitor these and the Discipline’s homepage for current information.

Course structure
Two junior units are prerequisites for all later year units. First, second and third year units are of one semester's duration. They may be offered in either first or second semester. The list of units includes all those offered from time to time by the Discipline. A mix of units is offered every year. The Discipline reserves the right to make amendments and withdraw or add units according to circumstances.

In first year, students may do one additional semester unit and count three 6 credit point junior units in Government towards the degree. In second and third years, students may also do an additional 8 credit point unit per semester.

Major
A major comprises two junior units and four senior units. Junior units must be completed before starting senior units. The senior units are taken one per semester, in most cases, but other combinations are possible. Most students have to do two majors. A double major in Government is possible.

Honours
The study of Honours in government begins in second year. Late entry is possible at the beginning of third year. Entering Government Honours in second year allows students to work in the company of a select group of students who are intensely interested in government and politics here at home and around the world. The Honours program challenges students to rise to the upper limits of their talent and ability, and prepares them for independent research of the kind expected of the top graduates of the top university in the country.

All students in Government 2 Honours are required to take GOVT 2091. All students in third year Honours must take both GOVT 3091 and GOVT 3092; together these two components comprise 8 credit points.

Sydney Internship Program
In 2000, Government and International Relations began an Internship in Public Policy and Affairs, providing senior students with an opportunity to complete a research project while undergoing a professional placement with a government or non-government organisation. Please contact Dr. Carson for further details.

Australian National Internship Program
Second and third year students may apply for entry into the Australian National Internship Program (ANDi) located in Canberra. The program comprises a one-semester internship with the Commonwealth Parliament and an internship in the Public Sector Internship A unit conducted at the Australian National University. Students undertaking the internship will be required to complete a substantial supervised research project equivalent to at least one or two months of full-time work. See the Head of Discipline for further details.

Government Junior Units
There are a number of 6 credit point semester units from which students choose. To proceed to later year units in the Discipline, students must pass two of these 6 credit point units. No more than three 6 credit point junior units in Government can be counted towards the degree.

The units are listed below. Classes normally consist of two lectures and one tutorial per week. Students should follow their own interests in making their choice. None is recommended above any other as a first year unit. Nor does any later year unit require completion of any specific unit from among them. Each of the units, while standing alone and containing different subject matter, has the following in common:

1. the material is pitched at an introductory level;
2. the unit objectives include a grounding in key concepts and methods in the study of politics and government;
3. the learning outcomes include generic skills appropriate to future study across the whole discipline.
4. each is enjoyable.

Units available but not on offer in 2001. For detailed descriptions please refer to entry in the back of this handbook:

GOVT 1207 Global Politics and the Environment
GOVT 1403 Developments in World Politics
GOVT 1405 Comparative Perspectives on Australian Politics
GOVT 1406 Change in Modern World Politics
GOVT 1410 East Asian Comparative Politics and Economic Change
GOVT 1609 Ethnicity, Nationalism and Citizenship
GOVT 1611 Democratic Theory and Practice

Government 101 Australian Politics
6 credit points
Offered: February, July, January (short). Classes: (2 lectures & 1 tutorial)/week.

This unit aims to introduce students to debates about the nature and limits of Australian democracy, to the major institutions of Australian politics, and to the distribution of power in Australian society. Major institutions and forces such as parliament, executive government, the federal system, political parties and the media will be examined as arenas of power, conflict and consensus. Who rules? How? Which groups are excluded?

Government 1104 Power in Society
6 credit points
Offered: February.

This unit provides an introduction to the study of politics, through a focus on the key organising principle of political science: power. Different ways in which power is theorised and
GOVT 1202  World Politics
6 credit points
Offered: February, July. Classes: (2 lectures & 1 tutorial)/week. Introduces the student to the major concepts and approaches of international relations. It will take the student through the traditional theories of international relations, and go on to look at the most recent developments within the discipline. It may look at the uses and problems of the comparative method. Themes examined include, the question of order and conflict in world politics, first-third world economic relations and feminist and critical approaches to traditional international relations theory. Students will be equipped with a broad theoretical understanding of international relations as well as an insight into other disciplines, notably politics in general, sociology and economics.

Government Senior Units
Students who intend to complete a major in Government normally complete one unit each semester over three years. Two Government junior units are prerequisites for senior units. To pass a semester unit, students must complete all assignments and examinations at a satisfactory level, as well as achieving a pass overall. Units normally consist of two lectures and one tutorial per week and assessment comprises usually one examination, essays and class work.

Students who intend to complete a major may also take additional semester units in second and third years and count them towards their degree. All students may count single-semester units towards their degree, so long as the prerequisites are satisfied. All units are of one semester's duration. They may be offered in either first or second semester. The list of units is provisional - not all units are given every year.

The Discipline reserves the right to make amendments and withdrawals or add units according to staff availability or other circumstances. Before pre-enrolling, students must consult the Discipline to find out which units will be offered in the next year - the web site and notice board at room 269. In addition there may be quotas on units.

Units available but not on offer in 2001. For detailed descriptions please refer to entry in the back of this handbook

GOVT 3210 International Political Risk Analysis

GOVT 2101 Human Rights and Australian Politics
8 credit points
Offered: February. Prerequisite: Two GOVT 1000 level units of study.
The unit focuses on the recent and growing political debate and policy initiatives in Australia aimed at implementing human rights policies in a number of areas. The emphasis of the unit is distinctly Australian and concerned with public policy aspects of human rights. It will however touch on the question of what are human rights and where do they come from. It will also be set in the context of the various international instruments (UN Covenants and Conventions, International Labour Organisation instruments and the European Bill of Human Rights) as standards for the Australian debate, and pay attention to the role of governments to protect human rights in addition to the traditional concern of individual rights being protected against governments.

GOVT 2104 The Australian Political Party System
8 credit points
Offered: February. Prerequisite: Two GOVT 1000 level units of study.
The unit will look at the Australian political party system in a number of ways. Historically, the development of parties and the explanations for periods of hegemony, decline, splits, etc. Organisationally, the differing views, and their evolution, of models of organisation and their relation to the wider body political. Philosophically, the presence or absence of philosophical and ideological bases for the parties and the importance of this for electoral purposes. Sociologically, the presence or absence of class bases for parties and the end of class parties. Functionally, interest aggregating and articulating, parties or pressure groups, the role of minor parties and their prospects and the 'independent' phenomenon.

GOVT 2106 Australian Foreign and Defence Policy
8 credit points
Offered: February. Prerequisite: Two GOVT 1000 level units of study.
Offers a broad understanding of the formation, execution, and nature of Australian foreign and defence policy. It considers the aims and objectives of Australia's foreign and defence policies, with reference to the global and regional environment. It reviews the role and interrelation of parliament, political parties, special interests, and government bureaucracy in shaping foreign and defence policy.

GOVT 2201 Politics of International Economic Relns
8 credit points
Offered: July. Prerequisite: Two GOVT 1000 level units of study.
This unit will provide an overview of the principal theoretical approaches to international economic policy and how these apply to understanding the practice of international relations. The unit begins with an overview of trade relations, state-economy relations, hegemony and industrialisation in the 19th century, and proceeds through to the present. For the post - 1945 period special attention is given firstly, to the process of the US hegemony and how this has shaped modern international political economy; secondly to third world issues, especially multinational corporations, debt and under-development; and thirdly, an analysis of the state-economy relationship.
GOVT 2204 Politics of Globalism  
8 credit points  
Offered: July, January (short). Prerequisite: Two GOVT 1000 level units and two GOVT 2000 level units of study.  
This unit is concerned with structural transformations in the global political-economy as it relates to the change in the nature of international politics. The unit addresses several key areas: private power of business? In the first part of the unit, economic pressure on state power, the role of the world economy, political institutions and relations among states. Particular attention is given to the existence of nation-states and the power of national governments to manage economic and social change. The unit will introduce students to the new and rapidly growing body of research on women and politics. Issues to be discussed may include: women, the political significance of the 'gender gap'; the political socialisation, and an examination of activism and women's movement past and present; women and the welfare state; women and the politics of personal life.  

GOVT 2208 Environmental Politics in Asia-Pacific  
8 credit points  
Offered: February. Prerequisite: Two GOVT 1000 level units of study.  
This unit analyses the politics of global and regional environmental change. It examines the key political institutions and economic processes that shape environmental management in the Asia-Pacific. It focuses on the effects of trade, international organisations, international regimes, transnational corporations, non-government organisations, official development assistance and relations among states. Particular attention is given to the environmental impact of more industrialised countries (especially Japan) on resource and environmental management in Southeast Asia and the Pacific. It also examines two case studies: forestry and tourism.  

GOVT 2301 Social Change and Politics  
8 credit points  
Offered: July. Prerequisite: Two GOVT 1000 level units of study.  
The questions asked in this subject include: What is political participation? How and why do people act politically in Australia? How does activism both shape citizenship and lead to social change? How is activism aimed at creating further equality in Australian society? The main topics will be: political participation, political socialisation, and an examination of activism and movements in society, which could include: young people, environmental movements, women's movements, gay and lesbian rights, the labour movement, anti-poverty activism, Aboriginal rights, ethnicity rights, ethnicity politics and community politics.  

GOVT 2306 Gender and the State  
8 credit points  
Offered: July. Prerequisite: Two GOVT 1000 level units of study.  
Do women and men today occupy the same place in political life? What is the significance for our understanding of 'politics' of the fact that for so long politics has been seen as a man's world and that almost all great political theorists argued that women were unfitted for political activity and citizenship? The unit will introduce students to the new and rapidly growing body of research on women and politics. Issues to be discussed may include: women, the political significance of the 'gender gap'; the political socialisation, and an examination of activism and women's movement past and present; women and the welfare state; women and the politics of personal life.  

GOVT 2404 European Politics in Transition  
8 credit points  
Offered: February, January (short). Prerequisite: Two GOVT 1000 level units of study.  
This unit will examine the problems of transition in European politics in three key areas: the shift towards advanced capitalist democracy in the southern Mediterranean; the steps towards transnational unity (through the EC) by northern European nations; and the slow process of economic and political reform in eastern Europe. Different theoretical approaches will be used to examine these phenomena and these will include perspectives that stress the role of the world economy, political institutions and social movements.  

GOVT 2410 Globalisation and National Governance  
8 credit points  
Offered: February. Prerequisite: Two GOVT 1000 level units of study.  
It is widely believed that we are entering a new era in which the existence of nation-states and the power of national governments to manage economic and social change are rapidly being eroded by globalisation. This unit appraises these debates about state power erosion, focusing on the interplay between domestic institutions and international pressures. Its subject matter is therefore centrally concerned with the comparative and international politics of economic change. Lectures and tutorials will compare national responses to the changing global economic system, paying particular attention to international differences in state capacities for governing the market. The important questions that this concern raises are why political capacity is robust in some cases and weak in others; why domestic responses to international pressures are managed effectively or poorly; and why state involvement gets such mixed results, having positive effects in some cases, yet poor or perverse outcomes in others. Case studies will be drawn from Europe (Germany, Sweden, Britain, France, Italy), East Asia (Japan, South Korea, Taiwan) and the United States.  

GOVT 2411 Capitalism and Democracy in East Asia  
8 credit points  
Offered: July. Prerequisite: Two GOVT 1000 level units of study.  
In less than twenty years, the East Asian region has witnessed dramatic political and economic changes. As the processes of democratisation and industrial development continue, the causes and consequences of these changes are still being debated. Concentrating on Korea, Taiwan, Hong Kong, Singapore, and to a lesser extent, Japan, the unit will examine the relationship between political and economic transformation in the East Asian region. It will focus on three central issues: How distinctive are East Asia's political institutions and what has been their impact on economic performance, how is economic strength affecting state power and political performance and in what ways, if at all, might democratisation and globalisation be expected to undermine the distinctive blend of politics and economics in the region?  

GOVT 2502 Policy Analysis  
8 credit points  
Offered: July. Prerequisite: Two GOVT 1000 level units of study (for Management major only: any four 1000 level units).  
Examines Australian public policies in the context of modern theories and techniques of policy analysis. Policies in areas such as social welfare, immigration, foreign policy, broadcasting and the environment will be discussed in the framework of the main themes and their application. The unit also examines stages in the policy cycle, including policy initiation, formulation and allocation, implementation, evaluation and termination. Students will be encouraged to specialise in specific policy areas.  

GOVT 2504 Government and Business  
8 credit points  
Offered: February. Prerequisite: Two GOVT 1000 level units of study (for Management major only: any four 1000 level units).  
The unit will focus on the patterns of relations between government and business in theory and practice in Australia. A key question will be 'who controls whom?' Does the state and the public control the market, or is the state an instrument of the private power of business? In the first part of the unit, economic and political models of the relations between government and business will be examined. In the second part of the unit, these models will be applied to various policy arenas in Australia.
Topics for discussion include: business development in Australia, the Australian financial system, business law and taxation, tariffs, arbitration and industrial relations, manufacturing and rural industry. The unit will conclude by discussing corporatism and industry policy in Australia in a changing global economy.

GOVT 2607 Literature and Politics
8 credit points
Offered: July. Prerequisite: Two GOVT 1000 level units of study.
This unit examines some of the key works in literature around important themes in international and national politics in the past two hundred years. Works are examined that cover wars and their aftermath. The roles of the feminist politics, satire and the struggle of indigenous people for survival are investigated. The political character of religion, race and class as well as the more “personal” symbols of family, friends and love, will compose the loose instruments for interpretation. Literature from a number of countries around the world, e.g. Britain, Ireland, Africa, Latin America, and Europe, is used for critical analysis.

GOVT 3508 Internship in Public Policy and Affairs
16 credit points
Offered: July. Prerequisite: Two GOVT 1000 level units and three GOVT 2000 level units of study not including 2091, 3091 or 3092.
NB: Enrolments limited by number of available placements in the community.
This unit in applied politics provides senior students with an opportunity to complete a research project whilst undertaking a professional placement with a government or non-government organisation, for example Parliament of NSW, Premier’s Department, State Chamber of Commerce, Community Aid Abroad. The unit includes preparatory coursework in policy-making processes and reflective practice. University-based workshops are followed by a placement with an organisational partner on a full-time basis (equivalent to 4 days per week for ten weeks). Students are required to complete a supervised, research project on behalf of the partner. Successful completion of the unit of study is dependent on the fulfilment of a learning and performance contract which students will negotiate. Written applications for the internship program are essential. Faculty permission is required for enrolment.

GOVT 2091 Government 2 Honours
8 credit points
Offered: February. Prerequisite: Two Junior Government units of study at the level of Credit or better, or with the consent of the Head of Department.
The unit helps honours students develop the disciplines and skills they will need to carry out substantial political inquiry. It will include attention both to theoretical approaches (problems of conceptualisation, explanation, comparing contending theories and ideologies) and to empirical data (the uses and limits of different research designs including the use of statistical data). It will examine these analytical themes in substantive areas.

GOVT 3991 Government 3 Honours Part A
4 credit points
Offered: February. Prerequisite: Two senior Government units, including GOVT 2091, at the level of Credit or better, or with the consent of the Head of Department.
This is the first semester of a full year Honours program.
Political Power: Concepts and Methods. Power is one of the central concepts in the social sciences; indeed, it is often argued that political science can be defined as the study of power. Power is also extremely controversial: theoretically, methodologically and empirically. One of the major debates in political science has been about the way to investigate community power and what the investigations show about its distribution. This is the debate about the pluralist, elitist and class conceptions of power. Another controversy exists about the meaning of power and its relationship to other cognate concepts such as influence, authority, coercion, force, persuasion or manipulation. The unit will examine these debates. We will also look at the way the concept ‘power’ has been used in the political science literature dealing with such fields of study as international relations, state theory and business/government relations.

GOVT 3992 Government 3 Honours Part B
4 credit points
Offered: July. This is the second semester of a full year Honours program.
Research Preparation. Focuses on skills necessary in order to undertake fourth year thesis work. Areas covered include the selection of a thesis topic, research design and the organisation and writing up of research. Students prepare a thesis prospectus.

GOVT 4101 Government Honours A
12 credit points
Offered: February, July. Prerequisite: Credit grades in two junior GOVT units and GOVT 2091, GOVT 3091 and GOVT 3092. Requirements for the Pass degree must be completed before entry to level 4000 Honours units of study. In the case of students enrolled in a combined law degree, credit grades in two junior GOVT units, three senior GOVT units and GOVT 2091, GOVT 3091 and GOVT 3092.
Students work under individual supervision. Besides preparing a substantial thesis, students take two seminars from such areas as political theory, Australian politics, international politics, and public policy and administration.
Candidates must enrol in GOVT 4102, GOVT 4103 and GOVT 4104 to complete the honours degree.

GOVT 4102 Government Honours B
12 credit points
Offered: February, July.

GOVT 4103 Government Honours C
12 credit points
Offered: February, July.

GOVT 4104 Government Honours D
12 credit points
Offered: February, July.

Additional units that may be counted towards a major
The following units may also be counted towards a major in Government:
• ASNS 2414 South East Asian Politics
• JCTC 2007 Israel in Modern Middle East
• JCTC 2008 Conflict and Peace in the Middle East: The Arab-Israeli Conflict
• ECOF 2001 Contemporary Economics and Politics of South East Asia
• ECOP 3006 Political Economy of Women
• HSTY 2041 Republicanism.

Law

LAWS 1002 Contracts
8 credit points
Offered: February, July, January (short). Classes: Two 2 hr seminars per week. Assessment: Combination of assignment/s, essay/s, class participation and open book exam. Faculty permission is required for enrolment.

GOVT 4104 Government Honours D
12 credit points
Offered: February, July.

Additional units that may be counted towards a major
The following units may also be counted towards a major in Government:
• ASNS 2414 South East Asian Politics
• JCTC 2007 Israel in Modern Middle East
• JCTC 2008 Conflict and Peace in the Middle East: The Arab-Israeli Conflict
• ECOF 2001 Contemporary Economics and Politics of South East Asia
• ECOP 3006 Political Economy of Women
• HSTY 2041 Republicanism.

GOVT 3991 Government 3 Honours Part A
4 credit points
Offered: February. Prerequisite: Two senior Government units, including GOVT 2091, at the level of Credit or better, or with the consent of the Head of Department.
This is the first semester of a full year Honours program.
Political Power: Concepts and Methods. Power is one of the central concepts in the social sciences; indeed, it is often argued that political science can be defined as the study of power. Power is also extremely controversial: theoretically, methodologically and empirically. One of the major debates in political science has been about the way to investigate community power and what the investigations show about its distribution. This is the debate about the pluralist, elitist and class conceptions of power. Another controversy exists about the meaning of power and its relationship to other cognate concepts such as influence, authority, coercion, force, persuasion or manipulation. The unit will examine these debates. We will also look at the way the concept ‘power’ has been used in the political science literature dealing with such fields of study as international relations, state theory and business/government relations.

GOVT 3992 Government 3 Honours Part B
4 credit points
Offered: July. This is the second semester of a full year Honours program.
Research Preparation. Focuses on skills necessary in order to undertake fourth year thesis work. Areas covered include the selection of a thesis topic, research design and the organisation and writing up of research. Students prepare a thesis prospectus.

GOVT 4101 Government Honours A
12 credit points
Offered: February, July. Prerequisite: Credit grades in two junior GOVT units and GOVT 2091, GOVT 3091 and GOVT 3092. Requirements for the Pass degree must be completed before entry to level 4000 Honours units of study. Students work under individual supervision. Besides preparing a substantial thesis, students take two seminars from such areas as political theory, Australian politics, international politics, and public policy and administration.
Candidates must enrol in GOVT 4102, GOVT 4103 and GOVT 4104 to complete the honours degree.

GOVT 4102 Government Honours B
12 credit points
Offered: February, July.

GOVT 4103 Government Honours C
12 credit points
Offered: February, July.

GOVT 4104 Government Honours D
12 credit points
Offered: February, July.

Additional units that may be counted towards a major
The following units may also be counted towards a major in Government:
• ASNS 2414 South East Asian Politics
• JCTC 2007 Israel in Modern Middle East
• JCTC 2008 Conflict and Peace in the Middle East: The Arab-Israeli Conflict
• ECOF 2001 Contemporary Economics and Politics of South East Asia
• ECOP 3006 Political Economy of Women
• HSTY 2041 Republicanism.

Law

LAWS 1002 Contracts
8 credit points
Dr Chukwumerje (Convener)
Offered: February, July, January (short). Classes: Two 2 hr seminars per week. Assessment: Combination of assignment/s, essay/s, class participation and open book exam. Faculty permission is required for enrolment.

February Semester classes are for students in Combined Law and July Semester classes are for students in Graduate Law.

Contract law provides the legal background for transactions involving the supply of goods and services and is, arguably the most significant means by which the ownership of property is transferred from one person to another. It vitally affects all members of the community and a thorough knowledge of contract law is essential to all practising lawyers. In the context of the law curriculum as a whole, Contracts provides background which is assumed knowledge in many other units.

The aims of the unit are composite in nature. The central aim is to provide an understanding of the basic principles of the common law, equity and statutes applicable to contracts. A second
aim is to provide students an opportunity to critically evaluate and make normative judgments about the operation of the law. As Contracts is basically a case law unit, the final aim of the unit of study is to provide experience in problem solving through application of the principles derived from decided cases. Successful completion of this unit of study is a prerequisite to the option Advanced Contracts.

**LAW 1003 Criminal Law**
8 credit points

*Offered:* February, July. *Classes:* Two 2 hr seminars per week.

February Semester classes are for students in Graduate Law and July Semester classes are for students in Combined Law.

This unit of study is designed to assist students in developing the following understandings:

- A critical understanding of certain key concepts which recur throughout the substantive criminal law.
- A knowledge of the legal rules in certain specified areas of criminal law.
- A preliminary understanding of the working criminal justice system as a process and the interaction of that process with the substantive criminal law.
- A preliminary understanding of how the criminal law operates in its broader societal context.

The understandings referred to in the foregoing paragraphs will have a critical focus and will draw on procedural, substantive, theoretical and empirical sources. Race, gender, class and the interaction of these factors will be key themes.

**LAW 1006 Legal Institutions**
6 credit points

*Ms Millbank (Convenor)*

*Offered:* February. *Classes:* One 1 hr lecture & Two 2 hr seminars per week.

