NEW YORK
music box

New York needs another concert venue. One that opens onto the water. One that’s cozy in winter and breezy and cool in summer. One with lots of flexible bar and restaurant space. That’s the Music Box. In winter it’s an introspective New Yorker, rugged up against the weather. In summer it strips off and stretches out to welcome the sun, the stars and the breeze off the lake. The Music Box is always ready for a good time. It works hard so you can play harder.
