

# The Old City - Jerusalem

## عماج لبق تسملا قافاً

The Old City of Jerusalem was a bit difficult to work with as it provided many restrictions. Religion was one of the two things that came to me as soon as i thought of Jerusalem, the other being chaos.

عماج لبق تسملا (Prospect Mosque) is a local Mosque built out of local sandstone. It brings people away from the chaos and into another peaceful spiritual world. The large columns enclosing the space evoke an image of safety, which may be hard to find in the conflicted city of Jerusalem.