*Assessment:* Assessment will involve a combination of participation and work in the seminars themselves and written tasks, which will include a court observation assignment, a case reading and analysis assignment, and an essay.

**LAW 1007 Legal Research**
6 credit points

*Ms Millbank (Convenor)*

*Offered:* February. *Classes:* One 1 hr lecture & Two 2 hr seminars per week.

*Assessment:* Assessment will involve a combination of participation and work in the seminars themselves and written tasks, which will include a court observation assignment, a case reading and analysis assignment, and an essay.

**LAW 1008 Legal institutions**
6 credit points

*Ms Millbank (Convenor)*

*Offered:* February. *Classes:* One 1 hr lecture & Two 2 hr seminars per week.

*Assessment:* Assessment will involve a combination of participation and work in the seminars themselves and written tasks, which will include a court observation assignment, a case reading and analysis assignment, and an essay.

**LAW 1009 Legal Writing**
0 credit points

*Offered:* February. *Classes:* One 2 hr seminar per semester.

Students are required to satisfactorily complete Legal Writing. This unit requires attendance at a legal writing seminar which is taught in conjunction with a host unit (Contracts for Combined students, and Criminal Law for Law School students). Class times will be made available early in the semester. The seminar will address common issues in legal writing at this level. Writing strategies will be developed in the context of preparing for the written assessment task in the host subject.

Legal Writing is graded on a Pass/Fail basis. Attendance at the seminar is mandatory.

**LAW 1010 Torts**
6 credit points

*Ms McDonald (Convenor)*

*NB:* Unit is part of the Combined Law program for students commencing in 2001.

This is a general introductory unit of study concerned with liability for civil wrongs. The unit seeks to examine and evaluate, through a critical and analytical study of primary and secondary materials, the function and scope of modern tort law and the rationale and utility of its governing principles.

Particular topics on which the unit will focus include:

- The relationship between torts and other branches of the common law including contract and criminal law;
- The role of fault as the principal basis of liability in the modern law;
- Historical development of trespass and the action on the case and the contemporary relevance of this development;
- Trespass to the person (battery, assault, and false imprisonment);
- Interference with goods (trespass, detinue and conversion);
- The action on the case for intentional injury;
- Defences to trespass, including consent, intellectual disability, childhood, necessity and contributory negligence;
- Development and scope of the modern tort of negligence, including detailed consideration of duty of care, breach of duty, causation and remoteness of damage and assessment of damages;
- Injuries to relational interests, including compensation to relatives of victims of fatal accidents;
- Concurrent and vicarious liability;
- Defences to negligence;
- Breach of statutory duty;
- Nuisance; and
Marketing
The Discipline of Marketing is situated in the Institute Building. Initial inquiries regarding the department may be directed to the general office, phone (02) 9351 4283, fax (02) 9351 5632.

Students should not hesitate to make appointments with members of the teaching staff by phone or email if they need information about their particular subject. Students are encouraged to visit the department's web site for more detailed information about its educational and other activities, www.econ.usyd.edu.au/market/welcome.htm.

The two-year program in Marketing commenced in 1994. It is built on four one-semester core courses, followed by options. The major consists of the four core courses plus at least one option. The core courses include Marketing Principles offered in Semester 1; Marketing Research I and Consumer Behaviour offered in Semester 2; and Marketing Research II offered in Semester 1 of the third year. The options are Marketing Communications, Retail and Services Marketing and New Products Marketing offered in year three. Options are available to all students who have completed Marketing Principles, Consumer Behaviour and Marketing Research I, as well as certain units in Economics and Econometrics plus one first year Accounting or Accounting Concepts. The program in Marketing emphasizes critical and analytical thinking and the practice of marketing as an applied science. Students are expected to have a reasonable level of knowledge in mathematics and econometrics; and emphasis is placed on analytical skills and the application of principles in most courses. Heavy emphasis is given to group work in the projects prescribed for each course.

The discipline also offers courses in the Graduate Commerce Program of the Faculty of Economics and Business including the Master of Commerce, Graduate Diploma in Commerce and the Graduate Certificate in Marketing.

The following unit of study is not on offer in 2001: for details see Chapter 5.

MKTG 3010 Electronic Marketing

MKTG 2001 Marketing Principles
8 credit points
Offered: February, January (short). Prerequisite: ECON 1001, ECON 1002, ECMT1010 and ECMT 1020. Corequisite: ACCT 1001 or ACCT 1003. Classes: (1 lec & 1 tut)/wk. Assessment: Two 2hr exams (or equivalent), assignments.

NB: Marketing units of study commence in secondyear, but prerequisites must be completed in first year.

Introduction to the terminology and functions of marketing in modern business practice. Market forces and opportunities, with reference to the role of social, economic, political and global influences and trends. Macro (societal) and micro (individual and firm) implications of the market process and marketing decision-making.

MKTG 2002 Consumer Behaviour
8 credit points
Offered: July. Prerequisite: MKTG 2001 and MKTG 2002. Corequisite: MKTG 2003. Classes: (1 lec & 1 tut)/wk. Assessment: Two 2hr exams (or equivalent), assignments.

Introduction to and overview of economic, psychological and sociological bases of consumer behaviour as they relate to the purchase and consumption of goods and services. Marketing implications of consumer behaviour and the interaction of consumers and the marketing process of organisations.

MKTG 2003 Marketing Research I
8 credit points
Offered: July. Prerequisite: MKTG 2001 and MKTG 2002. Corequisite: MKTG 2003 and ECON 2001. Classes: (1 lec & 1 tut)/wk. Assessment: Two 2hr exams (or equivalent), assignments.

Introduction to marketing research and tie marketing research industry. Basics of problem recognition, formulation, research design and reporting. Qualitative research methods. Survey design and data collection. Data entry and coding. Introduction to basic quantitative analysis. Research practicum.

MKTG 2004 New Products Marketing
8 credit points
Offered: July. Prerequisite: MKTG 2001 and MKTG 2002 and MKTG 2003 and MKTG 3001 and ECON 2001. Corequisite: MKTG 3001. Classes: (1 lec & 1 tut)/wk. Assessment: Two 2hr exams (or equivalent), assignments.

Development and marketing of new consumer and industrial products and the role of the marketing function in that process. Identification of potentially profitable target markets and demand estimation. Dynamics of new product introductions. Course includes case study and research practicum.
MKTG 4101 Marketing Honours A  
12 credit points  
Offered: February, July.  
Prerequisite: Major in Marketing with a minimum of a high credit average in the core marketing syllabus (including at least one distinction or better grade), plus high achievement in Econometrics 2010 and 2020. Requirements for the pass degree must be completed before entry to level 4000 honours units of study.  
Assessment: Coursework and research.  

NB: All applications for Honours are a matter for consideration by the Discipline Honours Committee. Interested Honours students should register their interest with the Discipline before the commencement of second semester.  

The Honours program consists of two sequential semesters of seminar-based coursework, plus a scientific marketing research project leading to a research paper or thesis to be completed in the second semester. Components of the program are:  

1. Marketing Honours Seminar. This course is integrated with the research project. It involves introducing students to the scientific method, the notion of scientific research teams, preparation of a research proposal, defence of this proposal, planning and designing the research, undertaking the research, analysing and presenting the results, writing a scientific research paper and defending same.  

2. Discipline Research Seminar series. This seminar meets weekly in both semesters and discusses recent and emerging literature in marketing, papers prepared by seminar participants or visitors, or other topics that are consistent with the interests and objectives of the participants.  

3. Research Paper: This will be written up as an academic article but with a more extensive literature review. Students will work in research teams supervised by a staff member of the discipline. They are encouraged to undertake research of an original nature and of publishable quality from the outset. Typically the subject areas are related to methods of marketing research, new technology marketing, retail and services marketing and marketing communication, since these are the areas in which the Discipline has especially strong expertise and supervisory skills.  

Joint Honours are available in Marketing and Econometrics. Candidates must enrol in MKTG 4102, MKTG 4103 and MKTG 4104 to complete the honours year.  

MKTG 4102 Marketing Honours B  
12 credit points  
Offered: February, July.  

MKTG 4103 Marketing Honours C  
12 credit points  
Offered: February, July.  

MKTG 4104 Marketing Honours D  
12 credit points  
Offered: February, July.  

Political Economy  

A sequence of units in Political Economy is available for students in all degrees offered by the Faculty of Economics and Business, and for students in the Faculties of Arts and Education. Students in all these degree programs may complete a major, comprising six semester units normally taken over three years.  

Candidates for the Bachelor of Economics (Social Sciences) degree are required to complete the first and second year units in Political Economy. The first year units are ECOP 1001, Economics as a Social Science and ECOP 1002: Structure and Change in Modern Economics. The second year units are ECOP 2001: The Surplus Approach in Political Economy and ECOP 2002: Social Foundations of Modern Capitalism. First year and second year Economics units (ECON 1001, ECON 1002, ECON 2001 and ECON 2002) may be substituted for the Political Economy units.  

Anyone wishing to pursue a career in economics-related fields would be advised also to take Political Economy units at the third year level. Students in the Bachelor of Commerce degrees may major in Political Economy but should take note of prerequisites for other units of study.  

All units of study in Political Economy can be taken in the Faculties of Arts and Education. There is considerable scope for linking a Political Economy major with history, languages and philosophy, as well as with industrial relations and human resource management or psychology, for example.  

There are additional benefits of completing Honours in Political Economy. There are dedicated Honours units in both second and third years and an additional Honours year. Entry into the Honours stream normally requires an average grade of credit or better in the first year units of study. Economics as a Social Science and Structure and Change in Modern Economics. An Honours degree is advantageous in most areas of employment of the Faculty's graduates and is required in some. An Honours degree with a grade of at least, Second Class, Division 1 is essential for entry into a postgraduate research degree.  

Students in the combined BEc(SocSc)/LLB and BCom/LLB degrees who proceed to third year Honours in Political Economy are exempted from having to complete a major in a second subject.  

Studies in Political Economy are an excellent background for a wide range of careers: eg journalism and the media, economic research, teaching, public service and management. Equally important, studies in Political Economy are a focal point for critical inquiry into contemporary economic issues, taking account of their connections with social political and environmental concerns.  

The following units of study are not on offer in 2001; for details see Chapter 8.  

- ECOP 3005 Political Economy of the Environment  
- ECOP 3006 Political Economy of Women  

ECOP 1001 Economics as a Social Science  
6 credit points  
Offered: February, January (short). Assessment: Assessment is based on a combination of coursework, tutorial performance and an examination of one and a half hours at the end of the semester.  

This is an introductory unit of study in political economy. It explores the nature of economic analysis from different perspectives, emphasising the relationship between economic, social and political issues. While the unit is designed to be paired with ECOP 1002, and to be the first unit in a major in political economy, it can also sensibly be taken as a free-standing unit. The unit is not mathematically orientated. It emphasises the acquisition of written and oral skills in economic analysis.  

The unit begins with a discussion of current political economic issues: globalisation, structural economic change, unemployment, economic inequalities and the capacity of the government to implement effective economic policies.  

It then considers the capacity of existing currents of economic thought to illuminate these issues. This requires a careful consideration of the historical context in which competing currents of economic thought were developed. Key concepts are drawn from:  
- Classical political economy  
- Marxist economics  
- Neoclassical economics  
- The institutionalist economic tradition  
- Keynesian economics  
- modern political economy  
- the Keynesian revolution  
- ‘economic rationalism’  
- modern political economy  

The unit concludes with consideration of the reasons why economists from these different traditions disagree. This illustrates the political character of economic ideas. It also provides a basis for making judgements about how to apply economic analysis to current economic problems and policy issues.  

Textbooks  

D. Fusfeld The Age of the Economist (Adison-Wesley Educational Publishers, Reading, Massachusetts, 1999)
ECOP 1002 Structure and Change in Modern Economics
6 credit points
Offered: July. Assessment: Assessment is based on a combination of coursework, tutorial performance and an examination of one and a half hours at the end of the semester.

This is a second introductory unit of study in political economy emphasising the relationship between economic, social and political issues. While the unit is designed to be paired with ECOP 1001, it can also sensibly be taken as a free-standing unit. The unit is not mathematically orientated. It emphasises the acquisition of skills of written and oral exposition.

The lectures explore economic restructuring in the world economy and in Australia with particular regard to their implications for the distributions of wealth and income. This is practical political economy. Concepts examined in ECOP 1001 appear as well in ECOP 1002, but in contexts which will help to deepen understanding of their usefulness and/or their limitations. Illustrative topics are as follows:

• national economic change: changes in the distribution of income and wealth in Australia; structural change in the Australian economy; developments in the Australian labour market
• globalisation: the forces generating increased international economic integration through trade, investment and finance; the tensions and contradictions arising from these processes
• development: current directions, debates and concepts in development studies; the intersections of class and gender in the development process
• the nation state and public policy: a critical examination of the role of the state as coordinator; consideration of selected policy issues, illustrating the limitations of policy proposals arising from mainstream economic analysis.

Textbooks
None is set for this course. However, a list of references and a set of readings will be made available at the first lecture.

ECOP 2001 Surplus Approach in Political Economy
8 credit points
Offered: February. Prerequisite: ECOP 1001 and ECOP 1002. Assessment: Assessment is based on seminar participation, an essay and an examination of one and a half hours at the end of the semester.

Understanding the capacity of an economy to produce a surplus is a central issue in economic analysis. How is an economic surplus generated? What forms does it take, how is it distributed and for what purposes is it used? These are key questions in analysing the functioning of the modern capitalist economy, how it grows, why it experiences crises, and why there are marked inequalities in the distributions of wealth and income both nationally and internationally. Moreover, within the context of the surplus approach it is possible to explore, for example, the notion of modern capitalism and the changing role of the state in economic management.

In introducing students to the surplus approach to political economy, ECOP 2001 builds particularly on the contribution of Marxist theory and explores modern developments in political economy based on that tradition. The first half of the program (I) involves a critical appreciation of Marxist value theory in its historical context as well as in contemporary application. This is followed (II) by a consideration of more recent debates which have emerged within a Marxist and neo-Marxist tradition, as well as of so-called 'post Keynesianism' which also has a clear intellectual link to Marxism (particularly through Kalecki). A discussion of the role of the state in the generation and distribution of surplus will be a central consideration.

I. Value theory and its contemporary application

• preamble: the surplus approach in political economy
• the Marxian approach to history and economy
• capitalist production
• particular Marxist conceptions: of the international economy; of gender, race and exploitation; of the environment question.
II. Recent debates in Marxist and Neo Marxist theory

• modern theories of surplus
• the question of monopoly
• forces determining distribution of income between workers and capitalists; and distribution of investible surplus between enterprises and corporations; feminist arguments regarding distribution
• neo-Marxist international economic relations: unequal exchange; neo-imperialism, dependency theory and underdevelopment; world systems
• crisis theories: underconsumption; the falling rate of profit theory; crisis in the international monetary system
• theories of the state in Marxist and neo-Marxist traditions
• other currents of economic analysis: post-Keynesianism and the French regulationist school.

Textbooks
There is no one text set for this course. However, a list of references and a set of readings will be made available at the beginning of the course.

ECOP 2002 Social Foundations of Modern Capitalism
8 credit points
Offered: July. Prerequisite: ECOP 1001 and ECOP 1002. Assessment: Assessment is based on seminar participation, an essay and an examination of one and a half hours at the end of the semester.

This unit introduces students to an examination of the modern economy conceived more broadly than it is in ECOP 2001. It deals with impersonal forces structured through the market mechanism and the social division of labour, and with more conscious social action through key institutions such as business, unions, government instrumentalities and the family. The activities of production, exchange and distribution are considered within an extensive context of political and cultural influences. Crisis tendencies are contrasted with the processes which have worked to create economic stability and social order. The economic system is put into a clear historical perspective and its dynamics are explicitly examined. Case studies are drawn upon to illustrate the forces at work. The three main sections of the unit are as follows:

I. Development of the economy

• evolution of the nation state, commodity production and the domestic sphere of the economy; the formation of economic communities: industrial, commercial and financial centres; urbanisation/suburbanisation and consumption
• the linkages between the public and private spheres of the economy; material and social (class and gender) bases of these linkages.

II. Structural dimensions of the economy

• the organisation of production and consumption
• institutional foundations of the economy: markets and the social division of labour; state, business, labour and unions, the family
• cultural and ideological influences
• environmental constraints and the social construction of nature: regional, national and international dimensions.

11. The evolution of the economy

• the central significance of evolution and qualitative transformation
• material and social contradictions: contradictions within the accumulation process; contradictions between the public and private spheres; contradictions within the international political economy
• the reconstruction of economic stability and social order.

Textbooks
There is no one text set for this course. However, a list of references and a set of readings will be made available at the beginning of the course.
ECOP 2901 Political Economy Honours II (Part A) 4 credit points
Offered: February. Prerequisite: Normally ECOP 1001 and ECOP 1002 at an average grade of Credit or better. Corequisite: Normally ECOP 2001.
ECOP 2901 is the first semester part of a full-year Honours program. The two units together are designed for students intending to proceed through to a final Honours year, but students who simply wish to do more advanced work in political economy are also welcome to enrol in the unit. Students without the normal prerequisites may be admitted to the unit by the Head of the Political Economy Discipline.
Students examine debates about the meaning and limits of class concepts in social theory. The unit also develops students' sense of the 'politics of theory' through its attention to the context-dependence of the language and concepts of social science.

ECOP 2902 Political Economy Honours II (Part B) 4 credit points
Offered: July. Prerequisite: Normally ECOP 1001 and ECOP 1002 at an average grade of Credit or better. Corequisite: Normally ECOP 2002.
NB: Students who commence mid-year may enrol in this unit if they obtain a credit or better in ECOP 1002 and perform well in other first year units.
ECOP 2902 is the second semester part of a full-year Honours program. The two units together are designed for students intending to proceed through to a final Honours year, but students who simply wish to do more advanced work in political economy are welcome to enrol in the unit. Students without the normal prerequisites may be admitted to the unit by the Head of the Political Economy discipline.
This seminar series is primarily a study in 'praxis'. The unit is designed to develop students' understanding of the link between critical thinking and research in political economy and concrete strategies for economic change.

ECOP 3001 Economic Conflict and the State 8 credit points
This unit of study examines the institutional character of advanced capitalist societies. A sample of such societies is examined on an historical and comparative basis. This serves to achieve an understanding of the variety of particular structures that has emerged, and the specific cultures and balances of forces which have underpinned the variations. In turn, such structures and forces are used to interpret recent nation-specific, state economic, and the constraints and opportunities which channel the development of such policies.

ECOP 3002 Global Political Economy 8 credit points
This unit deals with the major forces presently restructuring the world economy, with particular reference to the institutions involved. Attention is paid to the internationalisation of production and finance and to the overall phenomenon of globalisation. The unit examines the implications of globalisation—in so far as it can be said to be occurring—for the explanation of international trade and investment, and national balances of payments. It acknowledges international labour flows. It examines possible alternatives to nation-states and different mechanisms of global political regulation of economic activity. The unit acknowledges the impact of globalisation on the incomes, opportunities and quality of life of different classes of people, of different races and of women as distinct from men.

ECOP 3003 Political Economy of Cities and Regions 8 credit points
This unit of study examines the process of urban and regional development, with particular reference to Australia. It explores the forces shaping the economy and its spatial structure. It explores the associated socio-economic problems, such as urban socio-economic inequalities, unemployment, housing and congestion. It examines the role of the state in respect of urban and regional policies, including consideration of urban consolidation, decentralisation and regional development policies. Throughout the unit there is reference to the contributions of competing schools of economic thought and the role of interdisciplinary studies in understanding urban and regional issues. Project work provides students with the opportunity to specialise in a topic of their own interest and to develop research skills.

ECOP 3004 Political Economy of Development 8 credit points
This unit of study looks at development as an uneven historical process both nationally and internationally. It draws on different types of theoretical explanation by which 'development' has been understood, from modernisation and dependency theories to postmodernism.
The unit uses contrasting regional comparisons to consider in some statistical/empirical detail the economic gains and losses in particular parts of the world from the end of the second world war to the present.
The issues considered include: the changes from primarily subsistence production to fully fledged industrialisation. The role of the state. Gender and cultural difference and the impact of globalisation and global institutions on the development experience.

ECOP 3901 Political Economy Honours III (Part A) 4 credit points
Offered: February. Prerequisite: Normally ECOP 2001, ECOP 2002 and ECOP 2901 and ECOP 2902 at an average grade of Credit or better. Corequisite: For ECOP 3901 and ECOP 3902 together, normally three of the units ECOP 3001-3006, or two plus one of the ECON 3000 level units (subject to any prerequisites). ECOP 2001 may be regarded as a corequisite unit provided grades of Credit or better have been obtained in ECOP 2002 and ECOP 2902 and a good standard has been achieved in other second year units.
ECOP 3901 is the first semester part of a full-year Honours program. Assessment is of the two parts together and is made only when both parts have been completed. The assessment covers students' contributions to seminars, a 3000 word essay and other material submitted during the two semesters. ECOP 3901 and ECOP 3902 are normally taken by students intending to proceed through to the final Honours year, but may be taken by other students who simply wish to do more advanced work in political economy. Students without the normal prerequisites may be admitted to the unit by the Head of the Political Economy Discipline.
The theme of this unit is on 'Research in Political Economy'. It is intended to develop skills in the interpretation of the methodology of economic analyses, so that students are aware of the importance of the assumptions underlying research projects. The unit includes (i) a consideration of how methodological choices structure contemporary economic analyses and policy positions in determining the research agenda, and (ii) a methodological focus on debates within selected areas of contemporary importance within political economy.

ECOP 3902 Political Economy Honours III (Part B) 4 credit points
Offered: July. Prerequisite: Normally ECOP 2001, ECOP 2002, and ECOP 2901 and ECOP 2902 at an average grade of Credit or better. Corequisite: For ECOP 3901 and ECOP 3902 together, normally three of the units ECOP 3001-3006, or two plus one of the ECON 3000 level units (subject to any prerequisites). ECOP 2001 may be regarded as a corequisite unit provided grades of Credit or better have been obtained in ECOP 2002 and ECOP 2902 and a good standard has been achieved in other second year units.
ECOP 3902 is the second semester part of a full-year Honours program. The assessment covers students' contributions to seminars, a 3000 word essay and other material submitted during the two semesters. ECOP 3901 and ECOP 3902 together are normally taken by students intending to proceed through to final Honours year, but may be taken by other students who simply wish to do more advanced work in political economy. Students without the normal prerequisites may be admitted to the unit by the Director of the Political Economy program.

