

## **COPYRIGHT AND USE OF THIS THESIS**

This thesis must be used in accordance with the provisions of the Copyright Act 1968.

Reproduction of material protected by copyright may be an infringement of copyright and copyright owners may be entitled to take legal action against persons who infringe their copyright.

Section 51 (2) of the Copyright Act permits an authorized officer of a university library or archives to provide a copy (by communication or otherwise) of an unpublished thesis kept in the library or archives, to a person who satisfies the authorized officer that he or she requires the reproduction for the purposes of research or study.

The Copyright Act grants the creator of a work a number of moral rights, specifically the right of attribution, the right against false attribution and the right of integrity.

You may infringe the author's moral rights if you:

- fail to acknowledge the author of this thesis if you quote sections from the work
- attribute this thesis to another author
- subject this thesis to derogatory treatment which may prejudice the author's reputation

For further information contact the University's Copyright Service.

# A RANDOMISED CLINICAL TRIAL ON THE EFFECTIVENESS OF TOPICAL NON- STEROIDAL ANTI-INFLAMMATORY DRUG FOR PAINFUL TEMPOROMANDIBULAR DISORDERS

**Dr Tuan Anh Dao**  
BDS *Hons* (Syd)

A treatise submitted in partial fulfillment  
of the requirements for the degree of

**Master of Dental Science**  
Discipline of Prosthodontics

Faculty of Dentistry

The University of Sydney  
2008

**Student Plagiarism: Coursework Policy and  
Procedure Compliance Statement for Individual Work**

I certify that:

- 1) I have read and understood the University of Sydney Student Plagiarism: Coursework Policy and Procedure;
- 2) I understand that failure to comply with the Student Plagiarism: Coursework Policy and Procedure can lead to the University commencing proceedings against me for potential student misconduct under Chapter 8 of the University of Sydney By-Law 1999 (as amended);
- 3) This Work is substantially my own, and to the extent that any part of this Work is not my own I have indicated that it is not my own by acknowledging the source of that part of those part of the Work.

Name: Tuan Anh Dao

Date: 13<sup>th</sup> October 2008

## **Acknowledgements**

I would like to acknowledge the patients who agreed to participate in this study. Without them no results would be achieved.

to Associate Professor Chris Peck for his continual guidance and genuine understanding throughout the entire research treatise

and Professor Iven Klineberg who gave me the opportunity to learn and mature as a postgraduate student and for that I am sincerely grateful.

And finally to my loving parents for their continual support and encouragement. For you have shown me what sacrifice and hard work can achieve.
