

*Bern, a great place to visit or live- with sunny skies and endless fields you'll feel right at home in this nature-enriched environment. The Pret-jaz music theatre in Bern is a great attraction, exploring the history, present and future of music through the local and international acts performing. The architecture of the Pret-jaz is one that must be seen on a visit to Bern. With the dazzling metallic roof, contrasting with the black-and-white themed interior, the human eye is forced to stare and marvel.*