The theme of 'Research in Political Economy' is continued through (i) a ten-week program on research materials, covering bibliographic access, software usage, archival investigations, surveys, and so on, plus (ii) discussion of preparation of topics of fourth year theses.

ECOP 4001 Economics (Social Sciences) Honours A
12 credit points
Offered: February, July. Prerequisite: Normally an average grade of Credit in the five units required at 3000 level for students intending to proceed to final year (including ECOP 3901/3902). Requirements for the Pass degree must be completed before entry to level 4000 Honours units of study.

All students are required to undertake a 20,000 word thesis and coursework during their final honours year. The thesis is on a topic of each student's own choice, subject to staff approval: the thesis proposal is normally developed during the preceding year of study. The Political Economy honours. The coursework requirement is two semester-length units. The units include selections from the following: Patterns of Capital Accumulation; State and Economy in East Asia; Theories of Social Formations; Industry Restructuring Policy; Dissecting Liberalism; and Issues in Political Economy. Only some of these units are available in any year. Students may choose one semester-length unit from among those on offer in other programs in the BSc(SocSc) degree, subject to the agreement of the relevant discipline and the Director of the Political Economy honours program.

ECOP 4002 Economics (Social Sciences) Honours B
12 credit points
Offered: February, July.

ECOP 4003 Economics (Social Sciences) Honours C
12 credit points
Offered: February, July.

ECOP 4004 Economics (Social Sciences) Honours D
12 credit points
Offered: February, July.

Philosophy

Philosophy is a Table A course in the Bachelor of Economics (Social Sciences) degree and a Table B course in the Bachelor of Economics and Bachelor of Commerce degrees.

The School of Philosophy consists of two departments: General Philosophy (GP) and Traditional and Modern Philosophy (T&M). First, second and third year courses are offered by the two departments jointly.

There is a separate IV (Honours) year for each department, but with the same pool of courses. Intending honours students should note the entry requirements mentioned in the fourth year section.

The General Philosophy office is located in the southeast corner of the main quadrangle (by the jacaranda tree) up one floor (Room S432, phone (02) 9351 2225). The Traditional and Modern Philosophy office (Room S241, phone (02) 9351 2466) is in the same area, but on the ground floor.

Noticeboards adjoin the offices.

For units of study descriptions, refer to the Faculty of Arts Handbook, or the University web site database at www.usyd.edu.au.

Psychology

Psychology is the study of behaviour. As a study it is approached on a scientific basis, with provision for professional training at the postgraduate level. The research activities of the Department cover almost all of the main branches of the subject.

Extensive information about the subject and the Department is available in the Faculty of Science handbook or on the Departmental web-site: www.psych.usyd.edu.au

A normal three year sequence in Psychology is: PSYC 1001, 1002, 2111, 2112, 2113, 2114, and eight Senior units of study selected from PSYC 3201*, 3202*, 3203, 3204, 3205, 3206, 3208, 3209, 3210, 3211, 3212 and 3214* (Required for entry to Fourth Year). Students may study fewer Senior units if they do not wish to progress beyond Year 3 and provided that qualifying units are met. Mid year entry is possible and involves modification of this sequence.

The units of study available are:

PSYC 1001, 6 credit points
PSYC 1002, 6 credit points
PSYC 2111, 4 credit points
PSYC 2112, 4 credit points
PSYC 2113, 4 credit points
PSYC 2114, 4 credit points
PSYC 3201, 4 credit points
PSYC 3202, 4 credit points
PSYC 3203, 4 credit points
PSYC 3204, 4 credit points
PSYC 3205, 4 credit points
PSYC 3206, 4 credit points
PSYC 3208, 4 credit points
PSYC 3209, 4 credit points
PSYC 3210, 4 credit points
PSYC 3211, 4 credit points
PSYC 3212, 4 credit points
PSYC 3214, 4 credit points

Students who have completed PSYC 3001 and/or 3002 must obtain the permission of the Head of Department of Psychology before enrolling in any of PSYC 3201 to 3214.

Registration and noticeboards

Students in all years must register during the orientation period. Psychology 1001 students register by going to the Carslaw Building during orientation and collecting a personalised computer generated timetable, which will indicate the lecture times and the tutorial group to which they have been allocated. Further information will be posted at the Enrolment Centre and on the Junior Psychology noticeboard on the 4th Floor of the Griffith-Taylor Building.

Information about registration meetings for Intermediate and Senior Psychology students will also be posted at the Enrolment Centre, and on the Departmental noticeboards on the 5th floor of the Griffith-Taylor Building, as well as the Departmental web-site.

Enquiries

The main enquiry office of the Department is Room 416, Griffith-Taylor Building (tel. (02) 9351 2872). Staff members available to discuss particular courses may be contacted directly or through this office.

Honours

In order to be eligible to enter Psychology 4 Honours, it is necessary (except as provided in the by-laws or resolutions) to gain a year average of Pass with at least Credit average in Intermediate and in Senior Psychology units of study. These Psychology units include Psychology 2111, 2112, 2113, 2114, 3201, 3202, and at least six other Senior Psychology unit from Psychology 3203, 3204, 3205, 3206, 3208, 3209, 3210, 3211, 3212 and 3214. Students wishing to graduate with Honours in Psychology are urged to discuss their choice of other subjects with a Faculty adviser as soon as practicable. There is currently a quota on entry to Psychology 4.

Examinations

Undergraduate units of study are examined at the end of each semester and include classwork by way of essays, reports or
practical/laboratory work. At the beginning of each unit of study students are advised of its the contributions of exam and coursework for assessment purposes.

Religious Studies
Religious Studies is a Table A course in the Bachelor of Economics (Social Sciences) degree and a Table B course in the Bachelor of Economics and Bachelor of Commerce degrees.

For units of study descriptions, refer to the Faculty of Arts Handbook, or the University web site database at www.usyd.edu.au.

Social Policy and Administration
Social policy is the study of a range of policies which affect the social and economic welfare of individuals, families and broader social groupings. The policies studied include those formulated at all levels of government, by non-government welfare organisations and by the private sector. Policies studied include: income support, housing, work and employment, health, family and children's services, youth policies, policies for the aged, urban and regional development.

For units of study descriptions, refer to the Handbook, or the University web site database at www.usyd.edu.au.

Sociology
Sociology is the study of human societies. The subject matter of sociology includes human behaviour in various social contexts, social interaction, social institutions, social organisation, social change and development. A major focus of sociological research has been the emergence, characteristics and consequences of industrial societies. The sociology taught at the University of Sydney emphasises both an historical and a comparative approach to the discipline and its subject matter.

The study of sociology is a rewarding and stimulating enterprise, both intellectually and in terms of future career prospects in a variety of professional fields. It is also an important addition to related disciplines such as government, economics, philosophy, education, psychology, anthropology and history, and it usefully complements studies in English, fine arts, languages, and science.

For units of study descriptions in Sociology, refer to the Handbook, or the University web site database at www.usyd.edu.au.

The Department of Social Work and Social Policy which offers courses in Social Policy and Administration and Sociology is in the R.C. Mills Building on the lower floor.

Phone (02) 9351 2650.

Work and Organisational Studies
Industrial Relations, Human Resource Management and Management Studies are important and well-established areas of practice, research and study. The discipline group of Work and Organisational Studies, which was established in 2000 as the successor to the Faculty's Department of Industrial Relations, builds upon a long tradition of teaching and research in these areas. Work and Organisational Studies aims to provide students with a well-rounded understanding of all aspects of the employment relationship, that is, industrial relations, human resource management and related activities. The skills and content derived from these units of study provide useful foundation not only for careers in traditional industrial relations organisations such as unions, employer bodies and government but also in human resource management, research, policy development, consultancy work, industrial law and many aspects of private and public sector management.

The overall program reflects a two-fold approach to the systematic study of industrial relations and human resource management. First, the field embraces what is popularly known as 'industrial relations', namely, an understanding of the institutions and process of job regulation and evolving concepts of basic rights in industry. This involves studying the theory and practice of relations between employers, employees, unions, the state and the future of industrial society. Secondly, fundamentals of professional training are also offered through disciplines such as, industrial sociology, labour law, labour history, labour economics and labour theory, which have contributed successfully towards a deeper understanding of contemporary problems.

Human Resource Management (HRM) is a relatively new field which encompasses a range of activities concerned with the management of people within an organisation. It includes the study of activities such as recruitment, selection, remuneration, appraisal, training and development as well as occupational health and safety.

Work and Organisational Studies offers a work experience program for second and third year students during the mid-year vacation, with placements in unions, employer organisations, government agencies and companies.

Work and Organisational Studies is also coordinating a major in Management. This commences in second year with Foundations of Management (IREL 2001). The prerequisite for this course is Micro Industrial Relations (IREL 1002).

Management is the process of planning, organising, leading and controlling the efforts of organisational members and using resources inside and outside the organisation to achieve specific organisational and social objectives. A range of internal and external factors influence an organisation's ability to achieve its objectives and meet social needs. Drawing on subjects from a number of disciplines in the Faculty, the major in Management allows students to develop a sound understanding of the processes involved in managing the internal processes of organisations and the relationship between organisations and their environment.

The following units of study are not on offer in 2001; for details see Chapter 8.

IREL 2004 Industrial Sociology
IREL 2008 Work Safety
IREL 2012 Discrimination and Equality in Employment
IREL 2013 The Development of Australian Management
IREL 2014 Comparative Industrial Relations
IREL 2020 Human Resource Information Systems

IREL 1001 Macro Industrial Relations 6 credit points
Offered: February. Classes: (2 lectures & 1 tutorial)/wk.
This unit introduces the institutions and processes of Australian industrial relations with an emphasis on laws, institutions and social processes. It combines theoretical and historical understanding of Australian industrial relations with a detailed examination of the current problems and strategies of the key industrial relations players. The topics studied include:

• the regulatory framework of industrial relations;
• policies of federal and state governments;
• the history and policies of unions and employer associations;
• the practices of Australia's arbitral tribunals;
• the development of wage determination;
• emerging patterns of dispute resolution and bargaining.

IREL 1002 Micro Industrial Relations 6 credit points
Offered: July. Classes: (2 lectures & 1 tutorial)/week.
This unit introduces students to the study of workplace relations and human resource management within organisations. It examines the changing nature of Australian workplaces and the workforce and the development of human resource management. The topics studied include:

• the transition from personnel management to strategic human resource management;
• human resource management in the context of organisation structure and strategy;
• workers and union organisation at the workplace;
• gender, ethnicity and equality at work;
• human resource management functions of planning, staffing, rewarding and maintaining workforces.

IREL 2001  Foundations of Management
8 credit points
Offered: February. Prerequisite: IREL 1001 and IREL 1002.
Classes: 2 lectures/week.
Prerequisite:
Offered: July. Prerequisite: IREL 1002.
Classes: 2 lectures & 1 tutorial/week.
NB: Except for Foundations of Management, all other senior units of study in IR and HRM are half semester units worth four credit points. This is a compulsory unit in the Management major.
This unit is designed to provide an overview of the function, role and responsibilities of management in modern organisations. It will address management activities and processes and examine the main trends in management, taking account of factors internal and external to organisations. Topics include planning, leadership, organising and control. Consideration will be given to private, public and non-profit enterprises.

IREL 2002  Economics of Labour Markets
4 credit points
Offered: February. Prerequisite: IREL 1001 and IREL 1002.
Classes: 2 lectures/week.
This unit examines the manner in which labour economists have analysed some of the key issues relating to the employment relationship and industrial relations. Emphasis is placed on applied topics of special relevance to the contemporary Australian labour market.

IREL 2003  Industrial Relations Policy
4 credit points
Offered: July. Prerequisite: IREL 1001 and IREL 1002.
Classes: 2 lectures/week.
This unit will be concerned with a range of policy areas in the public and private sectors. Primary consideration will be given to current Australian debates, although parallels will be drawn with overseas experience. Attention will be given to the formulation and implementation of industrial relations policies, the approach of the parties to particular issues, and the evaluation of the consequences of industrial relations policies.

IREL 2005  Human Resource Management
4 credit points
Offered: February. Prerequisite: IREL 1001 and IREL 1002.
Classes: 2 lectures/week.
This unit provides both a theoretical and practical consideration of specific human resource management functions and processes in contemporary work organisations. It examines core themes in managing human resources in these organisations. Topics will be selected from:
• job analysis and work design;
• recruitment, selection and placement;
• managing performance;
• managing rewards and remuneration;
• equity, ethics and fairness;
• managing across cultures.

IREL 2006  Labour History
4 credit points
Offered: July. Prerequisite: IREL 1001 and IREL 1002.
Classes: 2 lectures/week.
This unit concentrates on developments in Australia prior to 1983. It draws on research and concepts from business, labour and economic history as well as industrial relations. Topics addressed include convict labour; racism; unions and politics.

IREL 2007  Labour Law
4 credit points
Offered: February. Prerequisite: IREL 1001 and IREL 1002.
Classes: 2 lectures/week.
This unit examines the Australian legal framework, the scope of industrial law, the employment relationship, the Federal-State division of legislative power in industrial relations and the industrial arbitration systems; courts, tribunals and awards. Current developments in the law and politics of the systems will be referred to throughout the course.

IREL 2009  Organisational Analysis and Behaviour
4 credit points
Offered: July. Prerequisite: IREL 1002.
Classes: 2 lectures/week.
This unit introduces students to the management of organisational behaviour. The conceptual foundations of this course are based on an in-depth discussion of individuals, groups, and organisational systems. Specific topics include:
• organisational theory
• motivation
• groups
• leadership
• rumour and gossip
• culture
• power and politics
• conflict in organisations
• romance at work
• stress
• organisational change.

IREL 2010  Strategic Management
4 credit points
Offered: July. Prerequisite: IREL 1002.
Classes: 2 lectures/week.
This unit provides an introduction to the strategic management of enterprises. It introduces conceptual problems and applied issues informed by research from a variety of disciplines. Key topics include: origins, nature and current issues in strategic management; the relationship of strategy to internal and external environments; strategy implementation and evaluation.

IREL 2011  Strategic Human Resource Management
4 credit points
Offered: July. Prerequisite: IREL 1001 and IREL 1002.
Classes: 2 lectures/week.
This unit examines the relationship between competitive strategy and human resource management. Topics include: strategic approaches to HRM, the role of the human resources and industrial relations function in organisations; organisational performance and governance; HRM in non-union firms; downsizing.

IREL 2015  Industrial Relations Practice
4 credit points
Offered: July. Prerequisite: IREL 1001 and IREL 1002 and four 4-credit point Industrial Relations units of study.
NB: This unit is taught in the mid-year break.
The unit is intended to go some way towards bridging the gap between theory and professional life. The course will consist of:
• one week of structured work experience with a government agency, trade union, business or employer association in a relevant area of either Industrial Relations or Human Resource Management;
• a three day practical bargaining and advocacy course; and
• a 1500-word essay Uniting a theoretical aspect of Industrial Relations/Human Resource Management with practice and procedure or issues raised in the training.

IREL 2901  Industrial Relations 2A Honours
4 credit points
Offered: February. Prerequisite: Credit in both IREL 1001 and IREL 1002.
Classes: 2 hours/week.
This unit provides an introduction to industrial relations theory, examining the main schools of thought from the late nineteenth century to the early 1970s.

IREL 2902  Industrial Relations 2B Honours
4 credit points
Offered: July. Prerequisite: Credit grades in both IREL 2901 and two Level 2000 units of study in Industrial Relations. Classes: 2 hours/week.
This subject deals with developments in contemporary industrial relations theory, from the mid 1970s to the present day.
IREL 3901  Industrial Relations 3A Honours
8 credit points
Offered: February. Prerequisite: Credit grades in both IREL 2902 and four Level 2000 units of study in Industrial Relations. Classes: 2 hours/week.
Subjects to be advised by the Department of Industrial Relations

IREL 3902  Industrial Relations 3B Honours
8 credit points
Offered: July. Prerequisite: Credit grades in both IREL 3901 and six Level 2000 units of study in Industrial Relations. Classes: 2 hours/week.
This unit provides an introduction to research methods in industrial relations. The processes involved in designing and executing a research project in industrial relations are examined. Coverage is given to both qualitative and quantitative approaches, including surveys, depth interviews, case studies and documentary research.

IREL 4101  Industrial Relations Honours A
12 credit points
Offered: February, July. Prerequisite: IREL 3901 and eight level 2000 units of study in Industrial Relations at credit level or above. Requirements for the Pass degree must be completed before entry to level 4000 Honours units of study. Assessment: Coursework, thesis.
The primary focus is on an original dissertation of approximately 20,000 words to be submitted at the end of Part B. In addition, students must undertake coursework as specified.
Candidates must enrol in EREL 4102, IREL 4103 and IREL 4104 to complete the honours year.

IREL 4102  Industrial Relations Honours B
12 credit points
Offered: February, July.

IREL 4103  Industrial Relations Honours C
12 credit points
Offered: February, July.

IREL 4104  Industrial Relations Honours D
12 credit points
Offered: February, July.

Interdepartmental units of study
Interdepartmental units of study

ECOF1001  Communication and Critical Analysis 1A
6 credit points
Dr M Paton
Offered: July. Classes: 2 hour seminar/week. Assessment: 2 essays, 1 seminar paper, 1 learning journal, 1 summary exercise and class participation.
This course aims to enhance oral and written communication skills and in the process provide a greater understanding of the philosophy underlying academic discourse. Weekly units are oriented around a progressive series of tasks which consider academic texts in context and require learners to understand, analyse and produce spoken and written texts appropriate to the context of academic English. The contextualisation of these tasks is the philosophical aspects of critical analysis. Themes, such as the difference between convention, fact, opinion and preference; deductive and inductive proof; validity and truth; evidence; and the ethics of persuasion, are the basis on which the skills are taught. This course is meant for students from a non-English speaking background.

ECOF 2001  Contemp Economics and Politics of S Asia
8 credit points
Offered: July. Prerequisite: Any 4 first year full semester courses. Classes: 2 lec/wk.
The study of political and economic developments in Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan and Sri Lanka. The course will follow a multi-disciplinary approach to the study of contemporary South Asia, and lecturers from Indian Sub-continent Studies of the School of Asian Studies and the Departments of Economic History, Economics and Government and Public Administration will participate in the teaching of this course. Problems of poverty, unemployment and underemployment, unequal distribution of resources and lack of human development in South Asia will be examined together with the nature of the internally regimented and differentiated socioeconomic systems in these countries; the roles of cultures, religions, languages, political systems, economic management and the military in the contemporary period, will be the main focus. International political and economic relations between these countries and the rest of the world will be analysed with a special emphasis on Australia’s relationship with South Asia.
CHAPTER 5

Important Faculty information

The Faculty of Economics and Business was established in 1920 to provide for the study of economics and closely related studies. It has grown to become an internationally recognised centre of knowledge, research and teaching. In 2000, there were 134 full time academic staff and 43 general staff. The Faculty is located in the Merewether Building on the corner of City Road and Butlin Avenue and in the adjoining Institute Building on City Road.

Student advice

Student Services in the Faculty of Economics and Business are located in the Faculty Office, level 2 foyer, Merewether Building. The Faculty Office is open during teaching weeks as follows:

Monday—Thursday, 11 am - 6 pm; Friday, 9 am - 1 pm.
During peak periods (eg, the first few weeks of each semester or October pre-enrolment) the Faculty Office is open extended hours: Monday-Friday, 9 am - 6 pm.

Student inquiries are usually answered at the front counter. If you require detailed or complex advice, you should make an appointment for a 20 minute interview with one of the Faculty’s Undergraduate Advisers. The Faculty Office handles all enrolment, computer account and graduation inquiries. For information on timetables, reading materials, study notes, appointments with lecturers etc you should contact the relevant teaching Discipline.

Computer accounts

All students in the Faculty of Economics and Business are entitled to a computer account which includes an email account, access to word processing packages, electronic library searching etc. Many lecturers use computer-based teaching programs (eg, in accounting, econometrics) and some classes are conducted in computer labs. The computer accounts are issued free of charge. Laser printing and access to the internet are also available on a user-pays basis. (The computer account policy is reviewed annually and some changes may occur after the time of printing the handbook.)

All students are provided with information on facilities available when they enrol.

The computer facilities in the Faculty of Economics and Business are extensive. In addition to the 100 seat Compaq Computer Laboratory and the Advanced Computer lab in the Institute Building, there is the Wolstenholme Study Centre and the postgraduate computer lab in the Merewether Building.

Student responsibilities

Each student is responsible to ensure that their enrolment is correct and that their progress in the degree is in accordance with the regulations. While the Faculty makes every effort to provide advice and information, the onus is always on the student to ensure that deadlines and degree requirements are met. There are many University procedures to accommodate students who experience personal problems, illness and misadventure (such as special consideration, student counselling etc). It is important to familiarise yourself with the regulations for the degree you have chosen and with the services available at the University. If you are uncertain about anything, always seek the advice of the staff.

Here are some common problems which students experience - and what to do:

'I have chosen a subject which doesn’t suit the and I wish to discontinue'
As a courtesy you should inform your lecturer, but you must officially discontinue the subject by completing a form at the Faculty Office (otherwise you will remain liable for the HECS or the tuition fee and a result of ‘fail’ will appear on your transcript).

'I have been attending a class, but my lecturer says that my name is not on the class list'
This means that you may not have properly enrolled in the correct unit of study. You should immediately check your enrolment with the Faculty Office. If you make a change to your enrolment, you will receive a written confirmation of this change from the University within two weeks. You should always carefully check this confirmation.

'My tutorial time clashes with my new part-time job'
Computerised timetables are produced for most students. If you can document your working hours, the timetabling staff will make every effort to accommodate your work commitments. There are set times and centralised locations when changes to timetable are possible.

'Because of personal problems, I am failing my assignments and tests'
You should first speak to your lecturer or tutor (you will be advised of their consultation times at the beginning of each semester). If you decide to drop the subject, certain deadlines apply (see ‘Discontinuation’ below). You may need to make an appointment with Student Counselling. If you are experiencing problems which may effect your performance at University, you should seek professional advice, since documentation will be required if you wish to apply for special consideration.

