

SECTIONAL PERSPECTIVE

THIS SECTION CONVEYS THE LEVELS PRESENT IN THE ANATOMICAL THEATRE. IT CLEARLY SEPARATES THE GROUND LEVELS AND THE UNDERGROUND.

IT ALSO INTRODUCES THE EXPERIMENTAL LABORATORIES (PODS) THAT ARE SUPPORTED FROM A NEWLY INTRODUCED TRUSS SYSTEM. IT ALSO INDICATES THE POSSIBLE CIRCULATIONS OF THESE PODS THROUGH RAMPS AND NARROW PASSAGEWAYS CONNECTING TO THE ELEVATORS AND STAIRWELL.

THIS SECTION ALSO BRINGS INTO CONTEXT THE SCALE OF THE BUILDING ITSELF. ITS LACK OF WIDTH WAS DEFINITELY MADE UP WITH ITS HEIGHTS GIVING THIS SPACE VERY PARTICULAR ATMOSPHERE.

THIS EXPLODED PERSPECTIVE SHOWS THE FUNCTIONS THAT I HAVE INTRODUCED TO THE CHURCH. THE GLASS BOX EXTENSION TO THE SOUTHERN WALL CAN BE NOTICED DIRECTLY FROM THE OUTSIDE OF THE BUILDING INTRIGUING PASSERS BY WITH THIS MODERN EXTENSIONS.

THE ANATOMICAL THEATRE SPACE IS DISCREETLY HIDDEN UNDERGROUND WHERE ITS PRESENCE CAN STILL BE A SURPRISE TO CURIOUS LOCALS AND TOURISTS.

THE NEW BUILDING AT THE BACK HAS THE OBVIOUS FORM OF AN OFFICE WITH STRAIGHTFORWARD FLOOR PLANS AND CUBIC ROOMS
