For me it because we can impressed the society and also can change their behaviour. So the observation was directly to people, the monitoring was done by checking people's closet. Other programs just take care the physical things.

We were invited to Barayan Elementary school,we were invited there as the kader of POSYANDU,and kader of PKK,youth''Karang Taruna'',school kids and the head of the local district ''pak lurah'' and also the religious leader in Kelurahan Lembong.