Discontinuation

The key dates at the beginning of this handbook set out the deadlines by which variations of enrolment should be made. The key dates are based on University policies outlined in the Calendar, Vol I. These policies are summarised below:

First semester unit of study
Withdraw: by 30 March
Discontinue with permission: end of 7th week of Semester 1
Discontinue - Fail: last day of lectures Semester 1
Second semester unit of study
Withdraw: by 30 August
Discontinue with permission: end of 7th week of Semester 2
Discontinue - Fail: last day of lectures Semester 2

If you withdraw from a unit of study, the unit of study does not appear on your academic transcript and you are not charged the Higher Education Contribution. If you discontinue with permission or discontinue - fail a unit of study, it will appear on your transcript with the date when you made the change. The Associate Dean (Undergraduate Studies) may consider that a unit of study may be discontinued with permission after the relevant date if there is evidence of serious illness or misadventure. Withdrawal from a unit of study or discontinuation with permission are not considered for the purposes of exclusion.

Examinations and further tests

Extract from the resolutions of the Faculty

1. No supplementary examinations are awarded to candidates for the BEc, B(Ec)(SocSc), BCom and BCom(Liberal Studies).
2. Further tests may be awarded where the candidate has been prevented by sufficient and duly certified illness or misadventure from completing a unit of study.
3. Further tests may also be awarded in a unit of study where the examiner requires further evidence to reach a final assessment of a candidate who has failed a unit of study and whose performance is borderline. Where possible and practicable, all further tests will be administered before the Board of Examiners’ Meeting.
4. All incomplete results at the time of submission of marks to the Board of Examiners are recorded by the symbol
‘INC (incomplete). Any incomplete result not finalised by the commencement of first semester in the next academic year will be altered to ‘Fail’, on the approval of the Associate Dean (Undergraduate Studies) in consultation with the Head of Discipline.

5. The Head of Discipline is responsible for the timetabling and conduct of further tests, which may take such form as the Head of Discipline directs. Students in a unit of study must be given notice of the proposed date for conducting further tests no later than the date of publication of the final University examinations timetable.

6. Individual students granted a further test should, wherever possible, be given at least three days’ prior notice. A candidate who is absent from a further test without sufficient reason may be deemed to have failed the test.

7. In respect to the notification of students referred to in sections 5 and 6, students will be deemed to have been notified as a result of the posting of information by the due date on the Faculty of Economics and Business noticeboards.

8. It is the responsibility of the student to provide evidence of illness or misadventure to the appropriate Head of Discipline as soon as possible and practicable after the date of the final examination in a unit of study. Where such evidence is not presented in time for the student to be offered a further test on the advertised date, it will only be considered by the Head of Discipline where there is sufficient reason why it has not been presented by that date.

9. The highest grade of award at a further test is Pass, except where the further test is granted on the grounds of illness or misadventure.

10. Final marks in the range 0-49 will be awarded a ‘F’ fail result. Grades of ‘PCON - Pass (Concessional)’ are not awarded or recognised by the Faculty of Economics and Business and are treated as failures for the purposes of copelation and do not satisfy the degree requirements.

These regulations apply to the BEc, the BEc(SocSc), BCom and the BCom(Liberal Studies).

Aegrotat results

The Head of a Discipline may recommend to the Head of School that a candidate be awarded the result of Pass (aegrotat) in a unit of study or Honours (aegrotat) in a Final Honours year in cases where:

(a) because of serious illness or misadventure the candidate has been unable to sit for the examination; and
(b) it is unlikely, for the same reasons, that the candidate would be able to attempt a further test; and
(c) the Head of Discipline is satisfied beyond doubt on the basis of the work performed throughout the semester, that the candidate been able to sit for the examination the candidate would have achieved at least the result recommended.

The only aegrotat result available on first, second and third year units of study, whether pass or honours, is pass (aegrotat).

Restriction upon re-enrolment

There are certain circumstances in which you could be asked to show good cause why you should be permitted to repeat any previously attempted study. Liability for exclusion from re-enrolment is determined by academic attainment during the immediate past one or two academic years. The resolutions of the Senate restricting re-enrolment may be found in the University’s Statutes and Regulations, Vol I indexed under ‘Re-enrolment’. You should acquaint yourself with the studies in which you are enrolled. If you are in any doubt about your liability for exclusion following academic failure or discontinuation of units of study, you should ask advice of the Exclusions Officer in the Records Services section.

It is not possible to define in advance all the reasons that constitute ‘good cause’ but serious ill health, or misadventure properly attested, will be considered. In addition your general record, for example in other units of study, would be taken into account. In particular, if you were transferring from another faculty your record in your previous faculty would be considered. Not usually acceptable as good cause are such matters as demands of employers, pressure of employment, time devoted to non-university activities and so on, except as they may be relevant to any serious ill health or misadventure.

The resolutions of the Senate concerning ‘Restriction upon Re-enrolment of certain students who fail in Annual Examinations’ are as follows:

1. The Senate authorises any Faculty, College Board or Board of Studies to require a student who comes within the provisions of sections 8 to 24 below to show good cause why he or she should be allowed to re-enrol or to repeat a year of candidature or a unit of study in that Faculty, College or Board of Studies.

2. Subject to section 5, the Faculty, College Board or Board of Studies may exclude a student who fails to show good cause from -

(a) the degree course or year of candidature concerned, and/or
(b) the unit or units of study concerned in that Faculty, College or Board of Studies in which that unit or those units of study may be taken.

3. Subject to section 5 -

(a) Any student who has been excluded from a year of candidature or a unit of units of study by a Faculty, College Board or Board of Studies in accordance with section 2 and who wishes to re-enrol in that year of candidature or that unit or those units of study, may apply for such re-enrolment after at least two academic years and that Faculty, College Board or Board of Studies may permit him or her to re-enrol in the year or the unit or units of study from which he or she was previously excluded.

(b) Any student who has been excluded from a unit or units of study by one Faculty, College Board or Board of Studies in accordance with section 2 and who wishes to enrol in that unit or units of study in another Faculty, College or another Board of Studies, may apply for such enrolment after at least two academic years and that other Faculty, College Board or Board of Studies may permit him or her to enrol in the unit or units of study from which he or she was previously excluded.

4. Except with the express approval of the Faculty, College Board or Board of Studies concerned a student excluded from a year or unit of study who is readmitted shall not be given credit for any work completed in another Faculty, College or Board of Studies or another university during the period of exclusion.

5. Before exercising its powers under section 2 or 3 in relation to an individual unit of study, a Faculty, College Board or Board of Studies shall consult the Head of the Discipline or School responsible for the unit of study.

6. The Senate authorises the Faculty, College Board or Board of Studies as a whole or a Faculty or College Committee or Board of Studies Committee representing the main teaching Disciplines in each Faculty, College or Board of Studies, to carry out all duties arising out of sections 1, 2, 3, 4 and 5.

7. [Section 7 relates to appeals to the Senate. The full text appears in the University of Sydney Calendar, Vol I Students in all Faculties, Colleges and Boards of Studies]

8. The Senate authorises any Faculty, College Board or Board of Studies to require a student to show good cause why he or she should be allowed to repeat in that Faculty, College or Board of Studies (a) a year of candidature in which he or she has failed or discontinued more than once, or (b) any unit of study in which he or she has failed or discontinued more than once, whether that unit of study was failed or discontinued when he or she was enrolled for a degree supervised by that Faculty, College Board or Board of Studies, or by another Faculty, College Board or Board of Studies.

9. The Senate authorises the several Faculties, Colleges or Boards of Studies to require a student who, because of failure or discontinuation has been excluded from a
Faculty, College or unit of study, either in the University of Sydney or in another tertiary institution, but who has subsequently been admitted or readmitted to the University of Sydney, to show good cause why he or she should be allowed to repeat either (a) the first year of attendance in which after such admission or readmission he or she fails or discontinues, or (b) any unit of study in which in the first year after admission or readmission he or she fails or discontinues.

**Faculty of Economics and Business**

14. (i) The Senate authorises the Faculty of Economics and Business to require a student to show cause why the student should be allowed to re-enrol for the degree of Bachelor of Economics, Bachelor of Economics (Social Sciences), Bachelor of Commerce (Liberal Studies) or Bachelor of Commerce, if (i) the student fails to gain credit for at least half of his or her enrolment in any year, or (ii) in any two successive years of enrolment, the student fails to gain credit for the equivalent of at least six semester units of study.

(ii) In cases where the Faculty permits the re-enrolment of a student whose progress has been deemed unsatisfactory, the Faculty may place restrictions on the number and type of units of study in which the student may re-enrol in that year and may require the completion of specified units of study in a specified time, and if the student does not comply with these conditions the student may again be called upon to show good cause why he or she should be allowed to re-enrol in the Faculty of Economics and Business.

**Honours degrees**

In some of the more specialised careers open to the Faculty's graduates, such as economic forecasting and analysis, employers may be looking for a level of specialisation that is not provided by a three-year pass degree. Similarly, if you want to qualify for specialised postgraduate study, a pass degree is not normally sufficient. For all graduates, a good four-year honours degree considerably enhances the quality of your qualification and singles you out to an employer as having exceptional ability.

Honours degrees are available in most of the subjects in Table A of the respective degrees. An honours degree may involve extra work at second and third year level in your chosen subject and, in all cases, an additional year of study spent entirely on studying that subject. Honours is not available in any Table B subject.

It is also possible to complete either double honours or joint honours. Double honours involves completing all the honours work in two subjects, and thus normally takes an extra year. In joint honours the two subjects are more closely related to each other and a special program of study is designed for the student so that it can be completed concurrently. For example, each year a number of students take joint honours in economics and econometrics.

Normally you will not make any decisions about doing honours work until the end of your first year of study in the Faculty. In order to enter and remain in the honours stream in a subject, you normally have to perform at credit level or better in that subject. A bare pass level of performance in a first year subject will not be enough to secure entry into honours courses.

**Transfers between the three degrees**

The restriction on the number of students studying accounting means that students not in the accounting quota cannot transfer into the BCom or the BCom (Liberal Studies). Apart from this restriction, you are free to transfer from one degree to another during your enrolment in the Faculty, provided you have the entry requirement. However, students who want to enter the accounting quota after being admitted to the other quota must apply through UAC in time for enrolment at the commencement of the next academic year.

In other words, students may transfer to another degree within the Faculty which has the same or lower entry requirement, but may not transfer to a degree with a higher entry. Transfers between the degrees can be made when you enrol for the next academic year. You may not change from one degree to another in the middle of the year. If you want further advice on the matter you should consult the advisers in the Faculty Office.

**Full-time and part-time study**

Most discussion so far has assumed that you will be a full-time student and will want to graduate after three years' study. Yet many students cannot attend full-time and are happy to complete their degree in a longer time. Although the University enrolment makes a distinction between full-time and part-time students (as does the Commonwealth Government for the sake of student allowances) the Faculty of Economics and Business has the same rules to determine what is 'satisfactory progress' for all students. You must enrol in at least the equivalent of four full semester subjects per year, except when you have less than four left to complete the degree, and you must pass the equivalent of six full semester courses over any two-year period. The intention is that students should not be able to complete just one subject a year and stretch the degree out inordinately. It is possible to suspend your candidature for one year and, with permission, more; but, even here, the total length of your degree must not go beyond ten calendar years. Satisfactory progress means also that you may not keep attempting and failing any subject. If you do not make satisfactory progress you will be asked to explain (show cause) and you may be excluded from individual subjects or from the whole degree. The implication of this at the beginning of your studies is that you should regard your choice of degree as a serious one and that you should apply yourself to your studies. If you don't, then you are taking a place at the University for which there are many aspirants.

**Credit for work previously completed**

Graduates of other faculties and universities are not normally accepted into the undergraduate program. (There are several postgraduate courses available to such students.) Undergraduates in other faculties or universities or similar institutions may apply for transfer to the BEc, BEc(SocSc), BCom or BCom(Liberal Studies) and be credited with units of study deemed equivalent to units available in the Faculty (ie, if these units have not yet been counted towards another undergraduate degree). It should be noted, however, that no more than the equivalent of 10 units of study could be counted from such previous study.
Graduate Diplomas may be regarded as bridging programs for candidates with undergraduate degrees in fields different from, or weak in, those offered by the Faculty’s disciplines. On a full-time basis, they are normally one-year programs involving coursework.

Coursework Master’s degrees

The Master of Commerce and International Business programs offer specialised training in one or two of the following areas - accounting, banking, economics, finance, international business, information systems, industrial relations and human resource management, marketing, government and business, logistics management, transport management, taxation and management science. All Commerce or International Business degrees involve coursework only and are taught primarily in the evening. Graduates with any degree can apply, although those who have a commerce or economics background may apply for exemptions for up to four units of study. The Master of Commerce or Master of International Business can be completed within two or three semesters, and is available on a full-time or a part-time basis.

Transport and Logistics offers the Master of Transport Studies and the Master of Logistics Management. They may also be taken as a combined Masters degree with the Master of Commerce or the Master of International Business.

Economics and Econometrics offer a joint MEc program available at the pass or honours level with core courses in microeconomics, macroeconomics, econometrics and research methods. On a full-time basis, this degree usually takes one academic year for the coursework and 3-6 months for the thesis or essay.

Political Economy offers an MEc(Social Sciences) which provides an intensive study in political economy with opportunities for study in related disciplines. This coursework and thesis or essay degree will take normally at least one calendar year on a full-time basis.

The Master of Industrial Relations & Human Resource Management degree consists of coursework, or coursework and thesis, or thesis alone (for candidates with first or second class honours degrees). The coursework component involves advanced courses in industrial relations and itself takes up to one academic year on a full-time basis.

Government offers the Master of International Studies for students interested in the national and international politics of the Asia-Pacific region. It is a coursework degree and usually entails one calendar year on a full-time basis. The Master of Public Policy will be of great interest to those hoping to be employed in the public sector, while the Master of Public Affairs focuses on the interface between the private and public sectors. They are both coursework degrees requiring two semesters on the equivalent of a full-time basis.

Master of Philosophy in Economics

This is a research degree (by thesis) which is offered in the following subject areas:

Accounting  
Econometrics  
Economic History  
Economics  
Finance  
Government  
Industrial Relations and Human Resource Management  
Logistics Management  
Marketing  
Political Economy  
Transport Management

Candidates are required to carry out an original investigation and to write a thesis of up to 50,000 words embodying the results of this investigation. The candidate’s research is supervised by a member of staff.

Certificates

Graduate Certificates may be regarded as a means of establishing a candidate’s suitability for graduate studies for candidates who do not meet the entry requirements for higher degrees. On a full-time basis they are normally one semester programs involving coursework. To progress to a Graduate Diploma, a credit average is required in the certificate in some instances.
Doctor of Philosophy
This is a higher research training degree which requires the preparation of a thesis under the close supervision of a member of staff. Some departments have specified prerequisites which may mean completing one or more preliminary courses. The minimum period of candidature is two years (for masters graduates) and the maximum is five years on a full-time basis. The normal length of submitted theses is in the range of 60,000 to 80,000 words.

Doctor of Science in Economics
The Doctor of Science in Economics is a higher doctorate, and is awarded to scholars who have made an outstanding contribution to research in their discipline. The work on which the award of the degree is based should have been published and should be recognised internationally as a distinguished contribution to knowledge.

Admission requirements
For entry into the PhD and MPhil programs candidates should have a bachelor's degree with first or upper second class honours or a good coursework master's degree with a major in the proposed area of their PhD.
To be admitted to the coursework master's degrees an applicant must have a good first degree (usually interpreted as an average of credit level passes) and in some cases three years' prior study in the area of the master's degree. Any shortcomings may be made up through preliminary work specified by the department concerned.
A pass degree at a sufficient standard in any field is generally sufficient for entry to the graduate diplomas. Entry to graduate certificates is open to candidates with no tertiary qualifications.

Research facilities
The Faculty has excellent research facilities to assist postgraduate candidates. The Fisher library contains significant collections relevant to the work of the Faculty. There are 400 computer terminals connected to the campus broadband network. In addition to these, postgraduate students may obtain 24 hour access to the Postgraduate Computer Laboratory in the Merewether Building. They may also access the Advanced Computer Laboratory located in the Institute Building. Email accounts and world wide web access are also available. Available for research are a number of computer packages, securities price files, company annual reports, historical records, legal services and stock exchange services. The Faculty provides a modern postgraduate resource room with 36 lock-up carrels for the use of research students.

Student profile
In 2000 there were over 1400 postgraduate students enrolled in the Faculty of Economics and Business. Many of these were studying part-time by coursework. Over 130 students are currently undertaking a PhD in the Faculty.
International students are welcome within the Faculty (which has the largest international enrolment in the University). In 2000 there were over 200 international students enrolled in postgraduate degrees in the Faculty. In some departments where familiarity with Australian conditions is assumed, preliminary work may be specified before candidates proceed to formal enrolment.
Graduate study is encouraged by all disciplines in the Faculty, and inquiries may be directed to them or to the Associate Dean (Graduate Coursework Programs), Professor Ann Brewer or to the Postgraduate Adviser on (02) 9351 7735.
Inquiries regarding the Graduate Commerce or International Business program may be directed to the Graduate Commerce Coordinator on (02) 9351 6628.
Inquiries regarding the PhD and MPhil programs may be directed to the Associate Dean (Higher Degree by Research), Associate Professor Russell Ross or the Research Coordinator on (02) 9351 6656.
Prizes and scholarships

This handbook contains simplified details of some of the prizes and scholarships offered by the University.

The scholarships and prizes may be scheduled as follows:

1. Prizes awarded automatically on results: Successful students are notified of these by the Records Services section. Please note that prizes will only be awarded provided that the student's work is of sufficient merit.

2. Bursaries: Bursaries are awarded on the combined grounds of financial need and academic merit and application may be made at any time to the Financial Assistance Office, open Monday to Thursday from 9.30 am to 2.30 pm on level 7 of the Education Building, Manning Road, phone (02) 9351 2416.

3. Grants-in-aid: These are offered by application (closing date: 31 May each year) to postgraduate students seeking assistance with travel or maintenance.

4. Postgraduate research scholarships tenable at the University of Sydney: Prospective postgraduate students should consult the Scholarships Office in August/September each year about Australian Postgraduate Awards with stipend (closing date: mid October).

Postgraduate travelling scholarships

Each year the University offers five or six travelling scholarships with a closing date in November. Generally, applicants need to have a first-class honours degree approaching medal standard to be successful. Applications for the major travelling scholarships offered by external bodies generally close in August or September.

Listed below are scholarships/prizes awarded in the Faculty of Economics and Business.

In most cases, prizes are administered by the relevant discipline.

CHAPTER 8
Units of study not offered in 2001

Accounting and Business Law

CLAW 2005  Trade Practices and Consumer Law
8 credit points
Prerequisite: CLAW 1001.
This unit is primarily concerned with the provisions in the Trade Practices Act 1974 (Cwlth) dealing with restrictive trade prac­tices, unconscionable conduct, consumer protection and liabil­ity for defective goods. Topics to be studied include: anti­competitive agreements, misuse of market power, exclusive dealing, resale price maintenance, mergers and acquisitions, misleading or deceptive conduct, unfair practices, product safety and product information, conditions and warranties in con­sumer transactions, liability of manufacturers and importers and unconscionable conduct. Comparable state legislation is also studied.

Econometrics and Business Statistics

ECMT 2710  Management of Information Systems
8 credit points
Prerequisite: ACCT1001 and ACCT1002, ECMT 1010 and ECMT 1020, ECON 1001 and ECON 1002.
The purpose of the unit is to introduce students to the growing field of information systems, their role in modern management and competitive business, and how to use them efficiently. Synopsis: Database systems using dbase IV: introduction, cre­ating and updating database, using entry forms, searching and querying files, reporting, commands. Information systems: com­puters and communications technology, introduction to software concepts, data organisation and database concepts, computer applications in business (accounting, logistics, etc.), use of com­puters for decision making, decision support systems, structure of data processing applications, expert systems, the process of information systems development, the use of information tech­nology to improve the competitiveness of the business.
Case studies: Students will be asked to prepare case studies, some of which will be discussed in class. Possible case studies: the use of personal computers in business, the effect of telecommu­nication on the organisation and its links with other organisa­tions, the effect of a possible failure of the information system and implications for the development process.

ECMT 3210  Statistical Modelling
8 credit points
Prerequisite: ECMT 2010.
This course provides an accessible foundation in the principles of probability and mathematical statistics that underlie the statistical techniques employed in the fields of econometrics and management science. These principles will be applied to vari­ous modelling situations and decision making problems in busi­ness and economics.

ECMT 3220  Computational Statistics
8 credit points
Prerequisite: ECMT 2010.
The dramatic increase in computing power over the last two de­cades has profoundly affected the practice of econometrics and management science. This computing power can be harnessed to allow the estimation of models that more fully exploit the information in modem databases. This unit aims to provide an introduction to such modem computer-intensive procedures. It will explore a variety of quantitative models and promote the programming skills required for their implementation and use. Topics covered may include: nonparametric estimation tech­niques, computer modelling of stochastic processes, Monte Car­lo simulation, Bayesian computational procedures, data mining procedures and optimization methods.

ECMT 3230  Decision Making Under Uncertainty
8 credit points
Prerequisite: ECMT 2010 or ECMT 2720.
The principles of rational choice under uncertainty are evaluat­ed. Topics studied may include: the foundations of expected utility theory, the analysis of the value of perfect and sampling in­formation, and the principles of risk measurement, diversifica­tion and management as developed in modem finance theory.

ECMT 3240  Special Topic
8 credit points
Prerequisite: ECMT 2010 or ECMT 2720.
A specialised topic in econometrics, operations research or sta­tistics. The topic will vary from year to year. Possible topics include: multivariate analysis and Bayesian econometrics.

ECMT 3260  Sample Design and Analysis
8 credit points
Prerequisite: ECMT 2010.
The twin problems of cost and efficiency in sampling lead to the development of different methods of sampling (stratified, clus­ter, multistage, replicated samples, probability proportional to size) and to different estimators (eg, ratio). Non-response in a survey may lead to biased estimation, and procedures must be developed to overcome this potential bias. The analysis of sur­vey data leads to a consideration of the estimation of the sam­pling variances from complex samples. The use of survey data in regression analysis and Chi-square tests raises several prob­lems that are addressed. Special topics may include: panels, sam­pling rare populations, optimal experimental design and phone interviewing.

