THIS IS THE DESIGN OF AN OFFICE BUILDING FOR THE HEADQUARTERS OF A STEEL INDUSTRY COMPANY; ONE OF SWEDENS LARGEST INDUSTRIES. IT WAS DESIGNED TO EXPRESS THE ESSENCE OF THE COMPANY BY ACTING AS A SHOWCASE FOR STEEL WITH LARGE SPANS AND ROOF STRUCTURE. CONFERENCES, MEETINGS AND DISCUSSIONS WITH CLIENTS WILL BE THE PRIORITY OF THIS BUILDING, THEREFORE, THERE ARE DIFFERENT AREAS FOR THEM; FROM THE CASUAL LOUNGE TO THE MORE PRIVATE CONFERENCE ROOMS. IN ADDITION TO THESE SPACES, THERE IS A CAFE ON THE GROUND FLOOR THAT IS ACCESSIBLE TO THE PUBLIC AND ALSO CONVENTIONAL WORKSTATIONS ON UPPER FLOORS.
