## Library Web Site

The screenshot shows the main navigation and service areas of the library website. It includes a search bar, a list of services for students and researchers, and sections for study and research help, as well as publishing and partnerships.

## Ensure access to your research

This page provides a central hub for research-related services. It lists various support options such as copyright services, research support, open access advice, and publishing platforms. A table summarizes these services:

<b>Copyright services</b>	advice on copyright and intellectual property.
<b>eResearch support</b>	services supporting research data management.
<b>Open Access</b>	advice on how to make your research available on Open Access, including access to the <a href="#">Author Addendum tool</a>
<b>Publish your research</b>	advice on scholarly publishing, compiled in conjunction with the Research Portfolio.
<b>Scholarly text and multimedia projects</b>	supporting academic partnerships.
<b>Sydney eScholarship Journals Online</b>	platforms for publishing open access journals.
<b>Sydney eScholarship Repository</b>	the University's institutional digital archive.
<b>Sydney University Press</b>	the University's scholarly publisher.

## Sydney eScholarship Repository

The screenshot displays the Sydney eScholarship Repository interface. It features a search bar, a browse section with filters for Home, Communities & Collections, Titles, Authors, Subjects, and By Date. There is also a login section for different communities and an important links sidebar.

## Types of manuscript versions

### Preprint

- the version of the paper submitted for peer review. This is the author's original manuscript

### Postprint (Peer reviewed manuscript)

- the accepted version for publication or the version of the paper after peer-review, with revisions having been made

### Published version

- the publisher-created published version (the publisher's pdf)

ARC Open Access Policy states you can use:

## author's version of the article (postprint)

- (manuscript) after peer-review, with revisions having been made

## publisher's version

- journal version with final pagination and formatting

What version can you deposit?

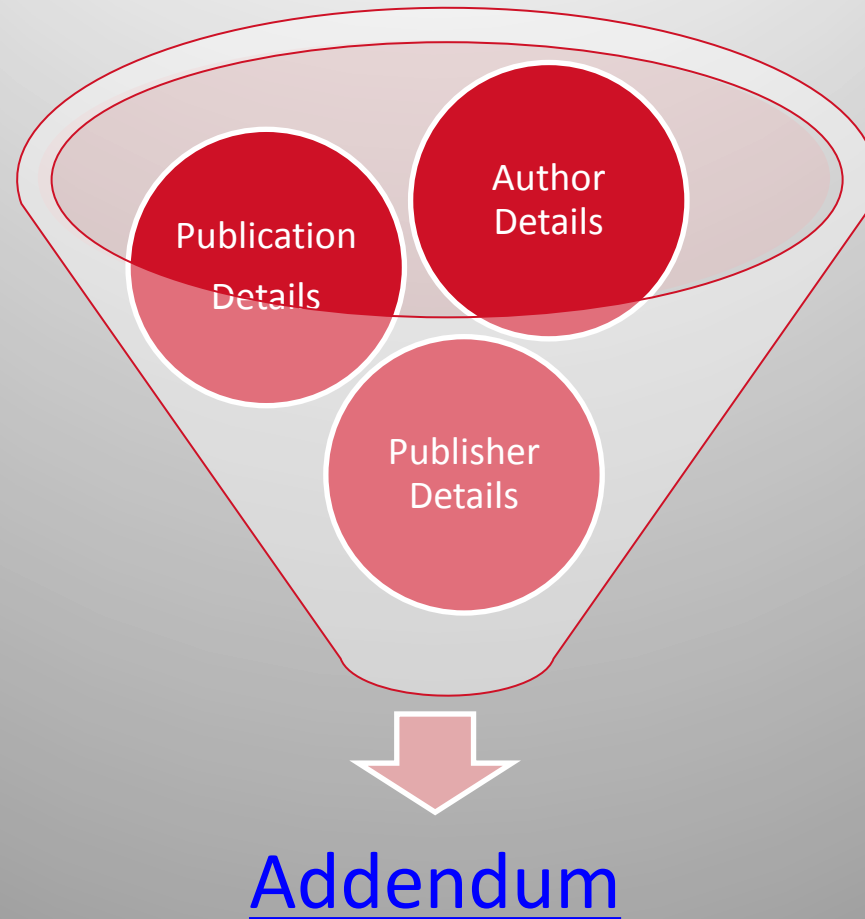

Look at your publishing contract

THE UNIVERSITY OF  
SYDNEY

## The Open Access to University Research Policy...

- › articulates the University's commitment to the widest possible open communication of its research and scholarly output to other researchers and the community;
- › enables compliance with funding rules and open access policies of the ARC, NHMRC and other public and private research funding bodies;
- › explains the expectations of the University, including the responsibilities of chief investigators, researchers, schools, faculties and the University in relation to open access to research outputs; and
- › supports the ongoing development of infrastructure and services to enable the open communication of the University's research outputs.

- › **November 2012:** A proposal to develop policy was created and approved by the Office of General Counsel
- › **November 2012:** A statement of policy principles was endorsed by the Senior Exec Group Research Committee
- › **December 2012:** First draft...
- › **March 2013:** Draft policy to be sent to the SEG RC for initial consultation
- › **March – May 2013:** University-wide consultation and feedback
- › **June 2013:** Policy to be endorsed by the SEG