Economic History

ECHS 2301  Making the Modern Australian Economy
8 credit points
Prerequisite: Any four first year units of study.
This unit looks at the changing socio-economic fabric of Aus­tralian capitalism in the period from the late 1880s to the present seeking explanations of contemporary Australia in a long term context. It addresses Australia's changing relationships in the in­ternational economy, analyses economic fluctuations, major trends and sectoral changes, the pattern of urbanisation, demo­graphic change, composition of the workforce and standards of living. Economic and social policies are evaluated. Current is­sues are raised and considered.

ECHS 2307  France Since the Revolution
8 credit points
Prerequisite: Any four first year units of study.
After briefly examining the economic and social aspects of the French Revolution and the Napoleonic regime, the unit will look at nineteenth century developments such as the changing nature of agriculture, industrialisation and political upheaval. Then twentieth century developments will be studied. Themes treated include traditional and revisionist interpretations of French economic growth, the effects of government interven­tion in the economy (including the policies of the current govern­ment), the end of the peasantry, regionalism and the relation­ship between Paris and the provinces, and the repercussions of economic change in French society and culture. The unit will not be technical in its presentation of economics and no knowl­edge of economic theory is presumed.
ECHS 2308 East Europe: Nationalism to Transition 8 credit points
Prerequisite: Any four first year units of study.
The contradictory influences of the past continue to hamper development in Eastern Europe. This course looks at this problematic legacy. The impact of Romanov, Habsburg, and the Ottoman rule on social and economic structures, the rise of Eastern European nationalisms, and programs of state-sponsored economics development will form the first portion of the course. The first World War, the establishment of the Soviet Union, development in the successor states, the rise of Nazi Germany, and the Second World War will make up the second. The third major topic area will be the developments in the Soviet Union after 1945, the establishment of the socialist regimes, and the operation of the centrally planned economies generally. The final topic will analyse the weaknesses in the practices of central planning, alternative explanations for the slowing of growth, the origins of the collapse of the socialist regimes, the transition to market relations, and the dilemmas confronting contemporary Eastern European economics.

ECHS 2309 Germany: Rise, Fall and Rise 8 credit points
Prerequisite: Any four first year units of study.
The eighteenth century tradition of state intervention in the economy, the impact of the French Revolution and Napoleonic wars, the role of central bureaucracies in development to 1850, the economic background to the 1848 revolutions, accelerated development during the liberal period 185073, the Great Depression 187396, imperialism, the First World War, economic problems of the Weimar Republic, the rise of fascism, the structure and development of the Nazi economic system, and comparison of post-war development in market and socialist economies in central Europe.

ECHS 2310 Island Pacific History Since the Mid-1800s 8 credit points
Prerequisite: Any four first year units of study.
This unit examines the history of the island Pacific (Polynesia, Melanesia and Micronesia) since the middle of the nineteenth century, concentrating on the impact of foreign takeover and the economic, social and political development of the islands. Particular attention is given to the French territories of the South Pacific (French Polynesia, New Caledonia and Wallis and Futuna). The role of missionaries, traders, colonists and the military will be studied, as well as the role of the Pacific colonies in the context of overseas empires. The varieties of decolonisation and integration of the islands will then be discussed. Attention will also focus on present-day issues and controversies.

ECHS 2311 Early Australian Economic History 8 credit points
Prerequisite: Any four first year units of study.
This unit examines the growth of the Australian economy from 1788 to 1890. It considers first the shift from penal settlement to capitalism; capital accumulation, immigration, rural development and economic fluctuations. Then the period 185188 is examined: gold, the long boom, railways, pastoralism, urbanism and trade unionism.

ECHS 2312 Topics in Modern European Social History 8 credit points
Prerequisite: Any four first year units of study.
This seminar unit will examine selected topics in the social history of modern Europe. The exact topics will vary but may include such subjects as: the demographic revolution in Europe, the standard of living debate and the industrial revolution, the link between economic and political power in Europe, the evolution of different social groups, the notion of class in European history, the role of women in modern Europe and the emergence of new social movements.

ECHS 2313 The History of Modern European Expansion 8 credit points
Prerequisite: Any four first year units of study..
This seminar unit will examine European overseas expansion in the nineteenth and twentieth century. It will look at the creation of formal and informal empires, the development of the possessins, the ideologies behind expansion (including economic, political, social and cultural justifications for conquest) and decolonisation. Emphasis will be placed on critical analysis of theories of expansion and such historiographical questions as the debate on the economic imperative behind European expansion.

ECHS 2314 Economic and Social History of Minority Groups 8 credit points
Prerequisite: Any four first year units of study.
This comparative unit will examine the economic and social position of several minority groups in modern Australian and European history. Specifically, it will use case studies racial and ethnic groups (Aborigines in Australia, ethnic and regional minorities in Europe), migrants (both long-term migrants and guest workers), and a sexual minority (homosexuals). In interpreting the historical emergence of minority groups and their subcultures, some attention will be given to concepts of race, ethnicity, and marginality; the problems of discrimination, tolerance and integration will also be covered.

ECHS 2317 Memphis to Megalopolis: The History of Urbanisation 8 credit points
Prerequisite: Any four first year units of study.
Approaches to urban history. Origins of cities evidence and theories. Patterns of urban development in Europe, Asia and the Americas. Cities as seen by social commentators, writers and artists. Cities as havens for minorities. Cities as human environment the role of architects and town planners.

ECHS 2318 Historical Development of the Chinese Economy 8 credit points
Prerequisite: Any four first year units of study.
Introduction to the study of China. The traditional economy before 1840. The period 18401949: the roles of western enterprise and indigenous entrepreneurs in early industrialisation. The economic consequences of political and monetary instability the Taiping rebellion, warlordism the 1920s and 1930s, Japanese invasion, inflation 193749. The establishment of the Peoples Republic in 1949 and the growth of the economy to the early 1990s. The Chinese economy in the general context of the Third World.

ECHS 2319 Economic History of the Mediterranean Region 8 credit points
Prerequisite: Any four first year units of study.

ECHS 2322 Comparative Industrialisation of the Four Tigers 8 credit points
Prerequisite: Any four first year units of study.

ECHS 2323 Issues in Modern Japanese Economic History 8 credit points
Prerequisite: Any four first year units of study.

ECHS 2324 The Asian Firm 8 credit points
Prerequisite: ECHS 2302 or ECHS 2305, otherwise with permission.
Who will win and who will lose? Globalisation is having a dramatic impact on international business, and corporate governance therefore has become one of the main issues facing those who wish to succeed in the new international economy. Many
analysts believe that Asian firms are the winners, and that they are successful because they differ from Western firms. Is this true, and if it is, why? A useful answer requires us to look at both the internal dynamics of Asian firms, and the external contexts in which Asian firms have found themselves. This unit seeks to examine the internal structures and operations of Asian firms, and to relate them to their specific historical and cultural situations to ask not only how Asian firms differ from western firms, but how they differ from each other. The unit will examine the origins and development of the Japanese keiretsu, the Korean chaebol, the Confucian firm in Mainland China and on Taiwan, the bamboo networks of overseas China, and the varying forms of Southeast Asian firms in Thailand, Malaysia, Indonesia and the Philippines.

ECHS 3001 Managing International Business in Asia
8 credit points
Prerequisite: (ECHS 2305 and either ECHS 2306 or ECHS 2324) or (ECHS 2302 and ECHS 2324) or IREL 2001.
Asian markets started to become shining stars for international business in the 1970s. Has the Asian currency crisis dimmed their glow? What are the critical issues facing managers who want to take their firms into these markets? This unit addresses these questions.

The unit begins with a brief overview of East and Southeast Asian economies. It then establishes a framework for analysing the management of international business. In this module, the focus is on the role of firm competencies, the strategic planning process and the choice and management of entry modes including exports, one-off technology transfer and strategic alliances, joint ventures and wholly owned subsidiaries. The unit then applies this framework, analysing the economic, political, legal, social and cultural environment facing international business in Asian economics. This section of the unit will be taught in three modules, each of which will focus on a different Asian economy. These normally will be China, Malaysia and Singapore although other economies may be included depending on staff availability. Throughout the unit there will be a strong emphasis on case-studies, using Australian firms where possible.

Government and International Relations

GOVT 1207 Global Politics and the Environment
6 credit points
Global environmental problems are often regarded as part of a new agenda in international relations, potentially requiring a re-evaluation of traditional notions of international politics such as national sovereignty and security. This unit will examine the adequacy of more traditional notions of international politics in the light of the potential challenges posed by global environmental problems. The aims of the unit are to introduce students to the basic concepts employed in the study of international politics, the political nature of global environmental problems and the connection between these problems and processes of globalisation and modernisation. The unit covers issues such as the nature of the international politics, the influence of non-state actors (eg, environmental movements, international environment agencies), the link between scientific knowledge and political action, international equity and environmental problems (the North/South debate), etc.

GOVT 1403 Developments in World Politics
6 credit points
This unit compares the main varieties of political organisation in the contemporary world with the aim of understanding their evolution and impact on social and economic development. Drawing on the developmental experience of Western Europe, Asia, and Latin America, the unit will try to shed light on the following kinds of questions: Why do we live in nation-states and how did they become the dominant form of political organisation? Why did some countries end up with authoritarian regimes while others evolved as democracies? What difference does democracy make for contemporary social and economic development? Why have some states succeeded in developing their economies, whilst others appear trapped in conditions of poverty?

GOVT 1405 Comparative Perspectives on Australian Politics
6 credit points
This unit analyses Australian politics against the background of general writings on comparative democratic politics, offering both general comparisons with the other seventeen advanced industrial states which have been liberal democracies continuously for the last fifty years, as well as specific bilateral comparison. The unit examines the central institutions of liberal democracies: parliaments, parties, the electoral system, the mass media and how these interact with the pursuit of major conflicts and the conduct of policy making.

GOVT 1406 Change in Modern World Politics
6 credit points.
The last two decades of the twentieth century have seen a wave of democratisation sweep the world. In Latin America, Southern and Eastern Europe, East Asia and Southern Africa, new regimes have replaced authoritarian governments and sought to build democratic systems. But such changes of regime have not been a feature only of this period; regime change has been common throughout history. This unit will focus upon the politics of regime change. It will analyse the ways in which changes of regime occur, including coup detat, revolution, and the more gradual process of evolution. It will study the types of actors involved, and the social and economic forces which assist (or hinder) this process. It will also look at the conditions facilitating the consolidation of new regimes. Examples will be taken from various parts of the world to provide a comparative perspective.

GOVT 1410 East Asian Comparative Politics and Economic Change
6 credit points
This unit analyses political processes and institutions in major countries in the East Asian region that apparently share rapid economic development. Are there identifiable political models that underpin rapid economic growth and what have been the political consequences of this economic change? While emphasising key conceptual issues in comparative politics, the unit will expose basic social, economic and political characteristics of countries in the region. Similarities and dissimilarities will be drawn between Japan, the first wave of new industrialising countries (NICs), particularly South Korea and Taiwan, and some of the rapidly changing countries of Southeast Asia.

GOVT 1609 Ethnicity, Nationalism and Citizenship
6 credit points
Decay of Empires like the Ottoman and Soviet unleashes nationalist forces that seem to involve an infinite regress: fragmentation into the smallest ethnic units. What is duty-worthy in the nation? Ties of blood and soil, like those of family, clan and tribe, characterise primordialism rather than ethical behaviour as such. Is this a truth or merely the way that we persuade ourselves that nationalism, racism and ethnicity are intractable to morality, beyond good and evil? Are philosophical reflection and ethical consciousness solvents of primordialism, and can multi-ethnic politics hold it at bay? These, the burning questions of post-modernity, which have been raised at critical junctures in the development of the state, and answered by theorists ancient as well as modern, will be the focus of this unit.

GOVT 1611 Democratic Theory and Practice
6 credit points
Hands up all those in favour! Voting is the all-purpose method of solving problems. Or is it? Should a vote decide capital punishment, environmental protection, Asian immigration, the age of consent, and so on? Cyber democracy ushers in the dream of direct democracy, where every public decision could be decided by the vote of every citizen. Is that a desirable goal,
or not? What can voting decide, and what can it not? Why is the majority better than unanimity? Whose vote should count? How do courts and law relate to the electoral institutions of political democracy?

GOVT 2102 State Politics in Australia
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
A comparative study of the Australian states, with special reference to New South Wales. Topics include the institutional rules of the game (constitutional development, parliamentary procedures, electoral methods). Considerable attention will be given to the role of political parties and interest groups in state politics. Attention will also be given to state bureaucracies, new developments and proposed reforms together with policy formulation and implementation in some key areas of public policy.

GOVT 2103 Environmental Politics and Policy in Australia
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
This unit considers some of the important environment debates in Australia set against an examination of the major Australian political institutions and policy processes. Key questions include how responsive are our political institutions to the challenges posed by environmental concerns? What in fact constitutes the best political scenario for environmental reform? Can a democratic system respond adequately to ecological problems when these may often only be directly visible to scientific experts and not to ordinary citizens? What are the implications of the move towards increased deregulation and marketisation for the management of environmental problems?

GOVT 2105 Religion in Australian Politics
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
This unit will concentrate on Australian politics in the twentieth century, especially the institutional aspects of Australian politics, including political parties and pressure groups. The basic methodology inspiring the unit will be an historical one (although largely dealing with contemporary history). Nevertheless, there will be some discussion of the value of behavioural approaches, especially in the interpretation of public opinion poll and survey data. At the end of the unit there will be an attempt to evaluate the role of religion in Australian politics in the light of a number of more theoretical approaches to the study of religion in society.

GOVT 2107 Researching Australian Political Behaviour
8 credit points
This unit will look at how we can best understand how people think about and participate in politics. Practical approaches to gaining this understanding will be explored by undertaking project work in real world settings. Students will gain skills by using a variety of research techniques to undertake project work. Examples of projects that students could do include doing a survey of attitudes toward a current political issue, interviewing politicians or other activists, or an in-depth study of a current political campaign or a community issue.

GOVT 2108 Spirituality and Politics in Australia
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
A central aspect of the Australian political landscape has been the absence of an easy public debate about the influence of religious or spiritual values on Australian historical and current political decision making. This unit will explore major religions and new religious movements in relation to Australians political institutions and key political figures. Students will also be encouraged to reflect on the religious and spiritual values that underpin their own political ideology.

GOVT 2202 The Superpowers and After
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
The unit will survey the major diplomatic and strategic issues in the recently concluded superpower conflict. Beginning with a study of the Cold War and its origins, the unit will proceed to investigate the rise, decline, rise and triumphs of detente, focusing closely on the reasons for the collapse of the Soviet Union as a superpower and state. Emergent international relations within the former U.S.S.R. will be explored, together with the sources of nationality conflict and ways of resolving it. The unit will then assess the prospects of the post-Gold War world, multipolarity, unipolarity, and a United Nations with teeth.

GOVT 2207 Issues in International Politics
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
Selected topics on contemporary developments in international politics with an in-depth focus on particular themes and issues. The aim of the unit is to interpret such contemporary issues through a critical application of contrasting theories of international politics, drawing on a variety of schools of thought and comparing their interpretations of new regional and global developments.

GOVT 2209 Theories of War and Peace
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
A study of War from Thucydides History of the Peloponnesian War, through a critical application of contrasting theories of international politics, drawing on a variety of schools of thought and comparing their interpretations of new regional and global developments.

GOVT 2302 Socialist and Labour Politics
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
This unit undertakes a comparison of Australia, Britain and the United States within three areas: (a) Background history: the making of the working class; bourgeois radicalism and socialism; early political activity; parliamentary reform; working class mobilisation and party formation; the revolutionary tradition; the first labour governments; depression and war; the welfare state; the end of the second long boom, (b) Socialist and labourist political strategy: problems of social change and social structure, especially the nature of the state; bureaucracy; revolution or evolution; cultural change; methods of mass organisation, (c) The institutions and political sociology of labour, socialist and social-democratic parties: leadership; composition; electoral support; current problems (the social contract; technocratic labourism; middle-class radicals, etc.).

GOVT 2303 Media Politics
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
This unit focuses upon news—its production, contents and impacts, the special demands of different news organisations and of different news areas, the interests and strategies of various groups in affecting news content, and policy issues in regulating it. It will also focus upon the structures of Australian media institutions and how these impinge upon the processes of news production.

GOVT 2305 Social Movements, Politics and Identity
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
This unit begins with a discussion of social movement theory in sociology (particularly collective behaviour and resource mobilisation approaches) and of the historical setting within which this theory developed. We then move on to new social move-
ment theory in radical social thought and its critique of industrialism, paying special attention to the work of Touraine, Habermas and Cohen. This body of thought is also situated historically. The third part of the unit deals with the labour movement as an old social movement. Lastly, the unit will examine the empirical literature on recent social movements; concentrating on ecology, youth and peace movements. The aim is to develop a comparison of new and old social movements and theories associated with them.

GOVT 2307 State and Political Economy
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
State and political economy is a theoretical unit designed to give an introduction to some central problems concerning the nature and role of government and to some of the techniques of political economy and game theory useful in solving these problems. By theoretical unit is meant one that focuses on solving problems and answering questions. Among the questions that will be addressed are:

Why are the state and institutions needed at all to enforce laws? Is it because people are stupid or unable to cooperate, or is there some other reason? Why do governments and individuals act in a way that destroys the environment? Is it possible for the state to act in the interests of all its citizens or will any collective decision making mechanism produce sub-optimal results? Will democracy give people what they want?

GOVT 2401 Japanese Politics
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
A study of the politics and government of postwar Japan. Main topics will include: the governmental structure, the bureaucracy and policy making, the political party system, the relations between business and government, and recent issues in domestic and foreign policy. Emphasis will be given to examining various interpretations of the character of contemporary Japanese politics: association structured in a hierarchy of patron-client relations; the causative role of traditional attitudes and cultural values; the manipulation of those values in the interest of the capitalist state; modernisation theory; Japan Incorporated.

GOVT 2402 Government and Politics of Modern China
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
Introduction to government and politics of modern China. Brief examination of traditional background and modern revolution from 19th century to 1949. Primary focus on ideology, leadership, institutions and political processes of the People's Republic. Covers politics of social groups, major issue areas, the Cultural Revolution and the politics of reform.

GOVT 2403 Development Politics
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
This unit is concerned with the contemporary problems faced by developing countries in the context of the new global political economy and the transformations in capitalist relations of production. The unit will focus upon the role of international developmental agencies including the International Monetary Fund and the World Bank, and of the role international institutions play in the developmental process. The unit will also consider the utility of the principal theoretical approaches to the politics of development, particularly modernisation and dependency theory, the legacy of colonialism, and the systemic patterns of political and economic power wrested by contemporary international institutions. Issues and concepts that will be covered include: dependent development, the debt crisis, structural adjustment strategies, the role and function of the state, multinational corporations, the new global political economy, women and development, the environment and sustainable development, and the crisis of development.

GOVT 2405 American Politics and Foreign Policy
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
This unit will be a comprehensive overview of the American political system and the formulation of foreign policy. It will cover the major Federal political institutions: the Presidency, the Congress, and the Supreme Court. The unit will consider how foreign policy is made through the interaction of these institutions and with other elements of civil society. Finally, it will examine the outcome of this process: U.S. foreign policy itself with special emphasis on the post-Cold War period. We will seek to answer one key question: what grant strategy, if any, has replaced the Cold War containment of the Soviet Union?

GOVT 2406 Reform, Revolution and Post-Communism
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
At the end of the 1980s the communist regimes of Europe collapsed, leading to the emergence of a number of newly-independent states. This development was unexpected, because the communist regimes had seemed to be so powerful and solidly established. This unit will analyse why such regimes fell and in particular why the attempts at reform of them failed. It will then look at the attempt to build a new post-communist future characterised by political democracy and a market economy. Specific attention will be given to issues like the attempt to develop a post-communist identity, efforts to construct a new political system, and the unit of economic reform and its consequences for the political development. The focus will principally be upon Russia, but some attention may also be given to other former communist states.

GOVT 2407 Revolution, Nationalism and Modernity
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
The unit examines two forms of social and political change which have shaped the modern world: revolution and nationalism. It traces some of the social and political processes which have helped produce revolutionary and nationalist movements, identifies and evaluates the role of various actors (classes, individuals, institutions), and studies and evaluates the role of ideas and ideologies in revolutionary and nationalist movements. It examines how some of the ideas which characterise modernity have been produced and used for legitimisation. Examples will focus on the French, Russian and Chinese revolutions and the Indian and Indonesian nationalist struggles, and themes include the role of peasants in revolution and emergence of mass politics.

GOVT 2409 Authoritarian Politics
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
This unit will compare a range of different types of authoritarian regimes. Traditional authoritarian political structures will be contrasted with what one author calls modern authoritarianism before looking in more detail at the types of political systems which would fall into the latter category. Among the types of systems to be covered will be single party regimes (both narrow and broad), military regimes, police states, fuhrerist systems and corporatist structures. These will be compared principally in terms of their institutional configurations, modes of operation, legitimating ideologies and conditions making for and sustaining them. Major concepts, such as authoritarianism, totalitarianism, militarism, praetorianism and corporatism will be investigated in the context of particular states.

GOVT 2412 Ethnic Conflict in Comparative Perspective
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
The unit examines the role that ethnic conflict plays in national and international politics. One key issue to be addressed is the persistent and destructive nature of this form of political conflict. Settler societies, former colonies, ex-communist nations
and liberal democracies have all had to deal with the political consequences of ethnic tensions. How each regime type has managed this task will be the empirical focus of this unit. Among the nations to be studied are Northern Ireland, South Africa, Israel, the United States, Australia, Sri Lanka and Yugoslavia. The unit is comparative and covers competing theoretical approaches (such as Marxist and liberal).

**GOVT 2414 Federalism**
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
The unit comprises a comparative analysis of cultural, political and institutional aspects of federal systems of government, and policy-making processes in such systems. The topics to be covered will be drawn from the following areas of study: federal theory, the notion of a federal society and how this influences federal institutional arrangements and policy decisions, federalism in multilingual societies, federal and constitutional reform, judicial review, second chambers, federal financial arrangements, intergovernmental relations, and various policy area case studies. Federal systems to be compared include Australia, Canada and the United States of America, with the comparative framework extended to other federal systems where appropriate.

**GOVT 2415 Asia-Pacific Region and Japan**
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
The unit examines the impact of Japanese policies and activities in the Asia-Pacific, focusing especially on the 1990s. It provides conceptual and empirical knowledge to analyse Japanese political, diplomatic, economic, and environmental impact on the Asia-Pacific. It explores Japan’s role in multilateral security and economic institutions as well as in emerging environmental networks. Specific topics include Japan’s role in the ASEAN Regional Forum (ARF) and in the Asia-Pacific Economic Co-operation (APEC) grouping. The unit also analyses the impact of Japanese general trading companies, trade and markets, overseas investors, official development assistance and non-governmental organisations.

**GOVT 2416 Social and Economic Policies in East Asia**
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
The unit focuses on social and economic policies and practices in the public sector; commercialisation, strategic management, risk management and other corporate governance practices and accountability procedures.

**GOVT 2417 Popular Culture and Politics**
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
An examination of political themes and message in Star Trek videos and films. Particular attention will be concentrated on personal identity and autonomy, ethnicity and difference, cultural sovereignty and the Prime Directive, technology and morality, and the like. In a minor key Star Trek will also serve as a lens on the times. While there is a scholarly literature on Star Trek to be considered, most of this unit will consist of using, reacting to, analysing, and reflecting upon the primary medium, namely the films.

**GOVT 2501 Public Policy and Administration**
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
The unit provides an introduction to the field of public policy and administration. It focuses principally upon the structures and processes of policy-making. Attention will be devoted to inputs into decision-making, the personnel and machinery of decision-making, and the processes and machinery of policy-making and evaluation.

**GOVT 2503 Comparative Social Policy**
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
This unit will provide an introduction to the major theoretical approaches used to explain the development of welfare state in liberal democracies. It will also give an overview of the key substantive debates surrounding the provision of welfare in Australia. Attention will be given to the role of political parties, the labour movement, business interests, welfare lobby organisations and other pressure groups which attempt to influence welfare policy. The unit has both an historical and contemporary focus, and will consider critics of welfare on the right and left.

**GOVT 2506 Executive Politics**
8 credit points
Prerequisite: Two GOVT 1000 level units of study (for Management major only: any four 1000 level units).
This unit will study the ways in which government is organised and the behaviour of policy-makers within government organisations. It examines and compares current approaches to government organisation in democratic regimes and the ideas and values that have prompted recent changes. The primary focus is on the executive, that body of decision-makers responsible for the exercise of governments law-making, taxing and spending, and coercive powers. Topics for discussion include the role of political leadership, the composition and internal organisation of key policy-making bodies, sources of policy advice, coordination of government policy-making and activities, changes in the machinery of government and problems of public corruption and accountability procedures.

**GOVT 2507 Public Sector Management**
8 credit points
Prerequisite: Two GOVT 1000 level units of study (for Management major only: any four 1000 level units).
The organisation and structure of the public sector in Australia and other democracies has been transformed in recent years. This unit traces the outlines of this transformation and the debates that have accompanied it. Debates and controversies such as the following are highlighted: where (if at all) should privatisation stop? How much of government can be outsourced or contracted out? Is permanent employment in the public service a relic of the past? Are there special ethical and public accountability requirements of public management that make it essentially different from the private sector? Topics include public sector human resource and financial management practices; relations between public organisations and the public; benchmarking, strategic management, risk management and other corporate governance practices in the public sector; commercialisation, corporatisation and privatisation; and parliamentary oversight and administrative law and their implications for the management process.

**GOVT 2601 Classical Political Theory**
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
Many familiar political ideas and concepts are discussed and debated in the ancient world of the Greek polis and other city-republics. This unit introduces students to some of the writings of political theorists in the classical period, the most famous of whom were Plato and Aristotle. The focus of the unit is upon reading the texts so that students can become familiar with some of the problems of interpretation. Among questions that may be considered are those of justice, the relation of the citizen to the city-state, war and peace and the good life, the place of men and women in political life and the relation of the public and the private.

**GOVT 2602 Political Theory: Early Modern**
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
Political theorists in the early modern period were writing when the modern state was developing and the ideas of individual freedom and equality were becoming widely influential, and the claims of reason were advanced. Arguments to be considered...
include those of the social contract theorists, controversies about sovereignty and political obligation, ideas of natural law and natural rights and the political morality of rulers. The focus of the unit is on reading and analysing the texts.

GOVT 2605 Ethics and Politics
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
If being ethical is hard, is being ethical in a political context possible? Politics has always been one of the primary expressions of a nations ethic, yet the relationship between ethics and politics has never been clear or comfortable. Does politics produce immorality? Can politics be moral? Such questions as these can be examined regarding two of the most serious aspects of political life: violence and technology. Historically, violence has always been a part of politics. But can violence ever be ethical? More recently the development of technology has raised numerous ethical questions that defy political answers. These and other related questions are examined in this unit.

GOVT 2606 Modernity and Politics
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
The politics of post-modernity raise the following question. Why did citizens acquiesce to the concentration of state power that constitutes the politics of modernity? Courtiers on the cusp of modernity engaged in a distant counselling the king in prose and in verse producing great literatures of Renaissance Europe. But the instability of patrimonial kingship, the volatility of court politics and the premonition or experience of civil war prompted theorists like Hobbes and Locke to turn to the political and quasi-legal constraints of social contract backed by state coercion. Their social contract has become the model for modern state formation and citizenship based on individualism. Isolated from its historical context, contractarianism is no longer seen as the trial and error theory that it was at its inception. The shortcomings which modern critics of contractarianism raise an incapacity to deal with collectivities and the tendency for rights-based cultures to deny the duties of community are shortcomings of which the classically grounded humanists of the seventeenth century were clearly aware. Despite the later criticisms of Mary Astell and others, social contract entered the mainstream as the badge of democracy. Only now, when contract has been extended to all forms of social relations and when community is seriously under threat, is the model seriously contested.

GOVT 2608 Utopia in Theory and Practice
8 credit points
Prerequisite: Two GOVT 1000 level units of study.
Worried about the future? Who isn't? What can you do about it? The more you understand, the more you can do. Theory is understanding. The insight of Utopian theory is that human failings are a result of social institutions. To overcome these failings from violent crime to mental depression, social institutions and practices must be redesigned. Redesign rests on natural laws, so that we can do what we want to do, and in doing act productively for society, economy, and polity. We must force ourselves (by theoretical reflection) to be free (by creating new institutions). The argument springs from a number of assumptions, for example, that social institutions can be intentionally changed. At the end you will have a map of Utopia.

GOVT 3205 National Security in the 21st Century
8 credit points
Prerequisite: Two GOVT 1000 level units and two GOVT 2000 level units of study not including 2091, 3091 or 3092.
This unit is a broad survey of post-Cold War international security issues. It is violence such as the balance of power, international law, crisis management, disarmament, arms intended to introduce students to the wide variety of security challenges confronting foreign policy makers in the post-bipolar era. During the Cold War, the global U.S./Soviet rivalry dominated the international security agenda. While there were, of course, many other security challenges, these were generally overshadowed by superpower nuclear issues. Today's security agenda is more balanced between nuclear and other issues; indeed, a debate has arisen as to what security actually means as we approach the 21st century. That debate will be the unifying theme of the unit.

GOVT 3206 Twentieth Century International Relations
8 credit points
Prerequisite: Two GOVT 1000 level units and two GOVT 2000 level units of study not including 2091, 3091 or 3092.
This unit aims to introduce students to the politics of international relations in the twentieth century and is designed for students with at least a rudimentary background knowledge of world politics and international relations theory. The unit will make particular reference to the United States, its development and rise to superpower status as well as address the rise of the Pacific Century and strategic change in the global political economy. The unit is thus broadly conceived, and attempts to explore the systemic forces responsible for structural transformations in global politics and the rise and decline of great powers.

GOVT 3210 International Political Risk Analysis
8 credit points
Prerequisite: Two GOVT 1000 level units and two GOVT 2000 level units of study not including 2091, 3091 or 3092.
The unit will employ case based and problem solving learning strategies to introduce students to applied political analysis and political risk assessment. The unit will see students work in core groups of 6 on team based case study projects. Students will gain knowledge of project design, implementation, and applied political research in an area specific to their case study. More generally, students will gain an understanding of risk analysis and assessment, specific knowledge about an individual country and industry area, and market and demographic knowledge about their industry and country case study.
Team project work will also provide students an opportunity to develop their time management and people management skills in terms of a demarcation of work and case study responsibilities. The unit is also designed to provide students with knowledge of a professional area of applied politics in the case of the consulting industry.

Marketing

MKTG 3010 Electronic Marketing
8 credit points
Prerequisite: MKTG 2001
This subject provides an overview of the concepts and processes specifically applicable to electronic marketing. The course will focus primarily on those aspects of marketing management that require different understanding and execution than in a traditional marketing environment. The course will provide understanding of why these elements differ, and determine how to use/implment/execute them to fit e-trade environments. The fundamentals of marketing such as market analysis, strategy, and developing an appropriate marketing mix are relevant regardless of the domain. However, in an e-commerce setting, different tools and/or techniques may be more or less available and/or more appropriate to use than in a traditional channel setting. Thus, the course will focus on how customers and consumer behaviour are different and differentially affected by marketing stimuli in an electronic setting. The primary areas of study may include marketing research on the internet, database marketing, segmentation and targeting in an interactive setting, how e-retailing differs from brick and mortar, the importance of e-brand development, advertising and communication on the net and the processes and logistics associated with product delivery in an e-commerce setting. Students will be given the opportunity to apply their learning by using up-to-date technology and tools.
Political Economy

ECOP 3005 Political Economy of the Environment
8 credit points

The unit of study introduces students to an appreciation of the nature of environmental problems and how economists and political economists theorise economic interactions with the environment. The object of the unit is twofold. Firstly, it contrasts and develops a critical appreciation of the intellectual foundations and analytical bases of the different approaches within the broad field of study of environmental and ecological economics. Secondly, attention is focused on how these different theories inform an appreciation of environmental problems in contemporary industrial economies, the formulation and application of policy guidelines and environmental economic management, and social and political struggles over the environment. These concerns are developed concretely by exploring different policy measures adopted to date as well as a range of struggles over particular issues, locally, nationally and internationally.

ECOP 3006 Political Economy of Women
8 credit points
Prerequisite: Any four units of study (worth 6 credit points) at 1000 level.

This unit examines the political economy of capitalism with particular reference to gender. Lectures and workshops critically evaluate prevailing conceptions of equality, autonomy, competition and freedom of contract and of the person, and explore explanations of women's economic position, in particular contemporary theories derived from principles of classical liberalism. The course engages with the ethical, theoretical, social and economic dimensions of the subject matter. In workshops students work in small groups on a project on one of several current, often controversial issues. The workshop program emphasises links between the practical and theoretical. Analysis is limited mainly to Western societies.

Institute of Transport Studies

TPTM 2001 Logistics & Supply Chain Management
8 credit points
Prerequisite: 48 credit points of level 1000 study

At the centre of business to business growth is the transformation of tie supply chain as the traditional tools for business commerce (fax, phone and EDI) are replaced with E-business strategies. Logistics, the process of transferring product and services from supplier to customer to consumer, is a major driver of cost and complexity in the order cycle and with subsequent opportunities for E-business strategies. To take full advantage of this requires a thorough understanding of logistics and supply chain management, its development and anticipated changes and outcomes. The main task is to explore and understand the components of supply chain and logistics strategies by considering performance drivers such as customer service and performance facilitators, such as logistics management. A second task is to understand how to create value in the supply chain by focusing on topics such as integrated logistics and inter-enterprise performance. The course will cover key concepts and processes of Logistics Management and Supply Chain Management. A significant treatment of the concepts is how they interrelate and interface with other enterprise functions and resources, which is crucial for the successful implementation of E-business.

Work and Organisational Studies

IREL 2004 Industrial Sociology
4 credit points
Prerequisite: IREL 1002.

This unit provides an introduction to general sociology and the sociological study of work and society. The course begins with a consideration of the nature of Australian society and the patterns of stability and change that can be observed, including class, gender, ethnicity, ideology, occupations and labour markets. The primary emphasis is upon how work is organized and experienced, and the relationship between work and non-work structures and processes. Particular attention is given to current developments in work and organizational design.

IREL 2008 Work Safety
4 credit points
Prerequisite: IREL 1001 and IREL 1002

Work Safety is an examination of the industrial relations implications of occupational health and safety issues. The unit will be taught so as to bring out the interdisciplinary nature of an appropriate study of occupational health and safety by drawing on industrial law, labour history, sociology, economics and the physical sciences. A major area of study will be the role of the state over the past 150 years, especially in its attempts to deal with the prevention of accidents and disease and the compensation and rehabilitation of the victims of accident and disease at work.

IREL 2012 Discrimination and Equality in Employment
4 credit points
Prerequisite: IREL 1001 and IREL 1002

A multi-disciplinary analysis of discrimination in employment and initiatives designed to address such discrimination and promote equality at work. Topics will include:
- Origins of discrimination in employment;
- Reaction by the state in the USA, the EEC and Australia;
- EEO, Affirmative Action and Anti-Discrimination legislation in Australia, including its implementation and effectiveness;
- Case studies: sex discrimination, physically disabled, HTV;
- Case studies in the public sector.

IREL 2013 The Development of Australian Management
4 credit points
Prerequisite: IREL 1002

This unit traces the development of management theory and practice in Australia to the present. The unit will focus on the changing nature of job and organizational design and control, human resource management and industrial relations. Consideration will be given to the influences on management thought and practice, employee involvement arrangements, compensation practices, and the relationship between management and trade unions.

IREL 2014 Comparative Industrial Relations
4 credit points
Prerequisite: IREL 1001 and IREL 1002

An introduction to comparative industrial relations (within the enterprise and beyond) in Western developed economies. The countries and the topics covered will vary over time and according to the staff member in charge, but will normally include:
- Introduction to comparative method;
- An historical and contemporary survey of industrial relations institutions in each country;
- Exploration of the broader economic, political and social environment of industrial relations in each country;
- The role of the state in industrial relations;
- The structure and strategies of unions and employer organisations;
- Management and union organisation and strategy within the enterprise;
- Bargaining structures.
This unit examines the growing application of computer-based information technology to HRM functions. The delivery emphasises active student-centred learning and uses guest lectures by key HRIS practitioners. The unit considers the nature, purpose and promise of HRIS, the managerial, technological and organisational factors driving its adoption, and its relationship to organisational knowledge, learning and decision-making. These dimensions are considered from both a functional/positivist perspective and a critical/radical/postmodern frame of reference.

Topics include:
- Information sources and quantitative methods for HRM;
- HRIS technical features;
- e-media dimensions (email, intranet, internet);
- the steps in designing, implementing and reviewing a HRIS, and its application to specific and integrated HR functions;
- the impact of HRIS on work organisation, the work of HR and IT professionals, HR departments, line managers and employees.
General University information

See also the Glossary for administrative information relating to particular terms.

Accommodation Service
The Accommodation Service assists students to find off-campus accommodation by maintaining an extensive database of suitable accommodation in various areas but primarily close to University or within easy access via public transport.
Level 7, Education Building, A35
The University of Sydney
NSW 2006 Australia
Phone: (02) 9351 3312
Fax: (02) 9351 8262
TTY: (02) 9351 3412
Email: accpmm@stuserv.usyd.edu.au
Web: www.usyd.edu.au/su/acom

Admissions Office
The Admissions Office is responsible for overseeing the distribution of offers of admission to undergraduate students through the Universities Admissions Centre (UAC) and can advise prospective local undergraduate students on admission requirements. Postgraduate students should contact the appropriate faculty. Applicants without Australian citizenship or permanent residency should contact the International Office.
Student Centre
Ground Floor, Carslaw Building, F07
The University of Sydney
NSW 2006 Australia
Phone: (02) 9351 4117 or (02) 9351 4118
Fax: (02) 9351 4869
Email: admissions@records.usyd.edu.au

Applying for a course
Prospective (intending) undergraduate students must lodge an application form with the Universities Admissions Centre (UAC) by the last working day of September of the year before enrolment for all courses except the graduate dental and medical programs, which require direct application to the faculties of Dentistry and Medicine. Note that some faculties may have additional application procedures.

Assessment
For matters regarding assessment, refer to the relevant Department or School.

Casual Employment Service
The Casual Employment Service helps students find casual and part-time work during their studies and in University vacations.
Level 7, Education Building, A35
The University of Sydney
NSW 2006 Australia
Phone: (02) 9552 2589
Fax: (02) 9552 4713

Web: www.usyd.edu.au/cet

Child Care
Contact the Child Care Coordinator for information about Children's Services for students and staff of the University who are parents.
Child Care Coordinator
Level 7, Education Building, A35
Phone: (02) 9351 5667
Fax: (02) 9351 17055
TTY: (02) 9351 3412
Email: childc@stuserv.usyd.edu.au
Web: www.usyd.edu.au/su/childcare

Co-op Bookshop
Sells textbooks, reference books, general books and software. Special order services available. The Co-op Bookshop is located at:
Sydney University Sports and Aquatic Centre, G09
Cnr Codrington St and Darlington Rd
Phone: (02) 9351 3705 or (02) 9351 2807
Fax: (02) 9660 5256
Email: sydu@mail.coop-bookshop.com.au
Web: www.coop-bookshop.com.au

Counselling Service
The Counselling Service aims to help students fulfil their academic, individual and social goals through professional counselling which is free and confidential.
Level 7, Education Building, A35
The University of Sydney
NSW 2006 Australia
Phone: (02) 9351 2228
Fax: (02) 9351 7055
TTY: (02) 9351 3412
Email: counsel@mail.usyd.edu.au
Web: www.usyd.edu.au/su/counsel

Disability Services
Disability Services is the principal point of contact and advice on assistance available for students with disabilities. The Service works closely with academic and administrative staff to ensure that students receive reasonable accommodations in all areas of their study. Assistance available includes the provision of notetaking, interpreters, and advocacy with academic staff to negotiate assessment and course requirement modifications where appropriate.
Level 7, Education Building, A35
The University of Sydney
NSW 2006 Australia

Email: disserv@stuserv.usyd.edu.au
Web: www.usyd.edu.au/su/disabOity

Enrolment and pre-enrolment Students entering first year
Details of the enrolment procedures will be sent to new undergraduate students with their UAC Offer of Enrolment. Enrolment takes place at a specific time and date, depending on your surname and the faculty in which you are enrolling, but is usually within the last week of January. You must attend the University in person or else nominate, in writing, somebody to act on your behalf. On your enrolment day, you pay the compulsory fees for joining the Student Union, the Students’ Representative Council and the student sporting
bodies. Fees for certain courses are also payable at enrolment as is upfront HECS if you decide to pay with this option. You also choose your first-year units of study, so it's important to consult the faculty handbook before enrolling. Faculty handbooks can be purchased at the Student Centre, or found on the web at www.usyd.edu.au/studentcentre/enrolments.

Re-enrolling students
For re-enrolling students, enrolment is accomplished via pre-enrolment which is compulsory. A pre-enrolment package is sent to all enrolled students in early October which contains instructions on pre-enrolment procedures.

Examinations
The Examinations and Exclusions Office is usually responsible for examination seat numbers, examination timetabling and examination arrangements. This information is available to students via the web (MyUni).

Examinations and Exclusions Office
Student Centre
Level 1, Carslaw Building, F07
The University of Sydney
NSW 2006 Australia
Phone: (02) 9351 4005 or (02) 9351 5054
Fax: (02) 9351 7330
Email: exams.office@exams.usyd.edu.au

Note that some faculties, such as the Sydney Conservatorium of Music, make all examination arrangements for the units of study that they offer.

Fees
The Fees Office provides advice to students on how to pay fees, where to pay, and if payments have been received.

Margaret Tefter Building, K07
The University of Sydney
NSW 2006 Australia
Phone: (02) 9351 5222
Fax: (02) 9351 4202

Financial Assistance Office
The University has a number of loan funds and bursaries to assist students who experience financial difficulties. Assistance is not intended to provide the principal means of support but to help in emergencies and to supplement other income.

Level 7, Education Building, A35
The University of Sydney
NSW 2006 Australia
Phone: (02) 9351 2416
Fax: (02) 9351 7055
TTY: (02) 9351 3412
Email: fao@stuserv.usyd.edu.au
Web: www.usyd.edu.au/su/fin_assist

Freedom of Information
The University of Sydney falls within the jurisdiction of the NSW Freedom of Information Act, 1989. The Act requires information concerning documents held by the University to be made available to the public, to enable a member of the public to obtain access to documents held by the University and to enable a member of the public to ensure that records held by the University concerning his or her personal affairs are not incomplete, incorrect or out of date. By definition, a ‘member of the public’ includes staff or students of the University.

• Application may be made for access to University documents, however the Act provides some exemptions to particular documents. The Act contains review and appeal mechanisms which are required to be explained to applicants where applicable. The University is required to report to the public on its FOI activities on a regular basis. The two reports provided are the Statement of Affairs and the Summary of Affairs. The Statement of Affairs contains information about the University, its structure and function and the kinds of documents held. The Summary of Affairs identifies each of the University’s policy documents and provides a contact list for those wishing to access these documents. Further information, and copies of the current reports may be found at www.usyd.edu.au/arms/foi/

• It is a requirement of the Act that applications be processed and a determination be made generally within 21 days. Determinations are made by the University's Registrar.

Graduations Office
The Graduations Office is responsible for organising graduation ceremonies and informing students of their graduation arrangements.

Ground Floor, Carslaw Building, F07
The University of Sydney
NSW 2006 Australia
Phone: (02) 9351 3199, (02) 9351 4009
Protocol: (02) 9351 4612
Fax: (02) 9351 5072
Email: d.obrien@exams.usyd.edu.au

(Grievances) appeals
Many decisions about academic and non-academic matters are made each year and you may consider that a particular decision affecting your candidature for a degree or other activities at the University may not have taken into account all the relevant matters.

• In some cases the by-laws or resolutions of the Senate (see University Calendar) specifically provide for a right of appeal against particular decisions; for example, there is provision for appeal against academic decisions, disciplinary decisions and exclusion after failure.

• A document outlining the current procedures for appeals against academic decisions is available at the Student Centre, at the SRC, and on the University’s web site at www.usyd.edu.au/su/planning/policy/

• If you wish to seek assistance or advice regarding an appeal, contact:
Students’ Representative Council
Level 1, Wentworth Building, G01
The University Of Sydney
NSW 2006 Australia
Phone: (02) 9660 5222

HECS and fees
The HECS and Fees Office in the Student Centre can provide advice on your HECS or fee liability at any time.

Student Centre
Ground Floor, Carslaw Building, F07
The University of Sydney
NSW 2006 Australia

Fax: (02) 9351 5081

International Student Centre
The International Student Centre consists of the International Office (IO), the International Student Services Unit (ISSU) and the Study Abroad and Exchange Office. The International Office provides assistance with application, admission and enrolment procedures and administers scholarships for international students. The ISSU provides a wide range of international student support services including arranging arrival accommodation and offering advice and professional counselling. The Study Abroad and Exchange Unit assists both domestic and international students who wish to enrol for Study Abroad or Exchange programs.

Intranet
USYDnet is the University of Sydney’s intranet. It provides easy access to staff and student directories, maps, software and useful resources for both staff and students. As well as delivering information, the intranet provides interactive services such as the Calendar of Events, where staff and students can enter events and publish them university-wide.

MyUni is the personalised section of USYDnet. All staff and students are provided with access to MyUni through a login name and password. This enables them to customise the information they see and also receive delivery of personal information such as exam results and seat numbers. MyUni is a portal from which students and staff can complete tasks that were previously only possible offline. Web enrolment variation is one of the first of many facilities that are helping to move the every day tasks of all members of the university online.

Learning Centre
The Learning Centre assists students to develop the generic skills which are necessary for learning and communicating knowledge and ideas at university. The Centre is committed to helping students to achieve their academic potential throughout their undergraduate and postgraduate studies.

Prizes: (02) 9351 5060
Fax: (02) 9351 5081, (02) 9351 5350 (Academic Records)
Student identity cards
Student identity cards will be provided to all commencing students at in-person enrolment or will be mailed to all continuing students who have successfully pre-enrolled. The card must be carried with you at all times on the site of the University, it must be displayed during examinations and must be produced on demand of any member of the staff or any other officer of the University. The card incorporates a photograph which you are required to provide. The photograph is to be colour and passport-sized showing your head and shoulders only. The photograph will be laminated to your student identity card on the day of your in-person enrolment if you are a commencing student. Pre-enrolling continuing students will be advised where to attend to have their photos and cards laminated. Student identity cards also function as transport concession cards for those students deemed eligible by the transport authorities. Transport concession eligibility will be confirmed with the application of a holographic sticker on the card.

Student Services
Student Services exists to help you achieve your educational goals by providing personal, welfare, and academic support services to facilitate your success at University. Many factors can impact on your wellbeing while studying at University and Student Services can assist you in managing and handling these more effectively. Refer to Accommodation Service, Casual Employment Service, Child Care, Disability Service, Financial Assistance Office, Learning Centre, Mathematics Learning Centre, Room 711, Level 7, Education Building, A35
The University of Sydney
NSW 2006 Australia
Web: www.usyd.edu.au/su/stuserv

Timetabling Unit
The timetabling unit in the Student Centre is responsible for producing students’ class and tutorial timetables. Students can obtain their Semester 1 timetables from the Wednesday of Orientation Week via the web.
The Sydney Conservatorium of Music operates in accordance with a local calendar of dates and produces a complete timetable for all teaching that it delivers. The timetable is available on enrolment at the Conservatorium.

Other student assistance

Careers information
The Careers Centre provides careers information, advice and counselling, and assists in finding course-related employment both while you're studying and when you're ready to commence your career.

Email: mlc@stuserv.usyd.edu.au
Web: www.usyd.edu.au/su/mlc

Part-time and full-time enrolment
Students are normally considered to be enrolled full-time if they have a HECS or fee weighting of at least 0.375 each semester. Anything under this amount is considered a part-time study load. Note that some faculties have minimum study load requirements for satisfactory progress.

Privacy
The University is subject to the NSW Privacy and Personal Information Protection Act 1998 (the Act). Central to the Act is Part 2 which contains twelve Information Protection Principles (IPPs) which regulate the collection, management, use and disclosure of personal information.
- In response to Section 33 of the Act the University has developed a Privacy Management Plan which includes a new University Privacy Policy incorporating the requirements of the IPPS. Both the Plan and the new University Privacy Policy were endorsed by the Vice-Chancellor on 28 June 2000. The Privacy Management Plan sets out the IPPs and how they apply to functions and activities carried out by the University.

Further information and a copy of the Plan may be found at: www.usyd.edu.au/arms/privacy/. Any questions regarding the Freedom of Information Act, the Privacy and Personal Information Protection Act or the Privacy Management Plan should be directed to:

This glossary describes terminology in use at the University of Sydney.

**Academic Board**
The Academic Board is the senior academic body within the University. In conjunction with Faculties, the Academic Board has responsibility for approving, or recommending to Senate for approval, new or amended courses and Units of Study (UoSs), and policy relating to the admission of students. (For further information, see the University Calendar)

**Academic Cycle**
The Academic Cycle is the program of teaching sessions offered over a year. Currently the cycle runs from the enrolment period for 1st Semester through to the completion of the processing of results at the end of 2nd Semester. (See also Stage)

**Academic Record**
The Academic Record is the complete academic history of a student at the University. It includes, among other things, personal details, all Units of Study and Courses taken, assessment results (marks and grades), awards and prizes obtained, infringements of progression rules, approvals for variation in course requirements and course leave, thesis and supervision details.

Access to a student's Academic Record is restricted to authorised University staff. A student's Academic Record is not released to a third party without the written authorisation of the student. (See also Academic Transcript)

**Academic Transcript**
An Academic Transcript is a printed statement setting out a student's academic record at the University. There are two forms of Academic Transcripts: External and Internal. (See also External Transcript, Internal Transcript)

**Academic Year**
An Academic Year is a normal full-time program taken in a course in a year. Some courses consist of stages, which may readily be equated with Academic Year. Others use the aggregation of credit points to do this (eg, 48 credit points = an Academic Year). (See also Academic Cycle, Stage)

**Addresses**
All enrolled students need to have a current postal address recorded on FlexSIS to which all Official University correspondence is sent. (See also Business Address, Permanent Home Address, Semester Address, Temporary Address)

**Admission**
Admission is governed by the University's Admission Policy and is the process for identifying applicants eligible to receive an initial offer of enrolment in a course at the University. Admission to most courses is based on performance in the HSC with applicants ranked on the basis of their UAI. Other criteria such as a portfolio, interview, audition, or results in standard tests may also be taken into account for certain courses.

**Admission (deferment)**
An applicant who receives an offer of admission to a course may apply to defer enrolment in that course for one semester or one academic cycle.

**Admission Basis**
The main criterion used by a Faculty in assessing an application for admission to a course. The criteria used include, among other things, previous secondary, TAFE or tertiary studies, work experience, Special Admission and the Universities Admission Index (UAI).

**Admission Mode**
Admission Mode is a classification based on how a student was admitted to a course, for example 'UAC or 'direct'.

**Admission Period**
The period during which applications for admission to courses are considered. The main Admission Period takes place before the first semester, but there may also be an Admission Period for mid year applicants before the beginning of the second semester and other Admission Periods.

**Admission Reply**
A code used by FlexSIS to indicate whether an applicant who has received an offer has accepted the offer or not.

**Admission Result**
A code used by FlexSIS to indicate the result of a direct application to study at the University (eg, Offer, Unsuccessful, Withdrawn).

**Admission Year**
The year the student began the course.

**Advanced Diplomas**
(See Award Course)

**Advanced Standing**
(See Credit)

**Advisor**
A member of academic staff appointed in an advisory role for some postgraduate coursework students.

(See also Associate Supervisor, Instrumental Supervisor (teacher), Research Supervisor, Supervision)

**Annual Progress Report**
The Annual Progress Report is a form issued by Faculties which is used to monitor a research student's progress each year. The form provides for comments by the student, the Supervisor, the Head of the Department and the Dean (or nominee). The completed form is attached to the student's official file.

FlexSIS records that the form has been sent out and that it has been satisfactorily completed.

**APA**
Australian Postgraduate Awards. (See also Scholarships, UPA)

**Appeals**
Students may lodge appeals against academic or disciplinary decisions. FlexSIS will record an academic appeal (eg, against exclusion) while they are under consideration and will record the outcome of the appeal. Disciplinary (that is, non-academic) appeals are not recorded on FlexSIS.

**Assessment**
The process of measuring the performance of students in UoSs and courses. The assessment of performance in a UoS may include examinations, essays, laboratory projects, or assignments. (See also Board of Examiners, Result Processing, Result Processing Schedule)

**Associate Supervisor**
A person who is appointed in addition to the Supervisor of a research student who can provide the day-to-day contact with the candidate or provide particular expertise or additional experience in supervision. (See also Advisor, Instrumental Supervisor (teacher), Research Supervisor, Supervision)

**Assumed Knowledge**
For some Units of Study, a student is assumed to have passed a relevant subject at the HSC and this is called Assumed Knowledge. While students are generally advised against taking a Unit of Study for which they do not have the assumed knowledge, they are not prevented from enrolling in the Unit of Study. (See also Prerequisite)
Attendance Mode
Refers to whether a Unit of Study is taken by the student internally (ie, by attending classes at a campus of the university) or externally (ie, remotely by correspondence or other distance education means). While most Units of Study are offered internally, the Faculty of Health Sciences and the Orange Agricultural College offer Units of Study externally.

Attendance Type
Refers to whether the student is studying part-time or full-time. For coursework students this is a function of course load - i.e., the proportion being undertaken by the student of the normal full-time load specified for the course in which the student is enrolled. To be considered full-time, a coursework student must undertake at least 0.75 of the normal full-time load over the academic cycle or at least 0.375 if only enrolling in half of an academic year (one semester). It is important to note, however, that, for some purposes, to be considered full-time a student may need to be enrolled in at least 0.375 in each session. Research students, with the approval of theirFaculty, nominate whether they wish to study part-time or full-time. The Attendance Status is then recorded on FlexSIS as part of the application or enrolment process.

(A see also Coursework, Student Load)

AusAID
Australian Agency for International Development.

Award Course
An award course is a formally approved program of study that can lead to an academic award granted by the University. The University broadly classifies courses as Undergraduate and Postgraduate (research and coursework). The Award Courses offered by the University are:
- Higher Doctorates
- Doctor of Philosophy (PhD)
- Doctorates by research and advanced coursework
- Master's Degree
- Graduate Diploma
- Graduate Certificate
- Bachelor's Degrees
- Advanced diplomas
- Diplomas
- Certificates

(See also Major, Minor and Stream)

Bachelor's Degree
The highest undergraduate award offered at the University of Sydney. A Bachelor's degree course normally requires three or four years of full-time study (or the part-time equivalent).

(See also Award Course)

Barrier
A barrier is an instruction placed on a student's FlexSIS record that prevents the student from re-enrolling or graduating.

(See also Deadline (fees), Suppression of Results)

Board of Examiners
A Board of Examiners was a body appointed by a Faculty or Board of Studies which met to approve the results of all students undertaking Courses supervised by that Faculty or Board of Studies. Boards of Examiners were dis-established following revision of the University's examination procedures in 2000.

(See also Assessment, Result Processing, Result Processing Schedule)

Board of Studies
An academic body which supervises a course or courses and which is similar to a Faculty except that it is headed by a Chair rather than a Dean and does not supervise PhD candidates.

Bursaries
(See Scholarships)

Business Address
FlexSIS can record a student's Business Address and contact details.

(See also Addresses, Permanent Home Address, Semester Address, Temporary Address)

Cadigal Program
The Cadigal Program is a University wide access and support scheme for Aboriginal and Torres Strait Islanders.

Campus
The grounds on which the University is situated. There are eleven campuses of the University of Sydney: Burren Street (Australian Graduate School of Management), Camperdown and Darlington ('Main Campus'), Camden (Agriculture and Veterinary Science), Conservatorium (Conservatorium of Music), Cumberland (Health Sciences), Mallett Street (Nursing), Orange (Faculty of Rural Management), Rozelle (Sydney College of the Arts), St James (Law) and Surry Hills (Dentistry).

Census date
(See HECS Census Date)

Chancellor
The non-executive head of the University. An honorary position, the Chancellor chairs meetings of the University's governing body, the Senate, and presides over graduation ceremonies amongst other duties.

Class List
A listing of all Currently Enrolled students in a particular Unit of Study.

(See also Unit of Study)

Combined Course
A course which leads to two awards. For example the Arts/Law course leads to the separate awards of Bachelor of Arts and Bachelor of Laws.

Combined degree
(See Combined Course)

Commencing Student
A student enrolling in an award course at the University of Sydney for the first time. The DETYA Glossary provides a more detailed definition.

Compulsory Subscription Rates
There are two rates for some annual subscriptions: full-time and part-time.

(See also Compulsory Subscriptions)

Compulsory Subscription Waiver Provision
Certain students over a certain age or with disabilities or medical conditions may be exempted from the subscription to the sports body.

Students with a conscientious objection to the payment of subscriptions to Unions of any kind may apply to the Registrar for exemption. The Registrar may permit such a student to make the payment to the Jean Foley Bursary Fund instead.

(See also Compulsory Subscriptions)

Compulsory Subscriptions
Each enrolled student is liable to pay annual (or semester) subscriptions as determined by the Senate to the student organisations at the University. These organisations are different on different campuses. There are different organisations for undergraduate and postgraduate students.

At the Main Campus, compulsory subscriptions depend on the level of study:

- Undergraduate - the University of Sydney Union, Students Representative Council (SRC) and the University Men's Sports Union or the University Women's Sports Association.
- Postgraduate - the University of Sydney Union and the Sydney University Postgraduate Representative Association (SUPRA).

At other campuses, student organisations include:
- the Cumberland Student Guild
- student organisations at Orange Agricultural College and the Sydney College of the Arts.

(See also Compulsory Subscription Rates, Compulsory Subscription Waiver Provision, Joining Fee, Life membership)
A Confirmation of Enrolment Status Form is issued to students after enrolment showing the course and the UoSs they are enrolled in, together with the UoS credit point value of the UoSs and the HECS weights. Until all fees are paid, it is issued provisionally. A new Confirmation of Enrolment form is produced every time a student’s enrolment is varied. For Postgraduate Research students the form also lists candidature details and Supervisor information. Where students have an appointed adviser, the adviser information is also shown.

Convocation
Convocation is the body comprising all graduates of the University.

Core Unit of Study
A Unit of Study (UoS) that is compulsory for the course or subject area. (See also Unit of Study (UoS))

Corequisite
A Corequisite is a Unit of Study, which must be taken in the same semester or year as a given Unit of Study (unless it has already been completed). These are determined by the Faculty or Board of Studies concerned, published in the Faculty Handbook and shown in FlexSIS. (See also Prerequisite, Waiver)

Course
(See Award Course)

Course Alias
Each course in FlexSIS is identified by a unique five-digit Alpha-Numeric code.

Course Code
(See Course Alias)

Course Leave
Students (undergraduate and postgraduate) are permitted to apply for a period away from their course without losing their place. Course leave is formally approved by the supervising Faculty for a minimum of one semester and recorded on FlexSIS (leave for periods of less than one semester should be recorded internally by the Faculty). Students on leave are regarded as having an active candidature, but they are not entitled to a student card. At undergraduate level leave is not counted towards the total length of the course. Students who are absent from study without approved leave may be discontinued and may be required to reapply formally for admission. In respect of research students the term ‘Suspension of Candidature’ was previously used to describe students on course leave.

Course (Research)
A classification of courses in which students undertake supervised research leading to the production of a thesis or other piece of written or creative work over a prescribed period of time. The research component of a research course must comprise 66% or more of the overall course requirements.

Course Rules
Course Rules govern the allowable enrolment of a student in a Course; eg, a candidate may not enrol in Units of Study having a total value of more than 32 credit points per semester. Course Rules also govern the requirements for the award of the Course; eg, a candidate must have completed a minimum of 144 credit points. Course Rules may be expressed in terms of types of Units of Study taken, length of study, and Credit Points accumulated.

Course Suspension
(See Course Leave)

Course Transfer
A Course Transfer occurs where a student changes from one course in the University to another course in the University without the requirement for an application and selection (eg, from a PhD to a Master’s program in the same Faculty).

Course Type
Course Type is a DETYA code.

Coursework
Coursework is a classification used to describe those courses that consist of UoSs rather than research work. All Undergraduate courses are coursework programs. Postgraduate courses can be either research courses or coursework courses. (See also Course (Research))

Credit
Students admitted to a course at the University may be granted Advanced Standing based on previous attainment in another course at the University, or at another institution. The credit points granted count towards the course. Credit may be granted as specific credit or non-specific credit.

Specific credit is the recognition of previously completed studies as directly equivalent to UoSs. Specific credit is recorded on FlexSIS as credit for a particular UoS or UoSs.

Non-Specific credit takes the form of a ‘block credit’ for a specified number of credit points at a particular level (eg, 12 Junior level credit points). These credit points may be in a particular subject area. The credit is not linked to a specific UoS. (See also Waiver)

Credit Points
Credit Points are a measure of value indicating the contribution each Unit of Study provides towards meeting course completion requirements stated as a total Credit Point value. Each Unit of Study will have a Credit Point value assigned to it, normally in the range 3 to 24. Resolutions of Senate set the number and level of Credit Points required for graduation.

Cross-institutional Enrolment
Cross-institutional Enrolment is an enrolment in Units of Study at one university to count towards an award course at another university. Cross-institutional enrolments incur a HECS liability or tuition fee charge at the institution at which the UoS is being undertaken. Students pay compulsory subscriptions to one university only (usually their home university - ie, the university which will award their degree).

DAC (Data Audit Committee)
DAC is a sub-committee of the VCAC Enrolment Working Party, chaired by the Registrar, with membership including the Deans, the Student Centre, FlexSIS and the Planning Support Office. Its role is to oversee the integrity and accuracy of the Course and Unit of Study data as strategic university data. It has a role in advising the Academic Board on suggested policy changes with relation to Course and Unit of Study data.

Deadlines (enrolment variations)
(See Enrolment Variations)

Deadlines (fees)
The University has deadlines for the payment of fees (eg, HECS, Compulsory Subscriptions, course fees etc). Students who do not pay fees by these deadlines may have their enrolment cancelled or they may have a barrier placed on the release of their record. (See also Barrier)

Dean
The head of a Faculty or the principal or director of a College (such as the Conservatorium of Music or the Sydney College of Arts).

Dean’s Certificate
A statement from the Dean certifying that all requirements, including fieldwork and practical work, have been met and that the student is eligible to graduate. Not all Faculties use Deans’ Certificates. In Faculties that do, qualified students have ‘Dean’s Certificate’ noted on their academic record.
DETYA
The Department of Education Training and Youth Affairs is the Commonwealth Government Department responsible for Higher Education. The University is required to provide DETYA with information about its students three times a year. The Government in its funding deliberations uses this information.

Deferment
(See Admission (deferment), Leave)

Degree
(See also Award Course, Bachelor’s Degree)

Department
For the purposes of FlexSIS, a Department is the academic unit, which is responsible for teaching and examining a UoS. It may be called a School, a Department, a Centre or a Unit within the University.

Differential HECS
(See Higher Education Contribution Scheme (HECS))

Diploma
The award granted following successful completion of Diploma course requirements. A Diploma course usually requires less study than a degree course. Graduate Diploma courses are only available to students who already hold an undergraduate degree. (See also Award Course)

Direct Admissions
For some courses, applications may be made directly to the University. Applications are received by Faculties or the International Office, registered on FlexSIS and considered by the relevant Department or Faculty body. Decisions are recorded on FlexSIS and FlexSIS produces letters to applicants advising them of the outcome. (See also Admission, UAC Admissions)

Disability Information
Students may inform the University of any temporary or permanent disability, other than a financial disability, which affects their life as a student. Disability Information is recorded in FlexSIS but it is only visible to particular authorised users because of its sensitive nature.

Discipline Codes
Discipline Codes are four-letter codes for each area of study available at the university (eg, CHEM Chemistry, ECON Economics)

Discipline Group
A DETYA code used to classify UoSs in terms of the subject matter being taught or being researched.

Discontinuation (Course)
(See Enrolment Variation)

Discontinuation (Unit of Study)
(See Enrolment Variation)

Dissertation
A Dissertation is a written exposition of a topic and may include original argument substantiated by reference to acknowledged authorities. It is a required Unit of Study for some postgraduate award courses in the Faculties of Architecture and Law.

Doctor of Philosophy (PhD)
(See Award Course, Doctorate, PhD)

Doctorate
The Doctorate and the PhD are high-level postgraduate awards available at the University of Sydney. A Doctorate course normally involves research and coursework; the candidate submits a thesis that is an original contribution to the field of study. Entry to a Doctorate course often requires completion of a Master’s degree course. Note that the Doctorate course is not available in all Departments at the University of Sydney. (See also Award Course, PhD)

Earliest date
(See Research Candidature)

EFTSU
The Equivalent Full-Time Student Unit (EFTSU) is a measure of student load expressed as a proportion of the workload for a standard annual program for a student undertaking a full year of study in a particular award course. A student undertaking the standard annual program of study (normally 48 credit points) generates one EFTSU.

EFTYR
The Effective Full-time Enrolment Year (EFTYR) is a calculation of how long, in terms of equivalence to full-time years of enrolment, a student has been enrolled in a course. If a student has always been full-time, the calculation is straightforward (for example, the fifth year of enrolment is EFTYR 5). If the student has had a mixture of part-time and full-time enrolment, this can be equated with an EFTYR. (See also Stage)

Enrolment
A student enrolls in a course by registering with the Supervising Faculty in the Units of Study to be taken in the coming year, semester or session. The student pays whatever fees are owing to the University by the deadline for that semester. New students currently pay on the day they enrol which is normally in early February. Students already in a course at the University re-enrol each year or semester; for most students Pre-enrolment is required. (See also Pre-enrolment)

Enrolment Non Award
Non Award enrolment is an enrolment in a Unit or Units of Study, which does not count towards a formal award of the University. Normally Tuition Fees are levied on non-award Units of Study.

Enrolment Status
A student's enrolment status is either:
- Enrolled;
- Not enrolled
  - An enrolment status is linked to an enrolment states reason or category.

Enrolment Status Reason/ Category
Not enrolled status reasons/categories include: Withdrawn, Totally Discontinued, Cancelled, on Leave (suspended), Transferred, Lapsed, Terminated, Qualified and Confirmed.

Enrolment Variation
Students may vary their enrolment at the beginning of each semester. Each Faculty determines its deadlines for variations, but HECS liability depends on the HECS Census Date. (See also HECS)

Enrolment Year
See EFTYR, Stage

Examination
See Examination Paper Code, Examination Period, Supplementary Exams

Examination Paper Code
A code that identifies each individual examination paper. Used to help organise examinations.

Examination Period
The Examination Period is the time set each semester for the conduct of formal examinations.

Exchange Student
An Exchange student is either a student of this University who is participating in a formally agreed program involving study at an overseas university or an overseas student who is studying here on the same basis. The International Office provides administrative support for some exchanges.

Students at this University will have recorded on their academic record the fact that they have participated in an exchange program.
Exclusion
The Faculty may ask a student whose academic progress is considered to be unsatisfactory to Show Cause why the student should be allowed to re-enrol. If the Faculty deems the student’s explanation unsatisfactory or if the student does not provide an explanation the student may be excluded either from a Unit of Study or from a course. An excluded student may apply to the Faculty for permission to re-enrol. Normally at least two years must have elapsed before such an application would be considered.

University policy relating to exclusion is set out in the Calendar.
(See also Senate Appeals)

External
See Attendance Mode

External Transcript
An External Transcript is a certified statement of a student's academic record printed on official university security paper. It includes the student’s name, any credit granted, all courses the student was enrolled in and the final course result and all UoSs attempted within each course together with the UoS result (but not any UoS which has the status of Withdrawn). It also includes any scholarships or prizes the student has received. Two copies are provided to each student on graduation (one with marks, and grades for each UoS and one with grades only). External transcripts are also produced at the request of the student. The student can elect either to have marks appear on the transcript or not.
(See also Academic Transcript, Internal Transcript)

Faculty
A Faculty, consisting mainly of academic staff members and headed by a dean, is a formal part of the University’s academic governance structure, responsible for all matters concerning the award courses that it supervises (see the 1999 Calendar, pp 110-111). Usually, a Faculty office administers the Faculty and student or staff inquiries related to its courses. The Calendar sets out the constitution of each of the University's 17 Faculties.
(See also Board of Studies, Supervising Faculty)

Fail
A mark of less than 50% which is not a Concessional Pass.
(See also Results)

Fee Paying Students
Fee Paying Students are students who pay tuition fees to the University and are not liable for HECS.

Fee Rate
Local fees are charged in bands, a band being a group of subject areas. The bands are recommended by Faculties and approved by the DV-C (Planning and Resources).

Fee Type
Fee Type can be International or Local.

FlexSIS
FlexSIS is the computer-based Flexible Student Information System at the University. FlexSIS holds electronically detailed courses and UoSs being offered by the University and the complete academic records of all students enrolled at the University. FlexSIS also holds the complete academic records of many (but not all) past students of the university. For past students whose complete records are not held on FlexSIS, there will be a reference on FlexSIS to card or microfiche records where details are kept.

Full-Time Student
(See Attendance Status, EFTSU)

Grade
A Grade is a result outcome for a Unit of Study normally linked with a mark range. For example, in most Faculties, a mark in the range 85-100 attracts the Grade ‘High Distinction’ (‘HD’).
(See also Mark)
In absentia
In absentia is Latin for ‘in the absence of’. Awards are conferred in absentia when a graduand does not, or cannot, attend the graduation ceremony scheduled for them. Those who have graduated in absentia may later request that they be presented to the Chancellor at a graduation ceremony. (See also Graduation)

Instrumental Supervisor (teacher)
All students at the Conservatorium of Music and BMus students on the Camperdown campus have an instrumental teacher appointed. (See also Advisor, Associate Supervisor, Research Supervisor, Supervision.)

Internal
(See Attendance Mode)

Internal Transcript
An Internal Transcript is a record of a student’s academic record for the University’s own internal use. It includes the student’s name, SID, address, all courses in which the student was enrolled and the final course result and all UoSs attempted within each course together with the UoS result. (See also Academic Transcript, External Transcript)

International Student
An International Student is required to hold a visa to study in Australia and may be liable for international tuition fees. Any student who is not an Australian or New Zealand citizen or a permanent resident of Australia is an international student. New Zealand citizens are not classified as international students but have a special category under HECS that does not permit them to defer their HECS liability. (See also Local Student, Student Type)

Joining Fee
Students enrolling for the first time pay, in addition, a joining fee for the University of Sydney Union or equivalent student organisation. (See also Compulsory Subscription)

Leave
(See Course Leave)

life membership
Under some circumstances (eg, after five full-time years of enrolments and contributions) students may be granted life membership of various organisations, which means they are exempt from paying yearly fees. (See also Compulsory Subscription)

Load
Load for an individual student is the sum of the weights of all the UoSs in which the student is enrolled. (See also EFTSU, HECS)

Local Student
A Local Student is either an Australian or New Zealand citizen or Australian permanent resident. New Zealand citizens are required to pay their HECS upfront. (See also Fee type, HECS, International Student)

Major
A Major is a defined program of study, generally comprising specified Units of Study from later stages of the Award Course. Students select and transfer between Majors by virtue of their selection of Units of Study. One or more Majors may be prescribed in order to satisfy course requirements. (See also Award Course, Minor and Stream)

Major Timetable Clash
Used by FlexSIS to denote occasions when a student attempts to enrol in Units of Study which have so much overlap in the teaching times that it has been decided that students must not enrol in the units together.

Mark
An integer (rounded if necessary) between 0 and 100 inclusive, indicating a student’s performance in a UoS. (See also Grade)

Master’s Degree
A postgraduate award. Master’s degree courses may be offered by coursework, research only or a combination of coursework and research. Entry to the course often requires completion of an Honours year at an undergraduate level. (See also Award Course)

Method of candidature
A course is either a research course or a coursework course and so the Methods of Candidature are ‘Research’ and ‘Coursework’. (See also Course, Course (Research), Coursework)

Minor
A Minor is a defined program of study, generally comprising Units of Study from later stages of the Award Course and requiring a smaller number of Credit Points than a Major. Students select and transfer between Minors (and Majors) by virtue of their selection of Units of Study. One or more Minors may be prescribed in order to satisfy course requirements. (See also Award Course, Major and Stream)

Minor Timetable Clash
Used by FlexSIS to denote occasions when a student attempts to enrol in Units of Study which have some identical times of teaching.

Mutually Exclusive Units of Study
(See Prohibited Combinations of Units of Study)

MyUni
MyUni is a personalised space for staff and students on the University of Sydney’s intranet, called USYDnet. MyUni is used to deliver information and services directly through a central location, while also allowing users to customise certain information. Students are able to access such services as Exam Seat Numbers, Results, Timetables and FlexSIS Enrolment Variations on MyUni.

Non Award
(See Enrolment - Non Award)

OPRS
Overseas Postgraduate Research Scholarship.

Orientation Week
Orientation or ‘O Week’, takes place during the week prior to lectures in Semester 1. During O Week, students can join various clubs, societies and organisations, register for courses with departments and take part in activities provided by the University of Sydney Union.

Part-time student
(See Attendance Status, EFTSU)

Permanent Home Address
The Permanent Home Address is the address for all official University correspondence both inside and outside of Semester time (eg, during Semester breaks), unless overridden by Semester Address. (See also Addresses, Business Address, Semester Address, Temporary Address)

PhD
The Doctor of Philosophy (PhD) and other Doctorate awards are the highest awards available at the University of Sydney. A PhD course is normally purely research-based; the candidate submits a thesis that is an original contribution to the field of study. Entry to a PhD course often requires completion of a Master’s degree course. Note that the PhD course is available in most departments in the University of Sydney. (See also Award Course, Doctorate)

Postgraduate
A term used to describe a course leading to an award such as Graduate Diploma, a Master’s Degree or PhD, which usually requires prior completion of a relevant undergraduate degree (or diploma) course. A ‘postgraduate’ is a student enrolled in such a course.

Potential Graduand
Potential Graduands are students who have been identified as being eligible to graduate on the satisfactory completion of their current studies. (See also Graduand, Graduation)
Pre-enrolment
Pre-enrolment takes place in October for the following year. Students indicate their choice of UoS enrolment for the following year. After results are approved, registered students are regarded as enrolled in those UoSs they chose and for which they are qualified. Their status is ‘enrolled’ and remains so provided they pay any money owing or comply with other requirements by the due date. Re-enrolling students who do not successfully register in their Units of Study for the next regular session are required to attend the University on set dates during the January/February enrolment period. Pre-enrolment is also known as Provisional Re-enrolment.

(See also Enrolment)

Prerequisite
A prerequisite is a Unit of Study that is required to be completed before another UoS can be attempted. (See also Assumed Knowledge, Corequisite, Waiver)

Prizes
Prizes are awarded by the University, a Faculty or a Department for outstanding academic achievement. Full details can be found in the University Calendar.

Probationary Candidate
A Probationary Candidate is a student who is enrolled in a postgraduate course on probation for a period of time up to one year. The Head of Department is required to consider the candidate’s progress during the period of probation and make a recommendation for normal candidature or otherwise to the Faculty.

Progression
(See Course Progression)

Prohibited Combinations of Units of Study
When two or more Units of Study contain a sufficient overlap of content, enrolment in any one such Unit prohibits enrolment in any other identified Unit. A Unit related in this way to any other Unit is linked in Tables of Units of Study via use of the symbol N to identify related prohibited Units.

Provisional Re-enrolment
(See Pre-enrolment)

Qualification
A qualification is an academic attainment recognised by the University.

Registrar
The Registrar is responsible to the Vice-Chancellor for the keeping of official records and associated policy and procedures within the University. (See the University Calendar for details.)

Registration
In addition to enrolling with the Faculty in Units of Study, students must register with the Department responsible for teaching each Unit. This is normally done during Orientation Week. Note that unlike enrolment, registration is not a formal record of Units attempted by the student.

Research Course
(See Course (Research))

Research Supervisor
A Supervisor is appointed to each student undertaking a research postgraduate degree. The person will be a full-time member of the academic staff or a person external to the University appointed in recognition of their association with the clinical teaching or the research work of the University. A Research Supervisor is commonly referred to as a Supervisor. (See also Advisor, Associate Supervisor, Instrumental Supervisor (teacher), Supervision)

Resolutions of Senate
Regulations determined by the Senate of the University of Sydney that pertain to degree and diploma course requirements and other academic or administrative matters.

Result Processing
Refers to the processing of assessment results for UoSs. Departments tabulate results for all assessment activities of a UoS and assign preliminary results for each UoS. Preliminary results are considered by the relevant Board of Examiners, which approves final results. Students are notified of results by result notices that list final marks and grades for all UoSs. (See also Assessment, Examination Period)

Result Processing Schedule
The Result Processing Schedule will be determined for each Academic Cycle. It is expected that all Departments and Faculties will comply with this schedule. (See also Assessment, Examination Period, Result Processing)

Results
The official statement of the student’s performance in each Unit of Study attempted, as recorded on the academic transcript, usually expressed as a grade.

HD
High Distinction, a mark of 85-100

D
Distinction, a mark of 75-84

CR
Credit, a mark of 65-74

P
Pass, a mark of 50-64

R
Satisfied requirements. This is used in Pass/Fail only outcomes

UCN
Unit of Study continuing. Used at the end of semester for UoSs that have been approved to extend into a following semester. This will automatically flag that no final result is required until the end of the last semester of the UoS.

PCON
Pass (Concessional), a mark of 46-49. Use of this grade is restricted to those courses that allow for a Concessional Pass of some kind to be awarded. A student may re-enrol in a Unit of Study for which the result was PCON. Each faculty will determine and state in its course regulations what proportion, if any, may count - eg, ‘no more than one sixth of the total credit points for a course can be made up from PCON results’.

F
Fail. This grade may be used for students with marks from 46-49 in those faculties which do not use PCON.

AF
Absent Fail. Includes non-submission of compulsory work (or non-attendance at compulsory labs etc) as well as failure to attend an examination.

W
Withdrawn. Not recorded on an external transcript. This is the result that obtains where a student applies to discontinue a Unit of Study by the HECS Census Date (ie, within the first four weeks of enrolment).

DNF
Discontinued - Not to count as failure. Recorded on external transcript. This result applies automatically where a student discontinues after the HECS Census Date but before the end of the seventh week of the semester (or before half of the Unit of Study has run, in the case of Units of Study which are not semester-length). A faculty may determine that the result of DNF is warranted after this date if the student has made out a special case based on illness or misadventure.

DF
Discontinued - Fail. Recorded on transcript. This applies from the time DNF ceases to be automatically available up to the cessation of classes for the Unit of Study.

MINC
Incomplete, with a mark of at least 50. This result may be used when examiners have grounds (such as illness or misadventure) for seeking further information or for considering additional work from the student before confirming the final mark and passing grade. Except in special cases approved by the Academic Board, this result will be converted to a normal passing mark and grade either:

(a) by the Dean at the review of examination results conducted pursuant to section 2 (4) of the Academic Board policy

Examinations and Assessment Procedures'; or
Incomplete. This result is used when examiners have grounds (such as illness or misadventure) for seeking further information or for considering additional work from the student before confirming the final result. Except in special cases approved by the Academic Board, this result will be converted to a normal permanent passing or failing grade either:

(a) by the Dean at the review of examination results conducted pursuant to section 2 (4) of the Academic Board policy 'Examinations and Assessment Procedures'; or

(b) automatically to the indicated mark and grade by the third week of the immediately subsequent academic session. Deans are authorised to approve the extension of a MINC grade for individual students having a valid reason for their incomplete status.

UCN
Incomplete. A MINC or INC grade is converted, on the advice of the Dean, to UCN when all or many students in a Unit of Study have not completed the requirements of the Unit. The students may be engaged in practicum or clinical placements, or in programs extending beyond the end of semester (eg, Honours).

Scholarships
Scholarships are financial or other forms of support made available by sponsors to assist Australian and international students to pursue their studies at the University. When a student's means are a criterion, scholarships are sometimes called bursaries. (See also Prizes)

School
(See Department)

SCR
System Change Request.

Semester
A semester is the Academic Teaching period of approximately 14 weeks duration. All Units of Study have been semesterised, both at the undergraduate and postgraduate level, except for those components of final honours year or postgraduate courses relating to thesis or other similar research oriented projects for which two or more semesters are normally assigned for completion. Units of Study are taught and examined in either the first semester or the second semester (or in both semesters if the course is offered twice).

Semester Address
The Semester Address is the address to which all Official University correspondence is sent during semester time, if it is different to the Permanent Address. Unless overridden by a Temporary Address all Official University correspondence during Semester (including Session 4 for students enrolled in Summer School) will be sent to this address. (See also Addresses, Business Address, Permanent Home Address, Temporary Address)

Senate
The Senate of the University is the governing body of the University. (See the University Calendar)

Senate Appeals
Senate appeals are held for those students who, after being excluded by the Faculty from a course, appeal to the Senate for readmission. While any student may appeal to the Senate against an academic decision, such an appeal will normally be heard only after the student has exhausted all other avenues - ie, the Department, Faculty, Board of Study and, in the case of postgraduates, the Committee for Graduate Studies. (See also Exclusion)

Session
A session is a defined teaching period of the University. The two major sessions are called semesters and are defined by the DETYA HECS Census date they contain (eg, first and second semester). The Academic Board must approve variation to the normal session pattern.

Session Address
(See Semester Address)

Special Consideration
Candidates who have medical or other serious problems, which may affect performance in any assessment, may request that they be given Special Consideration in relation to the determination of their results.

They can obtain an official form from the Student Centre. The Student Centre stamps the form and the medical or other documentation. The student gives a copy of the material to the Student Centre staff and takes copies to the relevant Departments. The student retains the originals. The dates for which Special Consideration is sought are recorded on FlexSIS and printed on the Examination Register.

Special Permission
(See Waiver)

Sponsorship
Sponsorship is the financial support of a student by a Company or Government body. Sponsors are frequently invoiced directly.

Stage
For the purposes of administration, a course may be divided into stages to be studied consecutively. The stages may be related to sessions or they may relate to an Academic Cycle. Part time students progress through a course more slowly and would often enrol in the same stage more than once.

Status
Status is a variable for students both with relation to Course and Unit of Study. With relation to Course, students can have the status of Enrolled or Not Enrolled. Not Enrolled reasons can be Totally Discontinued, Withdrawn, Suspended, Cancelled, Awarded, etc. With relation to Unit of Study, students can have the status of CURENR or WITHDN, Discontinued, etc.

Stream
A Stream is a defined program of study, selected from a table of Units of Study. Students enrolled in award courses that involve streams will have the stream recorded in their enrolment record. A student generally enters streams at the time of admission, although some award courses require students to enrol in streams after the completion of Level 1000. Students may transfer between Streams by altering their enrolment status within their Award Course, but only when permitted to do so by Faculty Resolution. (See also Award Course, Major and Minor)

Student ID card
All students who enrol are issued with an identification card. The card includes the student name, SID, the course code, and a library borrower's bar code. The card identifies the student as eligible to attend classes and must be displayed at formal examinations. It must be presented to secure student concessions and to borrow books from all sections of the University Library.

Student Identifier (SID)
A nine-digit number which uniquely identifies a student at the University.

Student Load
(See Load)

Study Abroad Program
A scheme administered by the International Education Office which allows international students who are not part of an exchange program, to study UoSs at the University of Sydney, but not towards an award program. In most cases the UoSs studied here are credited towards an award at their home institution. (See also Exchange Student)
SubjectArea
A Unit of Study may be associated with one or more Subject Areas. The SubjectArea can be used to define Prerequisite and Course Rules - eg, the Unit of Study 'History of Momoyama and Edo Art' may count towards the requirements for the Subject Areas 'Art History and Theory' or 'Asian Studies'.

Supervising Faculty
The Supervising Faculty is the Faculty which has the responsibility for managing the academic administration of a particular course ie, the interpretation and administration of course rules, approving students' enrolments and variations to enrolments. Normally the supervising Faculty is the Faculty offering the course. However, in the case of combined courses, one of the two Faculties involved will usually be designated the Supervising Faculty at any given time. Further, in the case where one course is jointly offered by two or more Faculties (eg, the Liberal Studies course) a Joint Committee may make academic decisions about candidature and the student may be assigned a Supervising Faculty for administration.

The International Office has a supporting role in the administration of the candidatures of international students and alerts the Supervising Faculty to any special conditions applying to these candidatures (eg, that enrolment must be full-time).

Supervision
Supervision refers to a one to one relationship between a student and a nominated member of the academic staff or a person specifically appointed to the position.

Supplementary Examination
(See Supplementary Exams)
Supplementary exams may be offered by Faculties to students who fail to achieve a passing grade or who were absent from assessment due to illness or misadventure.

Suppression of Results
Results for a particular student can be suppressed by the University for the following reasons:
- the student has an outstanding debt to the University
- the student is facing disciplinary action.

Suspension
(See Course Leave)
Teaching Department
(See Department)
Temporary address
Students may advise the University of a Temporary Address. Correspondence will be sent to this address between the dates specified by the student.

Testamur
A testamur is a certificate of award provided to a graduate usually at a graduation ceremony.

Thesis
A thesis is a major work that is the product of an extended period of supervised independent research.

'Latest date' is the latest date at which a research student can submit the thesis.

Timetable
Timetable refers to the schedule of lectures, tutorials, laboratories and other academic activities that a student must attend.

Transcript
(See Academic Transcript)
Transfer
(See Course Transfer)

Tuition Fees
Tuition fees may be charged to students in designated tuition fee-paying courses. Students who pay fees are not liable for HECS.

UAC
The Universities Admissions Centre (UAC) receives and processes applications for admission to undergraduate courses at recognised universities in NSW and the ACT. Most commencing undergraduate students at the University apply through UAC.

UAC Admissions
Most local undergraduates (including local undergraduate fee payers) apply through the Universities Admission Centre (UAC).

The University Admissions Office coordinates the processing of UAC applicants with Faculties and Departments and decisions are recorded on the UAC system.

Applicants are notified by UAC and an electronic file of applicants who have been made offers of admission to courses at the University is loaded onto FlexSIS.

Undergraduate
A term used to describe a course leading to a Diploma or Bachelor's Degree. An 'undergraduate' is a student enrolled in such a course.

Unit of Study (UoS)
A Unit of Study is the smallest stand-alone component of a student's course that is recordable on a student's transcript. UoSs have an integer credit point value, normally in the range 3-24. Each approved UoS is identified by a unique sequence code which usually identifies the Department or subject area, and a four character numeric code which identifies the particular UoS. Units of Study can be grouped by subject and level.

Unit of Study Enrolment Status
The UoS Enrolment Status indicates whether the student is still actively attending the UoS (ie, currently enrolled) or is no longer enrolled (withdrawn or discontinued)

Unit of Study Group
A grouping of Units of Study within a course. The Units of Study which make up the groups are defined within FlexSIS.

Unit of Study Level
Units of Study are divided into Junior, Intermediate, Senior, Honours, 5th Year, and 6th Year. Most Majors consist of 32 Senior Credit Points in a subject area (either 3000 level Units of Study or a mix of 2000 and 3000 level Units of Study).

University
Unless otherwise indicated, University in this document refers to the University of Sydney.

University Medal
A Faculty may recommend the award of a University Medal to students qualified for the award of an undergraduate Honours degree or some Masters degrees, whose academic performance is judged outstanding.

UoS
(See Unit of Study)

UPA
University Postgraduate Award.
Glossary

USYDnet
USYDnet is the University of Sydney's intranet system. In addition to the customised MyUni service, it provides access to other services such as Directories (Maps, Staff and Student, Organisations), a Calendar of Events (to which staff and students can submit entries), and a software download area.

Variation of Enrolment
(See Enrolment Variation)

Vice-Chancellor
The chief executive officer of the whole University, responsible for its leadership and management. He is head of both academic and administrative divisions.

Waiver
In a prescribed course, a Faculty may waive the Prerequisite or corequisite requirement for a Unit of Study or the course rules for a particular student. Waivers do not involve a reduction in the number of credit points required for a course.
(See also Credit)

Weighted Average Mark (WAM)
The Weighted Average Mark (WAM) is the average mark in the UoSs completed, weighted according to credit point value and level. The formulae used to calculate the WAMs are course-specific: there are many different WAMs in the University.

Year of First Enrolment (YFE)
The year in which a student first enrols at the University.
